Large Size Evergreens for

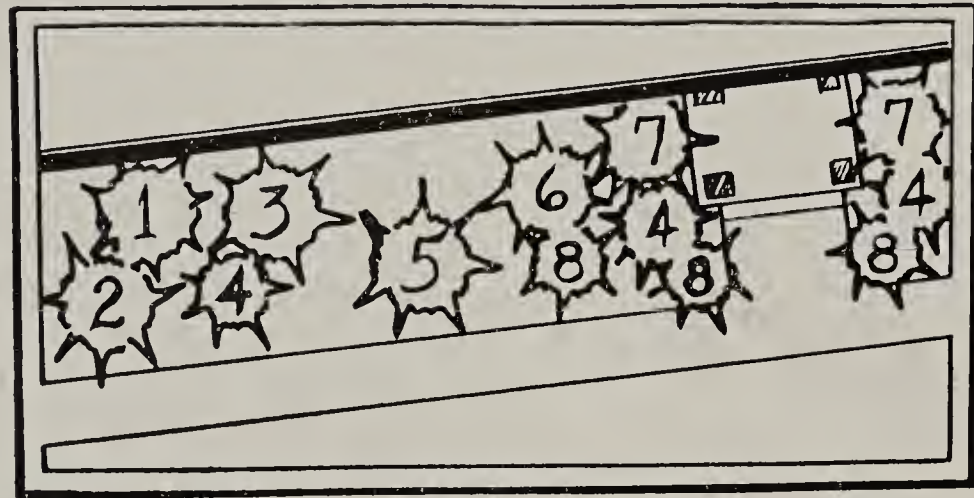

Prices Never So Low Before

Immediate Effects

THERE is nothing in the world that gives the home that "well groomed" look like a group of Ferris Evergreens. Their matchless foliage, symmetrical lines, and their lustrous greens and shades of silver so charmingly frame the picture. The nice part is that their landscape beauty lasts the year through. The winter landscape is bare and dreary without a group of our beautiful Evergreens.

Ferris' *FREE* Landscape Service

Planting Plans Made to Order

THE demand for Ferris' planting plans has grown enormously the past few years, and we are glad to announce that our Landscape Department is continuing this service again this season. If you are desirous of obtaining a landscape plan that will exactly fit your home grounds and specifications, it is a golden opportunity.

All you need to do is to write us for our Sketch Blank. On this blank are full and simple directions so that anyone can make us a rough drawing of their home grounds. Upon returning this drawing and a remittance of \$2.00, we will have our landscape expert make a landscape drawing and planting chart that will give you an accurate and balanced plan to follow in planting your home grounds. Be sure to send for the Sketch Blank, for our landscape expert **must have your rough drawing made on this**, in order to get all dimensions, directions, etc.

Then, if you purchase the planting material from us and the order amounts to \$15.00 or more, the \$2.00 you have already paid for the plan is applied on the order as a due bill, **thus giving you this landscape service absolutely free**. The \$2.00 remittance required when we make the drawing is merely to keep away idle curiosity

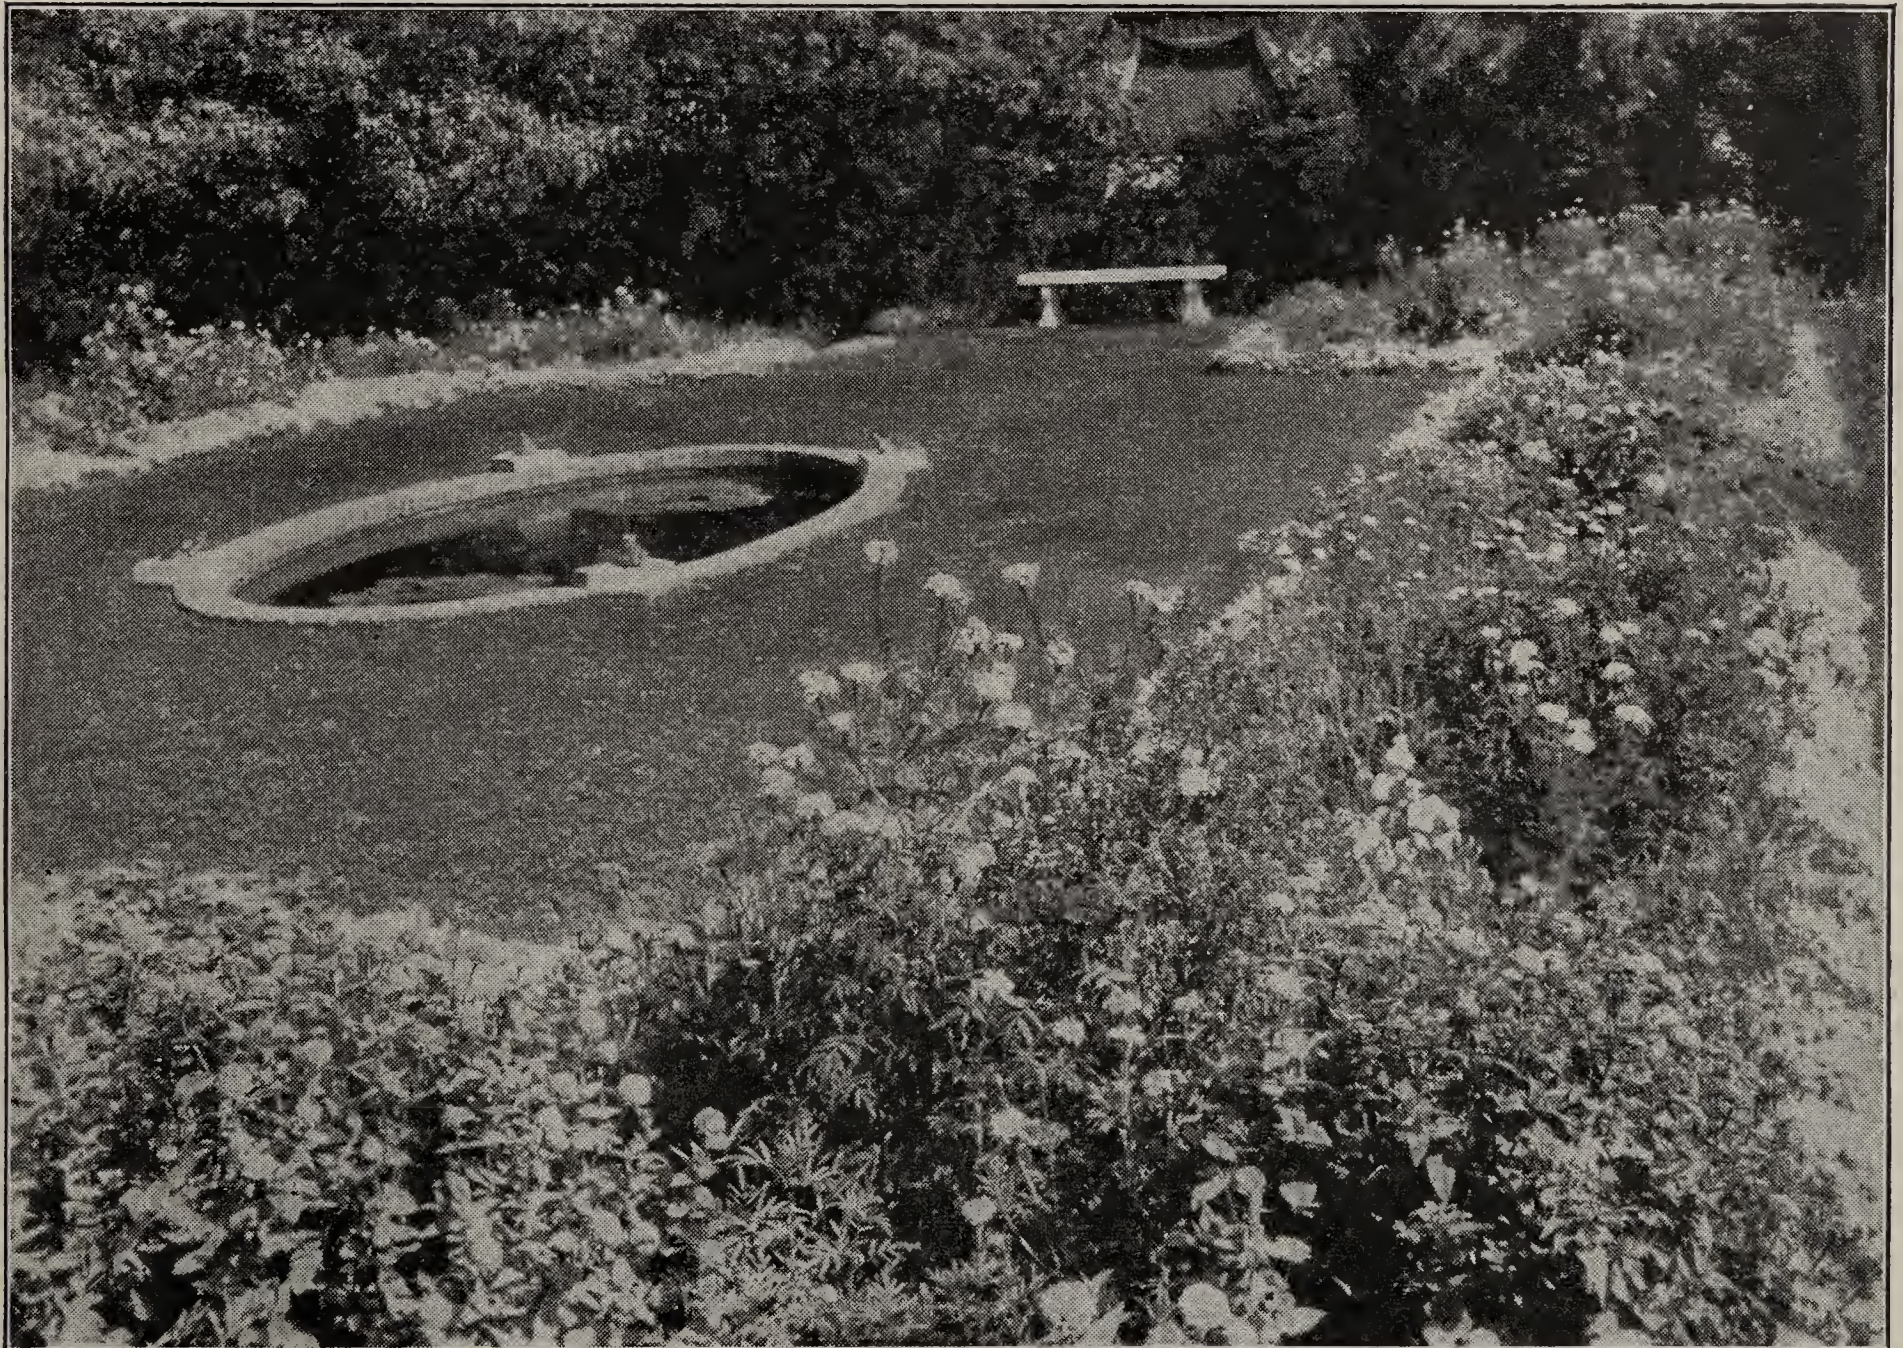

Complete Individualistic Service

seekers. The Landscape Department maintains the right to charge a slightly higher rate where lots of over 60 x 200 feet are planned, or where very elaborate plantings are desired.

These plans are made under the direct supervision of our landscape expert; they are clear and easy to follow, and we have had the finest sort of compliments on them in the past. Our customers have been more than pleased with the way Ferris landscaping has transformed their properties.

NO PLANTING PLANS MADE AFTER MARCH 15

Our shipping season is in full sway by April 1st, and because we want to give every customer the best possible service, we cannot take the time to make personal planting plans during that busy time. The shipping season for nursery stock is, of necessity, a limited one. We have a great many thousand customers to ship to, we spend sometimes nearly twenty-four hours of the day endeavoring to get shipments off promptly and in good shape. Accordingly, we have had to make this ruling not to furnish sketches and drawings after March 15th, so be sure to send in your application for landscape plans early.

Let Us Help You Create Just Such a Charming Garden or Outdoor Living Room. See Explanation of Our Free Landscape Service Above.

Four Generations of Ferris Nurserymen

Welcome You

Lowest Prices—Highest Quality—Best Service—Satisfaction.

The Ferris spirit carries on into 1933—offering to our customers only the very best in trees and plants, at shattered prices to fit the times.

Back in Civil War days, during the year of 1869, S. W. Ferris laid the foundation for this nursery, and we have built thereon a reputation for unusual quality and service. His method of transplanting and root-pruning trees and plants to give them extra vitality, beauty and hardiness has been handed down and improved from one generation to the next in our family.

And the quality of Ferris nursery stock has been proven by the ever-increasing patronage from our thousands of customers. From one end of the country to the other, you find the name of Ferris known for quality and low prices.

**Direct from the Grower to the Planter—
No Agent's Commission**

No one can make lower prices than the grower. Ferris prices are low because all nursery stock is grown in our own nursery, packed by

ourselves, and sold direct to you, and besides, you save for yourself the selling agent's commission. This Planter's Guide is our only salesman—accurate descriptions and actual photographs to help you make a careful selection—and prices that will save you about 50 per cent.

Here at Hampton we have had the most favorable growing season in history—an abundance of rain and warm weather when we needed it, putting the biggest, strongest growth on Ferris trees and plants that has ever been recorded. Then, because we have grown it in such enormous quantities, we are able to offer you this Super-Quality Stock at these greatly reduced prices. This is the year to plant.

Earl Ferris inspecting several million Evergreen seedlings in the propagating beds.

To encourage our customers to order early, so that we can give you not only the first selection of stock, but also the very best service, we are offering the following wonderful Free Premiums with orders received by MARCH 1, 1933. Get one of these fine Free Gifts with your own order, or with a club order you work up among neighbors and friends. They are given where cash in full accompanies the order. We absolutely cannot allow these premiums where the order is not in by the stated time, and where they are not requested on the original order.

BARGAIN PRICES

It's Easy to Order from Earl Ferris Nursery

Our Guarantee Protects You

How to Order

Order Early If we receive your order before our rush shipping season, we can give it a little the best service, and you get first selection of stock. Orders are booked as they are received, but shipments are not made until the proper time to plant, unless otherwise requested. We are so organized that we can handle thousands of orders daily, there are four large railroads out of Hampton, and we get splendid shipping service to all parts of the United States.

Quantity Prices We sell five trees of one variety at ten rate; 50 at the 100 rate; 500 at the 1000 rate, unless otherwise stated. Less than five of one variety at the each rate.

We Handle No Order Under \$1.00

except special Advertising Bargains. It costs us about \$1.00 to handle any order regardless of the size, and we must get handling expenses out of them.

In Sending Money, you may remit by check, draft, postal or express money order, or cash in registered letter. Please do not send stamps as remittance with orders. On orders up to and including \$5.00 we require cash with order. On orders amounting to more than \$5.00, we require either all cash with order, or, if customer prefers, one-fourth cash with order, balance C. O. D.

In Case of Error or Shortage please write us immediately. We are here to give best possible service and satisfaction to our customers. Check over your order carefully, searching through the packing for any small items you may have ordered, and if there are any errors, notify us at once, stating number of bales or boxes you have received.

COME AND VISIT US.

See how we grow bushy, symmetrical specimens for landscape planting. Here are Blue Junipers, Globosa Arbor-Vitae and other Ferris specialties.

The Ferris Guarantee

I guarantee that Ferris nursery stock will reach the purchaser alive and in growing condition, and will replace, free of charge, any that does not, upon receiving your express or freight receipt with statement from the agent showing loss or damage.

Any tree or plant that dies the first growing season, I will replace at a cost of one-half the regular catalog price, customer to make report and have his order for replacement in our hands before October 10th, following date of purchase.

I guarantee to every Ferris customer stock that is true-to-name and absolutely as represented. Any Ferris stock proven not to be will be replaced free of charge or the purchase price refunded. I cannot be held liable for any damage other than herein named.

Parcel Post Shipments If nursery stock is ordered by parcel post, and no money included for postal charges, we will send the trees or plants as directed, if possible, with postage C. O. D., but if the size or weight of the bundle is outside of the parcel post limit, or contains nursery stock difficult to handle by parcel post, we reserve the right to change the routing to express.

BARGAIN COLLECTIONS CANNOT BE DIVIDED OR CHANGED IN ANY MANNER.

In Shipping Evergreens the larger sizes will have to go by freight or express. Medium sized Evergreens, and the two, three and four times transplanted windbreak Evergreens in Norway Spruce, Jack Pine, etc., should not be Balled and Burlapped, as they are grown too close in the rows to ball satisfactorily, but if you so desire and will so specify on the order, we will mud the roots as we pack them, without extra charge.

Balled and Burlapped Evergreens in most cases will have to go by freight, on account of the bulk and weight. Do not be afraid to have these Balled Evergreens shipped by freight, for their roots are packed solidly in the earth they have been growing in for years, and they can be on the road for weeks without any damage whatever. In the past, however, we have found that freight shipments of Evergreens traveled quite rapidly with little or no delay. We always advise that large, heavy, specimen Evergreens be Balled and Burlapped, and shipped by freight.

How to Plant and Care For Nursery Stock

Start a Successful Planting by Purchasing High Quality Stock Properly Handled

Good trees and plants are, naturally, the first step towards success. We have told you how we have been working these 64 years, producing strong, sturdy, heavy root systems, and ultimately the healthiest and most vigorous stock that can be grown. It is this kind of trees and plants that we send to our customers, and in addition pack them right.

In our Direct-to-Purchaser method, our trees are dug fresh from the nursery row, packed carefully, and are on the road to the customer within two or three hours time. There is no shipping to a distributing point, thence divided, handled two or three times and reshipped, or any other unnecessary delays such as are obvious when handling through agents. We have four railroads through Hampton, going in all directions, and each and every shipment is billed direct to the customer.

Good, careful packing is essential to success, also. We have spent considerable study on the best packing methods ever since we started in the business, and we feel that this is another place we are giving our customers No. 1 service. Ferris trees and plants are packed so that they reach our customers in as good condition as when they came from the nursery row. We have shipped into every section of the United States for many years, with remarkable success. A well known express superintendent has told us many times that we turn over to the express company the best packed shipments of nursery stock he ever had the pleasure of handling.

The Finest Block of Pyramidal Arbor-Vitae Specimens in the United States.

3. Always plant as soon as the trees reach you. Do not expose the roots to the air. When you have everything ready to plant, unpack the shipment, putting the roots of each tree into a thick mud puddle, so that as much of this sticky thick substance as possible will cling to the roots.

4. Plant deeply and firmly, spreading the roots out in their natural positions, and press the soil around each tiny root with all of your might. Evergreens should be planted from two to six inches deeper than they were in the nursery row, depending on the size of the tree. At the top of the ground leave a little loose soil to prevent the ground from baking.

5. Start cultivation at once; cultivate well and often during the growing season. This should be done for the first two or three years. Evergreens will not thrive or give best results in a weed patch. If you cannot cultivate, give them a very heavy mulching of well-rotted straw or old sawdust as soon as your trees are planted. (In localities of extreme cold, such as Northern Minnesota and the Dakotas, it is advisable to mulch the trees early in the fall, after cultivating them throughout the summer).

6. A judicious trimming is also beneficial to transplanted Evergreens. Trim about one-fourth of the foliage from your trees as you plant them. This may cause them to appear a trifle slim for a year or two, but they will be all the better for it in the end. In trimming Evergreens, do not cut off the terminal bud on the leader (tip), but trim back other branches about one-fourth.

7. Regardless of locality, see to it that your young grove is securely fenced when planted. Nothing is more injurious to young Evergreens than livestock in the yard to trample them down.

8. If you are having dry weather at planting time, you should water your Evergreens thoroughly about every other evening until you get a soaking rain. Do this through all dry spells for the first year or two. This is especially necessary in foundation plantings of ornamental Evergreens, where the trees get a strong reflection from the sun and the ground dries out more readily.

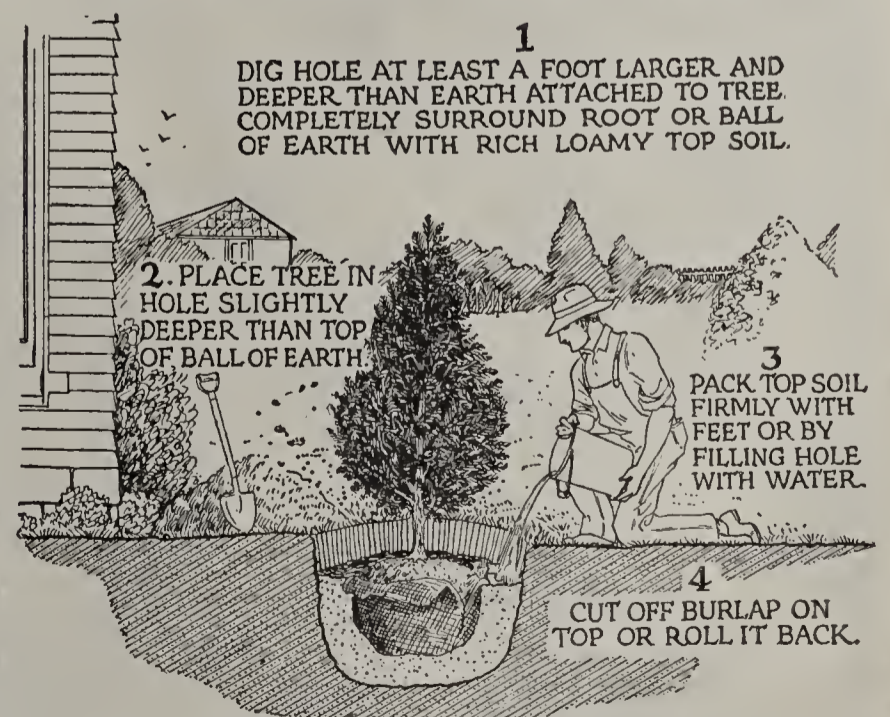

Just a Sample of Our Colorado Blue Spruce Shiners in the Nursery.

Important Rules to Follow in the Planting and Care of Evergreens

1. Examine the trees at express, freight or truck office, and call any damage to the attention of the agent at once, as all trees will be in perfect condition when they leave the nursery.

2. Have your ground ready for planting by the time the trees arrive. It should be good growing soil such as you would use for a corn crop or garden, and prepared in much the same manner. Never plant on new sod. If there is sod where you wish to plant, strip the sod for a width of six feet the length of the row, or a space four by four feet may be stripped and a tree planted in the center of each space. Thoroughly work and pulverize the soil from which the sod has been stripped.

How to Properly Plant Balled and Burlapped Evergreens

ADD LOOSE SOIL UNTIL THE HOLE IS FILLED AND PACK FIRMLY AND LEAVE LIBERAL SUPPLY OF LOOSE EARTH ON TOP.

9. **For Balled and Burlapped Evergreens.** Dig a hole about twice the size of your ball, and plant the tree at once. If the ground is dry at planting time, fill the hole with water, and let it soak away before putting in the tree. Take care to handle the tree carefully so as not to break the ball, place it in the hole so that the tree will be a few inches deeper than it had been in the nursery, then cut the burlap at the top of ball, rolling it back for three or four inches. Plant ball, burlap and all, using good growing soil to pack around the ball, and be sure to pack this soil firmly. The drawing on this page shows each step in planting Balled Evergreens.

10. **For Seedlings and Small Transplanted Evergreens.** This applies to seedlings and once transplanted grades. Plant them in a garden spot or in beds for the first two years, and care for them as you would cabbage plants. The more cultivation you give them, the better, and see that they get plenty of moisture during dry periods. In two years time the trees should be in good condition for transplanting into your permanent windbreak row, or into the border and group plantings around your home. Small transplants are cheaper in the long run than Seedlings, as they are much more liable to grow. The two and three times transplanted Evergreens, as well as the larger sizes, are ready to be planted in their permanent locations.

One of Our Big Fields of Hardy Perennial Phlox.

Correct Distance to Plant Evergreens for Windbreaks

The distance apart that Evergreens should be planted depends very much on the number of rows used. We advise 8 feet apart in a single row, 10 feet apart each way in two rows, 14 feet apart each way in three rows; but the ideal windbreak is a four- or five-row windbreak, planted 14 feet apart in the row and the rows 20 feet apart. The space between the rows can be used for potatoes, corn, or any vegetable.

How to Determine the Number of Trees or Plants to an Acre.

Multiply the distance in feet between the rows by the distance the trees or plants are apart in the row, and the product will give the number of square feet that each tree or plant will occupy; then divide this number into the number of square feet in an acre (43,560), and it will give you the number of trees or plants to the acre.

“HOW FAR APART SHALL I PLANT?”

The correct distance apart to plant is often a problem to planters. There are no set rules for this, but with our years of experience in planting and growing, we are glad to suggest advisable distances to our customers, which will work out very satisfactorily in every way.

Apple Trees	25 to 40 feet apart
Cherry Trees	15 to 18 feet apart
Plum Trees	12 to 15 feet apart
Pear Trees	15 to 18 feet apart
Peach Trees	16 to 18 feet apart
Grapes	6 to 8 feet apart
Currants and Gooseberries	3 to 4 feet apart
Raspberries	4 by 6 feet apart
Blackberries	3 by 5 feet apart
Spring-Bearing Strawberries (Field)	1½ by 3½ feet apart
Everbearing Strawberries (Field)	1 by 3½ feet apart
Strawberries (Garden)	1½ by 1½ feet apart
Asparagus (In beds)	1 by 1½ feet apart
Asparagus (In field)	1 by 3 feet apart

You will be delighted with the soft, blending colors of these Ferris Evergreens. Their year-round beauty gives a distinctive finish wherever used.

Norway Spruce

Here it is; everybody's tree.

The tree of comfort and beauty. The well kept country place of today is protected by an evergreen windbreak, and nine out of every ten of these windbreaks are comprised of Norway Spruce.

And indeed, why not! The Norway Spruce makes a large, fine looking tree—grows the most rapidly of all the Spruces—thrives in a great variety of soils—is hardy everywhere—while its compact, heavy growth clear to the ground provides a complete shelter to the buildings and grounds back of it.

Then, the Norway Spruce easily stands close planting and severe pruning. Hedges 25 years old can be kept trimmed to a height of 4 feet, whereas the natural growth would be about 50 or 60 feet. The foliage is a dark, rich green, needles short and stiff, the tree itself developing a tall, bushy pyramid,

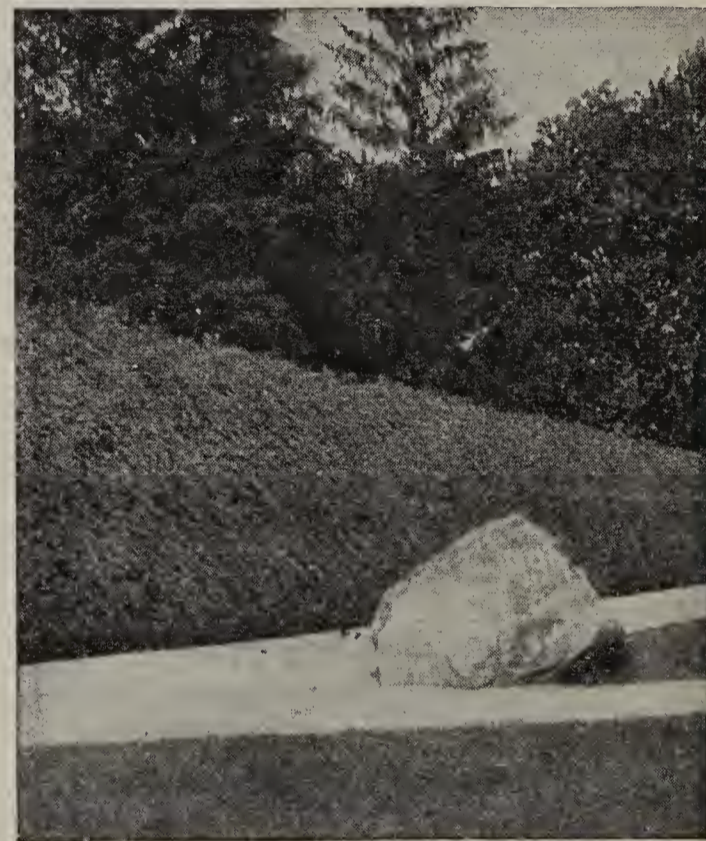

A typical Ferris grown, 3-4 ft. Specimen Norway Spruce as you receive it.

often reaching a height of 80 to 100 feet at maturity.

How Much Growth Does a Norway Spruce Make in a Year?

This is a question we are often asked. The year they are transplanted, evergreens make little growth, for their strength goes mostly to the new root growth, and to the general establishment of the trees in the new situation. From then on, however, if an 18 to

24 in. or larger Norway Spruce was used for planting, and if local conditions are favorable, it will make an annual growth of 12 to 24 inches.

A dense, impenetrable hedge of Norway Spruce, 10 feet high. Beyond are 40-foot trees of Norway Spruce all the same age.

It is the Finest of All Evergreens for Christmas Trees

The Norway Spruce is used more than any other for Christmas trees. In the past few years we have furnished Christmas tree planters with thousands of Norway Spruce for their large farms, and reports received from them have been, without exception, most favorable.

Here at Hampton We Have the Largest and Best Stock of Norway Spruce in the United States

Come to the nursery and see them—millions of them all the way from tiny seedlings up to big, heavy, bushy trees that are superb for immediate effects in the windbreak row or in the landscape planting. Particularly are we long on heavy, 2 to 3 ft. transplanted Norway Spruce—a wonderful lot if you desire to start a hedge or the ideal grade for a windbreak. They have been four times transplanted and four times root-pruned, with splendid roots and tops.

Back of the strong, interlacing branches of our famous Norway Spruce trees, you do not feel the icy blasts of wintertime—your home is free of draughts and the fuel bill is diminished surprisingly. The stock is housed snugly and the feeding costs cut in two. Not only that, you will be delighted with the fine landscape effect throughout the year—a wonderful background of towering strength and beauty.

White Spruce — Shimmering, Graceful Symmetry A Handsome Evergreen

White Spruce.

We have never had as beautiful a stock of White Spruce as we are offering this year. So many visitors in going through the nursery fields have stopped and admired these trees—great even rows of them, that stand like well trained soldiers. A word about our White Spruce—it is the northern type that is so much hardier and so much finer in every way than the southern type.

As landscape trees, our White Spruce have few equals. Broad, imposing pyramids of symmetrical outline, and the most alluring shade of light silvery green, sometimes almost blue. The foliage is extremely dense, growth a little more open than the Black Hills Spruce, the needles being short and stiff. It grows rapidly, reaching a great height at maturity—always trim and majestic. Coming from the North, it is hardy, even in the coldest places. For background screens, landscape groups or as specimens, Ferris' White Spruce will never disappoint you. It makes a fine hedge, too, being easily trimmed to the height and shape desired.

Don't overlook the White Spruce for windbreak planting; they make splendid, beautiful shelter-belts—hardy even in the North and West where other varieties are difficult to establish.

Black Hills Spruce.

Black Hills Spruce

An Evergreen of Rare Charm—Ours are Choice Specimens.

This lovely Evergreen simply will not grow in any other way than bushy, compact and symmetrical. Always a little beauty with its heavy, thick foliage, it has become one of the best Evergreens of them all for landscape work, besides being a wonderful windbreak Evergreen for the West and Missouri Valley districts.

It is a form of the White Spruce, a native of the Black Hills country of South Dakota, and resembles its parent, the White Spruce, very much except that it is somewhat slower in growth and a little more compact. Its color, too, is even more silvery than the White Spruce. It is hardy, easily transplanted, and a great favorite. The Horticulture Department at Ames, and eminent horticulturists of Nebraska and Dakota recommend Black Hills Spruce above all other Evergreens for Missouri Valley planting. There is a strip of land on both sides of the Missouri River where the Black Hills Spruce seems to do better than any other Evergreen, and there in its native soil it grows more rapidly than in other sections.

Colorado Blue Spruce

This Evergreen Will "Dress Up" Any Landscape Setting, and Give It Real Distinction.

Truly a glorious Evergreen, and coming from the Rocky Mountains of Colorado, it has the hardy, rugged, majestic characteristics peculiar to that clime. Foliage very heavy, needles short and stiff, developing a tree that is unusually symmetrical and graceful.

The color of this lustrous Evergreen varies from deep dark green to silver and blue. The following Colorado Spruce are not guaranteed as to color, for they were not marked in the summer or growing season, when the silver or bluish cast is at its best, but many of them, especially those in the smaller sizes, will develop into very fine blue specimens if given time, good care and patience. Ours are extra fine trees, well rooted and shapely—a choice lot for landscape work.

	25	50	100
3-yr. seedlings, 4-8 in. average	\$2.50	\$4.00	\$7.00

Selected Colorado Blue Spruce Shiners

Supreme in Color, Texture and Shapeliness, the Blue Spruce Has Few Rivals.

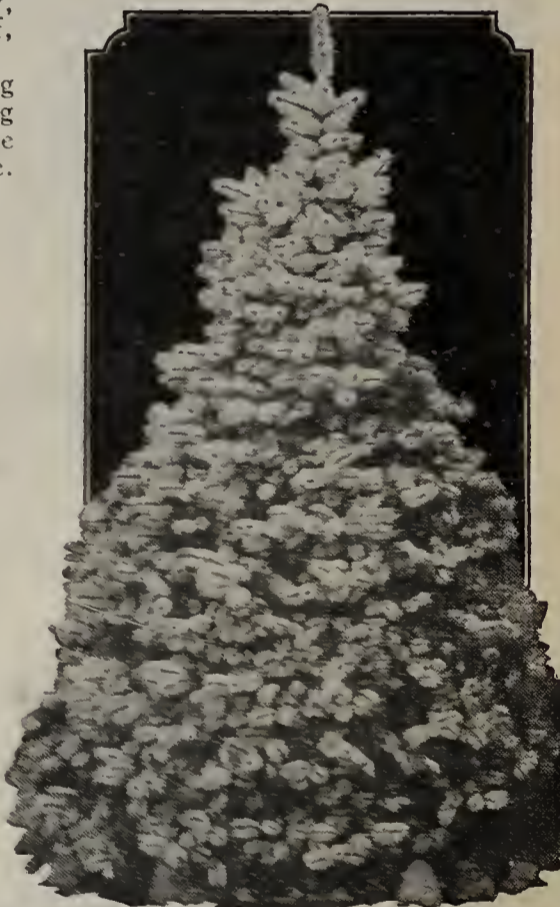

Nature has produced a myriad of beautiful trees for Mother Earth, but last of all she must have made the Colorado Blue Spruce Shiner as a crowning glory of them all. Into this wonderful ornamental tree has been combined a silvery blue luster, perfection in form and symmetry, and hardy characteristics that make it adaptable to nearly all climates. It can be used very effectively as a specimen, in groups by itself, or in combination with other Evergreens, where it should be planted in the foreground to display its coloring and form. Needles rather short and stiff; heavy, compact growth. It should have plenty of sunshine, to reflect the silvery luster to best advantage.

The planter must remember that in the spring of the year the Colorado Blue Spruces are off color, and when transplanted, do not regain their bluish color until they make a good growth. It is this new growth that brings out and renews the silvery sheen on any Blue Spruce.

The following are selected Blue Spruce Shiners, marked in our nursery during the summer when they reflected a remarkably fine, silvery blue color. We cannot recommend them too highly for landscape work. Most of our customers find them easier to transplant than the grafted Koster's Blue Spruce, they grow more rapidly and more compactly, and have always given satisfaction.

NOTE.—Our Colorado Blue Spruce Shiners and Koster's Blue Spruce are all extra fine, and are the only trees in the nursery that will be Balled and Burlapped without extra charge.

Colorado Blue Spruce Shiner.

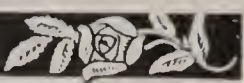

Koster's Blue Spruce

Blue as the Skies — A Royal Beauty.

The Koster's is a selected species of the Colorado Blue Spruce with grafted tops; color is a deeper, even more perfect blue than that of the Shiners, foliage heavier and a trifle longer. Because of being grafted, they are more open in growth when small than the Colorado Blue Shiners. As the tree grows from youth to maturity, however, it becomes thickly studded with well formed branches, tapering beautifully to the top, and is truly magnificent in its rich blue color.

2-yr. Grafted Koster's Blue Spruce. These little trees are not graded as to height, but will average about 6 to 10 inches high. They were grafted on a three-year-old Norway Spruce root, and have been in the open field for one year. As long as they last we will sell these little transplants for \$2.25 each. (If desired by parcel post, add 20c extra).

	Each

White Pine

Majesty and Grace Charmingly Combined. A Splendid Evergreen for Both Windbreaks and Landscape Planting.

This magnificent Evergreen is often called the "King of the Pines" not only for its grandeur in height, color and symmetry, but for its unusual hardiness and general adaptability that aid in making it one of the leading American trees. For a long period of time, it has been the foremost lumber Pine.

It is a very rapid grower, grows thick and compact, and is hardy and well adapted to a great many soils and conditions. The needles are long, soft and thick, and of a light even green. Planted alone, it will develop into a majestic specimen, tall and beautiful. A windbreak or screen planting of White Pine is not only attractive but very protective.

We want to say that our White Pine trees are certainly beauties in every sense of the word—the best that can be grown.

Because of the Federal Quarantine against the White Pine and the general prejudice it has awakened in certain districts on account of the White Pine Blister Rust, we are growing it today only in very small quantities. Do not be afraid to plant our White Pines, though, as they are absolutely free from all diseases—we have never had any White Pine Blister Rust within 100 miles of our nursery. On account of the Federal Quarantine, we cannot ship White Pine into Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming. Where orders from these states call for White Pine, we reserve the right to substitute with some equally as good or better evergreen.

	Each	10	100

Austrian Pine.

Ponderosa Pine

Rugged and Distinctive—A Staunch and Handsome Evergreen for the Background or Windbreak.

If you have been looking for the massive, spreading Pine with the very long needles—the tree that is invaluable in landscape either for solid background work or as enormous specimens, and one of the best Pines for windbreaks—here it is, the Ponderosa Pine, or Bull Pine as it is sometimes called.

With needles longer than you will find on any other Pine, extremely thick and of a rich, deep green, it is readily distinguished from other varieties. Its strong, massive, sturdy habits make it unusually attractive wherever used; the sweeping branches spread outward as well as upward, and even in old age it still retains its expansive, broad beauty.

On account of its absolute hardiness, it is extremely valuable for windbreaks on the northern and western plains, where conditions are so often unfavorable to the growth of other varieties.

This season we have an exceptionally fine lot of Ponderosa Pines; specimens that will work wonders on your landscape or make a splendid windbreak.

Austrian Pine

(Black Pine)

The dark, somber Pine of the mountains, of which poets write. It is very closely related to the Ponderosa Pine and almost identical in appearance, having the extra long needles, the great spreading branches and handsome form. Its foliage is very deep green, with branches a trifle more upright-reaching than you will find in the Ponderosa Pine. A splendid tree for ornamental planting, either in the background or as a choice specimen on the lawn, and because it is so hardy and dense in growth, and such a quick grower, it develops a remarkably fine windbreak. We have some extra strong, thrifty trees in this good variety, but our stock is limited, so order early.

Ferris' Specimen White Pine.

Ponderosa Pine.

Scotch Pine.

Scotch Pine

One of the Finest for Quick Windbreaks—A Picturesque Landscape Tree.

Slender, dark green needles of medium length, together with stocky, bushy growth makes the Scotch Pine an attractive tree; in old age the reddish bark is an added attraction. For generations it has been the popular Pine of Europe, not only for timber lands, but for ornamental use as well. It grows well on poor soil as well as fertile, is extremely hardy, and is one of the most rapid growers of all evergreens.

We cannot recommend our sturdy Scotch Pines too highly for a fine, quick windbreak, and our choice specimens are great favorites for landscape planting. For years we have sold great quantities of Scotch Pines to large estates for reforestation, as well as mass plantings in the landscape, and because they are so easily established, such quick growers, and fine looking as well, they never fail to give satisfaction.

Jack Pine

The Best Evergreen for Thin Soils, and Makes the Quickest Windbreak of Them All.

The Jack Pine, or Yellow Pine as it is sometimes called, is the most rapid grower of all the Evergreens; in fact, it will make a windbreak as quick as a willow. It is entirely hardy and quick to establish itself, doing well on any and all soils from the rich, black Iowa loam to the scant and barren soil of the Nebraska and Dakota plain; it is one of the easiest of all to transplant. Foliage is a light, rather yellowish green, needles moderately long and stiff.

This Evergreen makes fine, quick windbreaks that are protective as well as attractive, but it is not the best sort for lawn or ornamental planting. The planter who has poor soil to take into consideration, and wants an Evergreen windbreak in as short a time as possible, should by all means plant the Jack Pine.

Red Pine

(Norway Pine)

Hardy, Enduring and Fine Looking—Useful and Ornamental.

A truly magnificent Pine, and one of especially enduring, hardy qualities that make it valuable for the seacoast as well as for the poor, thin soils of the western plains. Its thick masses of long soft needles are a beautiful deep green, while the bark is reddish and artistically ornamental. A splendid tree for along the driveway, as

a background to evergreen or shrubbery groups, or a wonderful windbreak tree. Besides, it is one of the most extensively used for reforestation, being a hard Pine of much value.

18-24 in., heavy, XXX	\$0.25	\$1.50	\$10.00
2-3 ft., heavy, XXX30	2.50	20.00
(If desired Balled and Burlapped, add 50c per tree extra).			

Dwarf Mugho Pine

Dense, Low—A Little Beauty—Popular in the Border.

The picturesque Dwarf Pine that forms a bushy, compact ball, growing as broad as it does tall, never reaching over 4 feet high, and can be kept trimmed back if desired. It is very hardy, will thrive in almost any location, and because it takes so little space is a splendid variety for the foreground and close planting. Foliage is dark, rich green; needles long and stiff. In the spring the Dwarf Mugho Pine is unusually fascinating, the new growth looking like a multitude of tiny candles over the tree. Use liberally in landscaping.

Ours are extra choice specimens this season that are bound to please.

Jack Pine Windbreak.

Red Pine.

Mugho Pine.

(Silver Fir)

Regal and Handsome—It is the Perfect Lawn Specimen.

Out of the Rocky Mountains of Colorado has come this magnificent Concolor Fir. On account of its shimmering foliage, it is often called the "Silver Fir"—long, soft, graceful needles that vary in color from light green to deep blue. In its youth, it has a tendency to be a trifle straggly, but it grows rapidly, and quickly develops into a tall, broad specimen of unusual beauty.

Our Concolor Firs are of the Colorado type—perfectly hardy, so easy to transplant, and absolutely free from any insect troubles. It never loses its lower branches and grows more compact and shapely each season, sometimes reaching a height of 60 to 80 feet at maturity. Its distinguished air, lustrous foliage, and grand outline place it head and shoulders above the more common Evergreens—a superb specimen for the lawn, wonderful in groups or screens, while a windbreak of Concolor Firs would, in truth, be perfection in the highest degree. We have a finer stock of Concolor Fir this season than we have ever grown—beauties that will give complete satisfaction.

This beautiful Concolor Fir is growing in front of the home of S. W. Ferris II. Every Christmas Eve it is adorned with hundreds of colored electric bulbs.

Douglas Fir

A Distinguished Tree of Outstanding Beauty and Hardiness.

One of America's oldest and best enduring trees—its splendid adaptability, endurance and vitality enabling it to survive through the centuries. It is truly majestic and lovely, a native of the Rocky Mountains, where awe and majesty seem to predominate.

The foliage, as well as form, is somewhat characteristic of both the Spruce and Fir trees, acquiring the beauty of each. A strong, stalwart grower, exceedingly compact even to the ground. Its heavy foliage is a soft green color, with long, graceful branches. It is very long lived, retaining its beauty and symmetry from the ground to the very tip of its broad pyramid even through old age.

On account of its hardness and adaptability, it is a wonderful windbreak Evergreen, and can be planted successfully in almost any part of the United States. Its landscape qualities cannot be praised too highly, for planted either in a solitary place or in a group with other Evergreens, it is a masterpiece. In addition, it is a splendid hedge tree, shearing and trimming making it compact and dense.

Our Douglas Fir are very superior, the seed from which they were grown coming from Northern Colorado, from the very finest, hardiest type. For a splendid windbreak, for charming landscape effects or for hedges, you will find Ferris' Douglas Fir more than satisfactory.

Pyramidal Arbor-Vitae.

Arbor-Vitae Lutea (Golden)
Its Glowing Yellow Color Gives it First Place
for Contrast Effects.

If you want an evergreen in your planting with distinctive coloring, one that will give rich contrast, you will want the Lutea Arbor-Vitae. It has a very bright, golden yellow color, the new growth in the spring being especially vivid, and it holds the color well through the year. The foliage has the lovely lacy characteristic of all the Arbor-Vitae, very thick, and the tree itself is a low, symmetrical grower. Splendid for foundation groups or borders, where in combination with the green tones of other evergreens its full beauty is revealed.

	Each	10
2-3 ft. Spec., XXX	\$1.50	\$12.00
(If desired Balled and Burlapped, add 50c per tree extra).		

Pyramidal Arbor-Vitae

Superbly Formal—The Evergreen That Leads All Others for Ornamental Planting.

Our Specimens are the Finest Ever Grown.

What a beauty it is—our Pyramidal Arbor-Vitae—growing a classic head, slender and pointed, that is thickly covered with lacy, bright green foliage. It never grows too tall or bushy, but is simply ideal for almost any kind of landscape planting. A pair of them at the entrance is especially charming, and they are so very attractive in the foundation setting—between the windows, or at the corners of the dwelling where they stand out prominently. Then, in the garden they give a delightful formal touch, while their refined habits and small proportions make them very desirable for cemetery plantings.

Ferris' Pyramidal Arbor-Vitae are a selected type; the foliage is close and compact, and a bright green at all seasons, and they have been grown with extreme care. They require no shearing, for their natural development is the perfect pyramid that makes them the ideal landscape evergreen. They are hardy, and we have sent them into all sections of the country where they are growing successfully. You will certainly be pleased with our choice specimens.

(If desired Balled and Burlapped, add 50c per tree extra).

Globosa Arbor-Vitae

Delightful Formality—Charming in the Border.

It is hard to find a more handsome evergreen than our Globosa Arbor-Vitae. In shape it is absolutely round or globular, very dense in growth, and does not require shearing. The foliage is a deep, dark green, flat and beautifully carved like all of the Arbor-Vitae. Seldom does it get over 3½ or 4 feet at maturity, hence its generous use in low borders and foreground work. Our Globes are beautiful specimens that give charming effects in landscape planting.

Arbor-Vitae Alba Spicata.

American Arbor-Vitae - White Cedar

The Best Evergreen for Hedges, While Lacy Foliage and Refined Habits
Make it a Favorite for Foundation and Lawn Groups.

Probably no Evergreen is more admired than the American Arbor-Vitae, with its beautifully carved foliage of deep green, its graceful, refined habits, and its artistic pyramidal form. These features make it indispensable in the home foundation groups and in the garden and lawn plantings. Then, because of the fact that it bears shearing better than any other variety, and because of its heavy, compact growth, it heads the list for hedge planting in the Evergreen family. Plant 18 inches apart in a hedge row. If you want to give a perfect finish to your evergreen windbreak, both in appearance and protection, plant the inside row of Ferris' select American Arbor-Vitae. In groups, it is charming in combination with the other ornamental Arbor-Vitae and with the Junipers.

We are sorry to report a scarcity of the American Arbor-Vitae this season, and we are completely sold out of all sizes except the grades listed below. These, too, are limited, so order early. They are choice trees that cannot help but please.

Siberian Arbor-Vitae

Rugged, Compact and Symmetrical. This Lovely Semi-Dwarf Evergreen is One of the Most Desirable for Foundation Groups.

We cannot recommend this Arbor-Vitae too highly for ornamental planting, especially for foundation groups and formal effects in the garden, while more and more it is being used for hedges. It is exceedingly hardy as its name implies, semi-dwarf, reaching a height of six or eight feet at maturity if not trimmed. Foliage is extremely heavy, deeply chiseled, with a deep, rich green color throughout the year. It naturally grows rather conical in form, is symmetrical, and a very long-lived tree. You are sure to like it, whether by itself or in a combination planting with Junipers or other Arbor-Vitae.

Juniperus Virginiana—Red Cedar.

Blue Juniper.

Red Cedar - Juniperus Virginiana

Graceful Formality—Extreme Hardiness—A Beautiful Evergreen in Almost Any Setting.

The Red Cedar is right at home in almost any part of the United States—will stand up under hot, dry conditions remarkably well, yet is equally as hardy in cold latitudes. Then, it answers so many purposes, being very popular in foundation groups, charming in clumps on the lawn or in the garden, and is so often used in formal arrangements.

You are probably well acquainted with its handsome, feathery foliage, which blends from deep green to silver, with springtime bringing a bronze tint. The form of the Red Cedar is unusually lovely, a broad pyramid of medium height, though it can be trimmed to any shape you wish. Because it withstands shearing so easily, in many localities it is popular in hedges. It is a charming, refined evergreen wherever used. The Red Cedar we grow are of the Platte River type—superior in every way to the common varieties.

Chinese Column Juniper

(Juniperus chinensis pyramidalis)

A Beautiful Living Colonnade for the Garden. They Give Charming Formality Wherever Used.

Lovely, tall, slender columns of deep green shading to blue, with the same lacy and finely carved foliage of all the Junipers—is it any wonder that this new evergreen from China is taking the landscape world by storm? In its youth, the tree shows a more informal, open growth, developing the beautiful tall, shapely column as it creeps toward maturity. Besides its beauty of form and foliage, it possesses the added value of extreme hardiness and grows very rapidly, doing well in any soil but a wet one. Our beautiful Chinese Column Junipers simply cannot be equalled for entrance planting, they are so distinctive in foundation groups, while in the outdoor living room there is no evergreen that will give such a distinct formal tone. Our specimens this season are unusually fine and shapely.

Blue Juniper

(Juniperus virginiana glauca)

Its Rich Blue Color Calls for Admiration.

Not only does the Blue Juniper have the grace and artistic habits of the Red Cedar, but it has the added charm of blue-tipped foliage in the summer, as the new growth comes forth. During the winter, this soft color merges into a delightful bluish green. When kept trimmed, its shapely, compact top is a formal pyramid, but it's just as lovely when allowed to make its natural growth. Use the Blue Juniper in all phases of landscape work; it is easily one of the best of the upright Junipers, and hardy in the North and South.

Chinese Column Juniper.

FERRIS' COLORADO BLUE SHINERS GIVE WONDERFUL SUCCESS EVERYWHERE.

Ellenboro, W. Va.
Oct. 5, 1932

Dear Mr. Ferris:

I am writing to tell you that the Colorado Blue Spruce Shiner I bought from you in April is living and doing fine. It surely is a beauty—has the beautiful blue color and is a fine shaped tree. It has grown much more than I supposed it would the first season.

Very Sincerely,
MRS. C. F. VINCENT.

IT IS GOOD STANDS LIKE THIS THAT BRINGS US SO MANY REPEAT ORDERS FROM CUSTOMERS.

Dear Sir:

I am pleased to inform you that of 97 trees and shrubs received from you last spring, not a single one died, so I can very highly recommend your nursery stock as being very strong, healthy, and first class. We planted those 25 Norway Spruce, which we ordered in the spring, and they are in good growing condition. Please send us a new spring catalog.

Sincerely yours,
ALVIN DAHLKE.

Ferris' Silver Cedar

(*Juniperus scopulorum*)
(No. 2 in Illustration).

Handsome Pyramids of Silver. Superb on the Landscape.

A selected tree of the Red Cedar family, forming a bushy symmetrical pyramid of unusual charm. The foliage is feathery, like the Red Cedar, the color a beautiful, lustrous silvery blue, especially marked in summer and fall, while the bronze tinge in the spring is equally as attractive. Because of its beautiful form, refined habits and wonderful coloring, it is ranked among the very best evergreens for entrance planting, for foundation groups, or for formal planting in the garden. Very hardy and easy to transplant. Our specimens are beauties, having been marked in the summer when they showed a distinct silver color.

Trailing Juniper

(*Juniperus Sabina*)
(No. 3 in Illustration)

Absolutely Hardy and Undeniably Lovely. There is No Better Dwarf Evergreen For General Planting.

Dark green foliage, feathery and artistic, with dense, spreading branches, making an ideal plant for the foreground, a very pleasing finish in foundation groups, and delightful in park or formal beds. It withstands smoky conditions of the city as well as the rarified country air, so is at home anywhere—always hardy and always desirable. The Trailing Juniper's graceful air, its dwarf habits, and its charming color are much needed in almost all evergreen plantings.

Pfitzer's Juniper

(*Juniperus chinensis Pfitzeriana*)
(No. 1 in Illustration)

For Charming Grace in the Border It Has No Equal

No dwarf evergreen in the world can produce the same effect of refinement and good taste on the landscape as does this very hardy and very beautiful Pfitzer's Juniper. Since its introduction a few years ago, it has rapidly advanced to one of the most popular of them all. Its peculiarly graceful, distinctive manner, and the fact that it transplants so easily, growing well under almost any soil and weather conditions, cannot help but account for its desirability in foundation and border plantings.

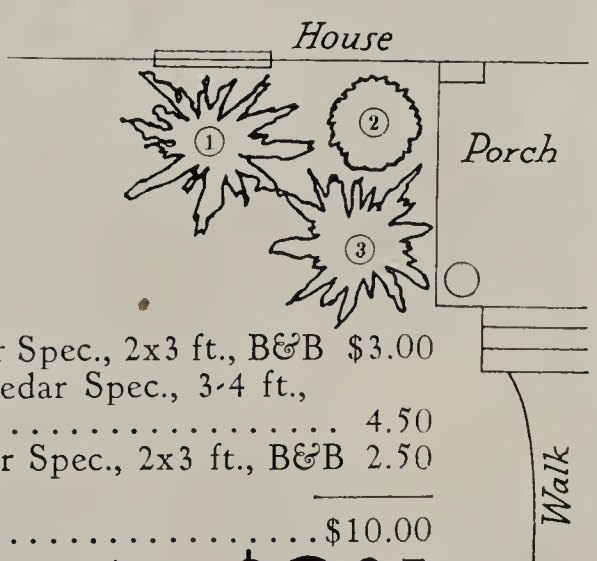

Its foliage is the beautiful feathery type of the Junipers, charming light green color with blue-gray tinge. If left untrimmed it retains a low, spreading form, broad and picturesque, while if the leaders are staked up, a lovely broad pyramid of unusual grace and charm is formed. The tree thrives well in the heat of the South as well as the rigorous climate of the North.

We have never had such fine specimens of the Pfitzer's Juniper as we are offering you this season—every one of them a beauty.

Meyer Juniper.

Juniper Horizontalis

This is one of the most popular of the low Junipers for rockeries, edging pools, or foreground work, with lovely arching branches rising horizontally from the ground. It grows rapidly, is compact and shapely, and is unusually hardy.

12x18 in., XXX	Each	\$2.00
2x3 ft., XXXX		3.50
(If desired Balled and Burlapped, add 50c per tree extra).		

Juniper Meyeri

Fascinating, Glowing, Unusual. You Will be Charmed by Its Unique Individuality.

Here at the nursery we have never taken quite the interest in a new evergreen that we have in this Meyer's Juniper. Just imagine thick, pointed foliage, lacy and beautiful like all of the Junipers, and of a deep, rich blue color; then add to this a very delightful variation in form and manner. Its irregular outline, sometimes more upright, again more trailing, is one of its outstanding attractions, and draws your attention unhesitatingly. Sometimes in the sunlight you will get a distinct pinkish mauve color, sometimes a deep green, or even a silvery reflex—it's a whole color-harmony picture in itself.

You will find the Meyer Juniper superbly set off in the rock garden or close to a pool; in borders or foundation groups it displays charming contrast. Our choice specimens here at the nursery have been a great source of admiration to all who have seen them.

Swedish Juniper

(Juniperus communis suecica)

Delightful Columns of Medium Height That are Ideal for Entrances and Particular Landscape Effects.

This is the narrow, columnar evergreen that resembles closely the Irish Juniper but is much hardier. It grows close and compact, sometimes reaching a height of 10 feet when untrimmed, but never over 12 or 18 inches in diameter. The foliage is very thick, feathery in appearance but prickly, with lovely gray-green tints. For an imposing entrance planting, in combination with other evergreens in the foundation, or as formal sentinels in the garden, the Swedish Juniper is ideal. Not hardy in the North.

American Yew

(*Taxus canadensis*)

Handsome Foliage, Lustrous and Distinctive—An Exquisite Dwarf Evergreen for Ornamental Work. This hardy, dwarf Evergreen seldom grows over 2 or 3 feet high, has an unusually dense covering of deep green, glossy foliage, and in the fall months is loaded with scarlet berries. Conspicuous all the year through, and valuable in its low-growing tendencies, its hardiness and its distinctive foliage and coloring. In the winter time it often has a tinge of red. The Yew is easily trimmed to whatever shape desired, and will thrive well in shady places; splendid in the rockery.

	Each	10
12-18 in., XXX	\$1.50	\$10.00
18-24 in., XXX	1.75	15.00
(If desired Balled and Burlapped, add 50c per tree extra).		

Retinospora Plumosa

Dainty and Feathery. A Popular Evergreen in the Foundation Group.

A handsome, small evergreen from Japan, with feathery, light green foliage, more beautiful than any fern. Keep well in the foreground, on account of its dwarf habit. It is not hardy in exposed places, so plant in a sheltered position. Exceedingly popular in rock gardens.

	Each	10
18-24 in. Spec., XXX	\$1.50	\$12.00
2-3 ft. Spec., XXXX ...	2.00	17.50
(If desired Balled and Burlapped, add 50c per tree extra).		

Canadian Hemlock

(*Tsuga canadensis*)

Young or Old, the Hemlock is Always a Picture of Gracefulness.

This native evergreen is one of the most magnificent of them all. The dark green foliage is handsome, fernlike in form and dense, the tree naturally assuming a broad, symmetrical cone. The Hemlock can be depended upon to give the softening touch to any planting. Because it shears easily, inducing a heavier, bushier growth, it is a wonderful tree for foundation groups, while a specimen left on the lawn to develop naturally will assume considerable height. You will find it does well in partial shade—in fact, the Hemlock does best in a somewhat sheltered place, preferring a moist, deep sandy loam. We have only a few specimens unsold of this lovely evergreen, so better order early.

	Each	10
18-24 in. Specimens, XXX ..	\$2.00	\$15.00
2-3 ft. Specimens, XXX ...	3.00	25.00
(If desired Balled and Burlapped, add 50c per tree extra).

FERRIS' FAMOUS IRIS *Hardy and Beautiful*

Everybody knows and loves the Iris. Their charming lily-like flowers of early spring bring us every color in the rainbow, varying from rich deep tones to delicate pastel shades. Then, the Iris is so supremely hardy, doing well in any soil that is properly drained and where it can get some sunshine. Edging the pool, bordering the driveway or garden patch, or generous clumps of them in the perennial border —our beautiful German Iris fit so perfectly into any part of the home landscape. Plant about 12 inches apart, barely covering the roots with soil. A little shallow cultivation to keep them free from weeds is all the care they require.

- GERTRUDE.** Violet-blue; fragrant and lovely.
- HONORABILIS.** Golden yellow standards, rich mahogany falls.
- PURPLE QUEEN.** Large, rich purple. Early.
- QUEEN OF MAY.** Charming shade of rose-lilac, nearly pink. Beautiful.
- PERFECTION.** Standards light blue, falls dark velvety violet-black with orange beard. Handsome.
- MADAME CHEREAU.** Flower white, with lovely blue frill.
- KHEDIVE.** Beautiful soft lavender with distinct orange beard. Fragrant.
- COMTE DE ST. CLAIR.** Standards white; deep rich violet falls margined white. Lovely.
- VIOLACEA GRANDIFLORA.** Rose-lilac standards, and violet-blue falls. Very fine.
- SAMBUCUS BEETHOVEN.** A showy Iris, with rose-lilac stands and rich purple falls.

Our Special Prices on above ten Iris: 6c each; 10 for 40c; 25 for 80c; 100 for \$3.00.

- FLAVESCENS.** Delicate soft yellow; large sweet scented flowers.
- MRS. H. DARWIN.** Pure white, netted at base; free flowering. Lovely.
- CRIMSON KING.** Standards and falls a rich claret-purple.

OUR FAVORITES

The Very Choicest of the Newer Iris

MOTHER OF PEARL. A wonderful sort; very large, perfectly shaped flowers of that exquisite "Mother of Pearl" color. 35c each; 5 for \$1.40.

LENT A. WILLIAMSON. One of the most gorgeous in the garden. Extremely large, standards lavender-violet blended with yellow towards base; falls rich, royal purple, and orange beard. 25c each; 5 for 90c.

WYOMISSING. Creamy white standards suffused delicate soft rose; deep rose colored falls shading to flesh colored border. Elegant. 20c each; 5 for 70c.

AMBASSADEUR. A fascinating smoky velvety purple color; falls rich purple-maroon; beard and style yellow. A magnificent and regal flower. 25c each; 5 for \$1.00.

SHERWIN-WRIGHT. The most golden and rich of the yellow Iris—a glorious yellow color throughout. Not as tall as some, but a wonderfully prolific bloomer. 18c each; 5 for 65c; 10 for \$1.20.

SEMINOLE. Extremely choice. Color a rich dark violet-rose, the falls a little deeper than the standards, with bright orange beard. Grows tall, free flowering—the most striking of the so-called "reds". 40c each; 10 for \$3.25.

HER MAJESTY. Very beautiful, with standards a lovely soft rose-pink, and bright crimson falls tinged a darker shade. 20c each; 5 for 75c.

DELICATISSIMA. Standards lobelia-blue clouded rose; falls campanula-violet, shading to lilac. A beautiful variety of exquisite coloring. 30c each; 10 for \$2.50.

OPERA. A very distinct variety with fine flowers of good shape and rare coloring. Standards dark purple-bronze; falls a unique mixture of violet, overlaid dark crimson, with a rich velvety sheen. 40c each; 10 for \$3.25.

DWARF IRIS (Cyanea). Deep velvety blue; flowers large and handsome. These are the very early bloomers, low growing and splendid for edging the pool or perennial border. 15c each; 10 for \$1.25.

(If Iris are desired by Parcel Post, add 2c each, 6c for 5, 10c for 10, or 15c for 25 Iris, for packing and postage).

Our Superb Perennial Phlox

Their Brilliant Blooms Last All Summer Long.
Use Ferris' Phlox Generously in Your Borders.

Great trusses of waxy, gorgeously colored flowers that last the summer through. One of the grandest of all perennials for the border—they will give a lot of color and finish at the foreground of a shrubbery or ever-green group—while the perennial garden simply isn't complete without large clumps of our Hardy Phlox. Plant 10 to 18 inches apart in good soil.

(If Phlox are desired by Parcel Post, add 3c each, 5c for 5, 8c for 10, or 15c for 25 Phlox, to cover cost of packing and postage).

DR. CHAS. MAYO. Fine large white with red eye.

ECLAIREUR. Bright rose-carminé with purplish tinge.

THOR. Deep salmon-pink with scarlet glow.

MISS LINGARD. Immense waxy white blooms. Early.

JULES SANDEAU. Lovely watermelon-pink.

COQUELICOT. Glowing orange-red, violet eye.

MRS. JENKINS. Pure white, large, free flowering.

GEN. VAN HEUTZ. Rich salmon-red, carmine and white eye.

RIJNSTROOM. Charming rose-pink.

B. COMTE. A rich satiny purplish red.

Ferris' Magnificent Peonies Queen of Spring Flowers

THEIR immense, fragrant, colorful blooms are simply made for admiration and joy, and are favorites the world over. We are offering you here Peonies of unusual beauty and garden value, the best of the tested varieties. Plant Peonies in good rich soil, in an open, sunny situation if possible, with the eyes no more than 2 or 3 inches below the surface.

Alba Sulphurea.

Officinalis Rubra.

Walter Faxon.

FRANCOIS ORTEGAT. Rich maroon; large and handsome.

FESTIVA MAXIMA. Enormous white with crimson tips. Very fragrant.

EDULIS SUPERBA. Beautiful mauve-pink. Wonderful free bloomer.

CAROLINE MATHER. Bright rose-red with a purplish tint. Striking.

DELACHEI. Large, rose type bloom of a beautiful violet-crimson, slightly tipped silver.

MARIE LEMOINE. Immense creamy white blooms, fragrant and lovely. Late.

MEISSONIER. Brilliant purple-red blooms are borne freely on tall stems. A handsome, fragrant Peony.

LAMARTINE. Deep rose-red, stamens forming a collar of gold. Distinctive.

HUMEL. Large, compact Peony of cherry-pink tipped silver. Cinnamon fragrance.

Ferris' New Bargain Prices on above nine selected Peonies: 30c each; 3 for 75c; 10 for \$2.00.

KARL ROSENFELD. Handsome blooms of rich deep crimson, large and compact. Superbly strong and prolific bloomer. A gorgeous Peony and often classed as the finest red.

AVALANCHE. A beautiful milk-white Peony, with creamy center and carmine tips. Very choice.

FELIX CROUSSE. A dazzling beauty of fiery red, large and globular. Very fragrant.

MARGUERITE GERARD. Large, exquisite Peony of hydrangea-pink, fading to blush white, carmine tipped. Very choice. Late.

Ferris' New Bargain Prices on above four extra fine Peonies: 40c each; 3 for \$1.00; 10 for \$2.75.

Our Extra Choice Favorites

These are the newer sorts, and without doubt the most exquisite Peonies ever grown.

SARAH BERNHARDT. (See color picture). Large, sweetly fragrant. Always a prize winner at Peony shows. 60c each; 3 for \$1.50; 10 for \$4.50.

OFFICINALIS RUBRA. The large, very early Decoration Day Peony; always in demand. (See color picture). 60c each; 3 for \$1.65; 10 for \$4.75.

BARONESS SCHROEDER. Full, enormous blooms, rose type. Delicate pink tint but become pure white in full bloom. Delicious fragrance. 60c each; 3 for \$1.65; 10 for \$4.75.

LONGFELLOW. Has taken more first prizes at the National Peony Show than any other red. Its rich, cherry color does not fade. Blooms large, very double. \$1.00 each; 3 for \$2.75; 10 for \$8.00.

MONS. JULES ELIE. The largest Peony, and one of the highest scoring. Full, double, glossy mauve-pink. Bomb type. 65c each; 3 for \$1.65; 10 for \$5.00.

ALBA SULPHUREA. The "Yellow Peony." Large, handsome, and free blooming. (See color picture). 55c each; 3 for \$1.35; 10 for \$4.00.

MARY BRAND. One of the grandest Show Peonies. Rich, deep, glorious red, charmingly set off with golden stamens. 75c each; 3 for \$1.95; 10 for \$5.50.

WALTER FAXON. Bright coral-pink deepening to rose-pink at the base. The exquisite coloring gives it the sweepstakes at all Peony shows. (See color picture). \$1.75 each; 3 for \$4.50; 10 for \$9.50.

SEE PEONY BARGAINS ON PAGE 31.

Make Your Dreams Come True This Year

Plant a Beautiful Garden of

FERRIS' SELECTED HARDY PERENNIALS

Our Extra Low Prices and Our Thrifty, Field-Grown Plants Make It Possible!

Perennials are the charming garden flowers that come back year after year without replanting. No fussing with seeds each season, no setting out new plants—in fact, a little care increases their beauty with each year's growth, and you have not only a superb finish for the home landscape, but a perfect deluge of colorful blooms for house bouquets.

For edging the shrubbery groups or evergreen plantings, great beds of them in the flower garden, or surrounding the outdoor living room—everywhere you use them they make a grand display. In planning your perennial bed, we believe you will be better pleased with the ultimate result if you use five or more plants of a kind together.

Achillea

THE PEARL. Tiny, double, roselike flowers of pure white, borne in clusters, cover this feathery, graceful plant almost the summer through. Very hardy, and will do well even in dry weather. One of the best border plants; in bouquets the blooms are charmingly combined with other flowers. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.50.

ROSEUM. Very similar to The Pearl, with dense heads of light pink. Splendid in the border, and a fine companion plant for The Pearl. 15c each; 5 for 50c; 10 for 75c; 25 for \$1.75.

FILIPENDULINA. Very showy with its dense heads of bright yellow flowers. Fine for the rock garden and border. 20c each; 5 for 75c; 10 for \$1.20; 25 for \$2.25.

Aquilegia - Columbine

Commonly known as Columbine, and one of the most desirable of all the outdoor flowers. They are unusually hardy, vigorous and long-lived, besides remaining in bloom for a long period of time. Splendid for either the border or rockery, and there are few flowers more charming in bouquets. We have two selected strains, as follows:

DOUBLE HYBRIDS. Attractive double blooms and a fine range of color. Mixed colors only. 2-yr. plants, 20c each; 5 for 45c; 10 for 75c; 25 for \$1.50.

SELECTED LONG-SPURRED HYBRIDS. Very choice and popular, colors ranging from white to blue and delicate tones of pink, rose, yellow and lavender, many of them bi-color. Mixed assortment only. 1-yr. plants, 20c each; 5 for 50c; 10 for 80c; 25 for \$1.60.

Anthemis

(Golden Marguerite)

You will be lighted with its sunny disposition. Wonderfully free-flowering, golden daisies, with handsome, finely cut foliage. Especially suitable for edging. Blooms throughout the summer. 15c each; 5 for 45c; 10 for 65c; 25 for \$1.25.

Arenaria Montana Grandiflora

(Sandwort)

Beautiful in the rock garden—this low-growing plant that is entirely covered with pure snow-white, starlike flowers in May. Very hardy. Plant it either in the rockery or edging a perennial border. 20c each; 5 for 65c; 10 for \$1.20.

Aster Alpinus, Goliath

You must have a few of these showy perennials in your rockery. Grows 6 to 10 inches high, and bears large, handsome, bluish purple flowers in May and June. A splendid sort either for the rock garden or perennial border. 20c each; 5 for 65c; 10 for \$1.20.

Aster, Mauve Cushion

A distinct variety, forming a broad circular cushion not over 9 inches high, lavishly covered with daisy-like blooms of soft mauve color, in October and November when most other flowers are gone. Charming in the rock garden or bordering the flower garden. 25c each; 5 for 80c; 10 for \$1.50.

Bleeding Heart - Dicentra

Everyone likes this fine, old-time flower. Its fernlike foliage and deep rose-red, heart-shaped flowers clustered along drooping stems give character to any perennial garden. Very hardy, and thrives well in almost any location, though it prefers a somewhat protected place in the border where other plants will shade it a trifle. A popular perennial for cemetery planting. 35c each; 3 for 75c; 10 for \$2.25.

Planting Suggestions for Perennials

Most of the perennials can be planted in either spring or fall, though spring is generally conceded a little the safest for the majority. Plant in good rich ground, that has been prepared the same as you would for any garden crop, and as a rule the crowns should be on a level with the ground. Soil should be kept well pulverized and free from weeds and grass, and plants should be given plenty of moisture, especially until well established. Most perennials like at least some sunshine. A light covering of straw, leaves or other coarse litter over the perennial bed in winter is beneficial. The results will more than repay you for your work.

Ferris' Perennials are all thrifty, field-grown plants, and will bloom the first year if properly cared for.

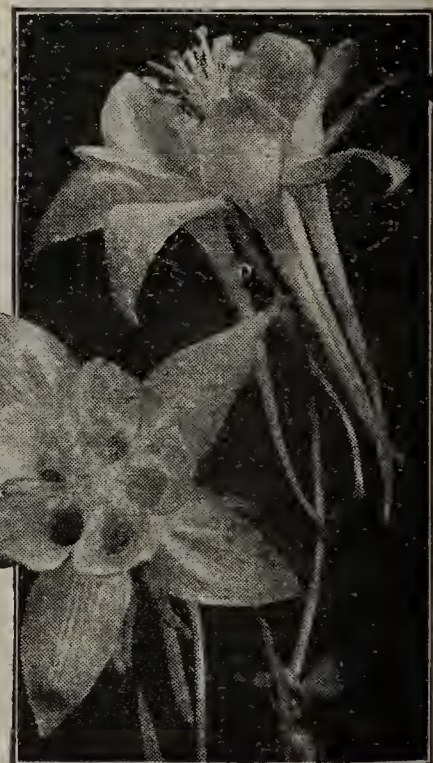

If Perennials are desired by parcel post, add 3c each, 5c for 5, 8c for 10, or 15c for 25 plants, for packing and postage.

Achillea Filipendulina.

Aster, Mauve Cushion.

Aquilegia—Columbine.

Campanula

CANTERBURY BELLS. A striking biennial flower and a great favorite everywhere. Plants are covered with beautiful, large, bell-shaped flowers. Splendid in the border or in the foreground of shrubbery groups. We can furnish in either the Calycanthema (Cup-and-Saucer), or in the Double-flowering variety, choice of white, blue or pink. 20c each; 5 for 75c; 10 for \$1.35; 25 for \$2.75.

CARPATICA (Carpathian Harebell). Lovely flowers of clear blue start in June and continue through to October, coming in great abundance. This dwarf plant is one of the finest for rock garden planting or edging the border. 20c each; 5 for 75c; 10 for \$1.35.

Campanula—Canterbury Bells.

Chrysanthemum

These are the beautiful, hardy, garden Chrysanthemums that give the garden its only color in late fall, coming at a time when all other flowers have finished their blooming season. The plants are vigorous, healthy, and often grow as large as shrubs. Their lovely flowers have the grace and character of the aster, with all the warmest, richest shades of fall. They like a rich soil that is not too wet. After the blooming period, cut back the tops quite close to the ground and mulch with clean straw. Every perennial garden should contain a generous planting of our Hardy Chrysanthemums. Plant in spring only. Choice of Red, Yellow, White, Brown and Pink. 30c each; 5 for \$1.00; 10 for \$1.60.

Coreopsis Grandiflora

Rich, golden yellow flowers come in great profusion nearly the entire summer, and they are invaluable for cutting. We grow only the Grandiflora, the improved strain with extremely large flowers. Hardy and will do well in any good growing soil; in fact, this well known and much loved perennial is one of the most dependable. 15c each; 5 for 45c; 10 for 65c; 25 for \$1.25.

Delphinium - Perennial Larkspur

The most gorgeous perennial imaginable! Tall, stately spikes of clear, heavenly blue flowers rise in a queenly fashion from a heavy mass of beautiful foliage, and last a long time. Ferris' Delphiniums should be a large part of any perennial border, for they are free, continuous bloomers almost throughout the summer, and excellent for bouquets; they are dependable, hardy, easy to establish, giving to the garden the richest sort of background. Plant in good rich, well drained soil in a sunny location. We have some extra fine plants in either Belladonna (light sky-blue), or Bellamosa (dark, rich blue). 15c each; 5 for 45c; 10 for 65c; 25 for \$1.25.

Our Selected Hybrid Delphiniums

The newest and choicest sorts to be found anywhere—colors ranging from light blue, mauve, pink and lavender, down to the deepest, richest blues and purples—both single and double types. Unusually long bloom stocks of the very finest texture, coloring and form. Our visitors the past summer claimed them to be the finest Hybrid Delphiniums they had ever seen. We are making a specialty of these Hybrids and secured our foundation plants from the very best strains in existence, while no expense has been spared to produce quality plants. Plants of mixed types and colors only. 30c each; 5 for \$1.00; 10 for \$1.60; 25 for \$3.00.

Dianthus - Hardy Pinks

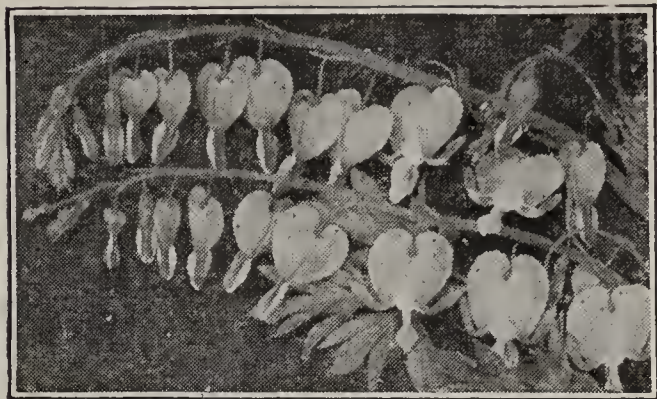

The lovely form, rich coloring, and spicy fragrance of the Hardy Pinks are necessary to every garden. For edging perennial gardens, walks and drives, they are extremely lovely, while in the rock garden they are always favorites. Very hardy and thrifty. Our assortment contains a fine mixture of colors in red, pink and white, and many of them double. 15c each; 5 for 40c; 10 for 60c; 25 for \$1.00; 50 for \$1.75.

Digitalis - Foxglove

Stately, picturesque plants that are without equal for bold effects in the border. Their strong stalks of bloom rise tall and queenly from heavy, luxuriant foliage, some of the blooms reaching a height of 4 and 5 feet. Delightful when planted in combination with the Campanula, and like the Campanula is inclined to be biennial in habit. The Digitalis like a rather loose, rich soil and plenty of moisture. Ours is a selected, mixed strain, with colors ranging from pure white to soft pink and deep rose. Mixed assortment only. 20c each; 5 for 75c; 10 for \$1.35; 25 for \$2.75.

Funkia, Blue

The very popular Plantain Lily, forming a symmetrical mound of handsome, bright green, waxy foliage, with picturesque lily-like flowers of clear blue borne on medium tall, graceful spikes in July and August. They do best in rich soil, and will thrive well in a partially shaded location as well as a sunny place. Fine for the border or close to the pool. 20c each; 5 for 75c.

Bleeding Heart.

Delphinium Hybrids.

Hardy Chrysanthemums.

Hardy Pinks.

Foxgloves.

Gaillardia

The Gaillardia is everybody's flower—so easy to grow, so persistent, coming through a drought with ease, and such a wonderfully profuse bloomer that you can absolutely depend on having a fine covering of their handsome, daisy-like blooms all season long. These shade from bright crimson to golden yellow, and what a picture they make in the garden. No perennial border is complete without a generous group of the Gaillardia, while in bouquets they are always delightful. 15c each; 5 for 50c; 10 for 75c; 25 for \$1.50.

Geum

LADY STRATHEDEN. Grows 12 to 18 inches high, producing a great quantity of large, rich, golden yellow blossoms nearly the summer through. Requires ordinary garden soil, and makes a beautiful showing among rocks or in the border. 25c each; 5 for \$1.00; 10 for \$1.50.

MRS. BRADSHAW. Their fiery red blooms, large and double, are wonderfully attractive, lasting nearly all summer. A great favorite for the flower garden as well as rockery. 25c each; 5 for \$1.00; 10 for \$1.50.

Golden Glow - Rudbeckia

Everyone knows this bold, sunshiny flower. Very hardy and thrifty, tall growing, producing beautiful, double, golden yellow balls of bloom in profusion. A showy, dependable perennial, fine for the background or clumps. 20c each; 5 for 75c; 10 for \$1.40.

Gypsophila - Baby's Breath

A cloud of misty, white, miniature blooms cover the tiny branches of this dainty plant. They are fine for fillers in the border, and sprays of the flower mix so exquisitely with the gay colors of other varieties when combined in bouquets. The branches when cut, dry with ease, and are very popular in winter bouquets. 15c each; 5 for 45c; 10 for 60c; 25 for \$1.25.

Heuchera Hybrids - Coralbells

Charming plants for the border or along the edge of shrubbery groups, but they reach their perfection in the rock garden. Grow about 18 inches high, with their artistic leaves close to the ground. Slender, graceful stems are covered with dainty blooms of white, coral and pink. Fine for cutting. Like moist, rich loam. 25c each; 5 for 90c; 10 for \$1.70.

Hibiscus - Mallow Marvels

Giant perennial flowers of late summer and fall, very showy and lovely. The blooms are broad, shaped somewhat like a hollyhock, colors rich red, pink and white. Growing 3 and 4 feet high, they make splendid backgrounds and bold clumps in the perennial borders. In the North, plant in a somewhat protected place, being sure to mulch during the winter. Choice of Red, Pink or White. 25c each; 5 for 85c; 10 for \$1.50.

Hollyhocks

Stately and picturesque—it is no wonder that the artist is always drawn to a planting of Hollyhocks for painting material. Popular from our grandmothers' times, they will always be in great favor, with their wealth of roseline blooms, charming in color and form. For the showy background and tall border, they have no equal. Plant in deep, rich soil where sunshine is prevalent, and cover with strawy manure during the winter. Ferris' Hollyhocks are all double-flowering sorts, and can be furnished in Red, White, Pink and Yellow. 25c each; 5 for \$1.00; 10 for \$1.75.

Iberis Sempervirens - Candytuft

A particularly fine rock garden plant, its handsome evergreen foliage entirely covered in early spring with a sheet of snow-white, artistic flowers. Very dwarf; not only beautiful in the rockery, but makes a charming edge to the perennial borders. 25c each; 5 for 90c; 10 for \$1.65.

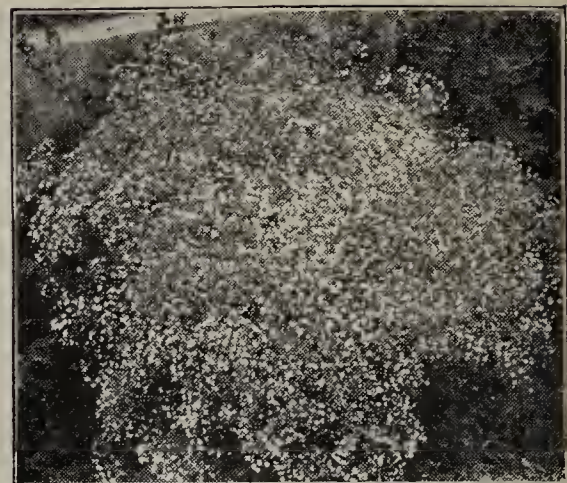

Lily-of-the-Valley

The very sweetest of all flowers. Tiny, waxy flowers like miniature bells appear in graceful fashion up and down the stems, and have a delicious fragrance. Will grow almost any place, but has a special liking for the shade. 20c each; 5 for 60c; 10 for 90c; 25 for \$1.75.

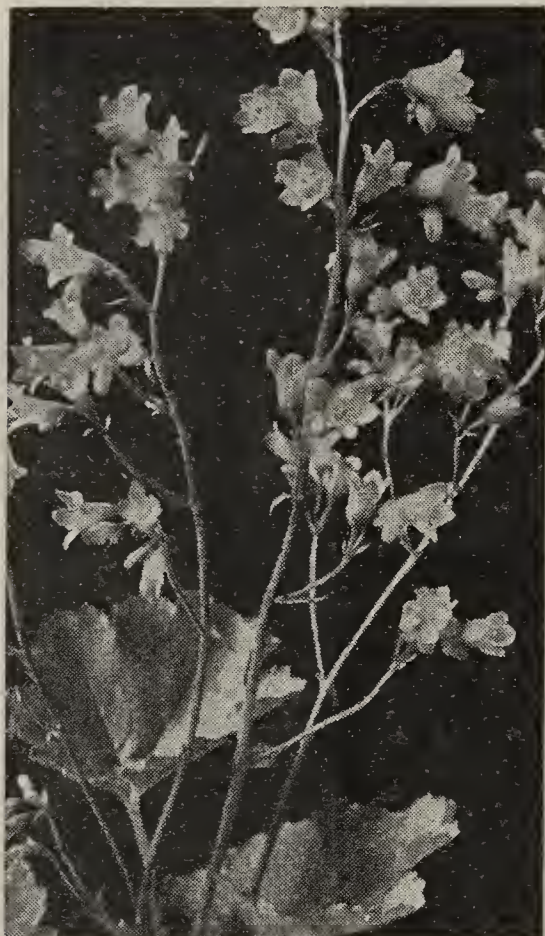

Linum Perenne - Perennial Flax

What a lovely, airy plant this is, with its delicate feathery foliage, and its shower of beautiful pale blue flowers all summer long. Fine for the border and rock garden. Likes sunshine and good garden soil. 15c each; 5 for 50c; 10 for 80c; 25 for \$1.50.

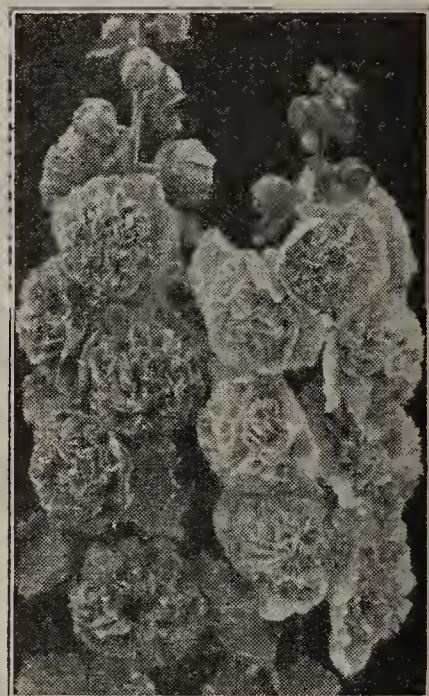

If Perennials are desired by parcel post, add 3c each, 5c for 5, 8c for 10, or 15c for 25 plants, for packing and postage.

Gypsophila.

Heuchera—Coralbells.

Double Hollyhocks.

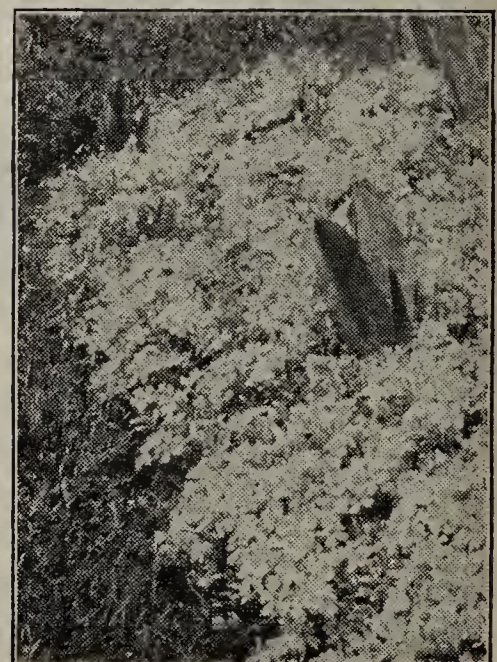

Linum Perenne.

Hibiscus.

Forget-Me-Nots.

Phlox Subulata.

Lupines

A stately perennial, with handsome foliage, and elegant spikes of pea-shaped flowers from 2 to 4 feet in height, colors blue and rose. It is very hardy, but does not like drought, so keep the plants well watered. Plant a group of these charming Lupines in the foreground of your perennial garden where their bold beauty will be emphasized. Choice of blue or rose-pink. 15c each; 5 for 45c; 10 for 80c; 25 for \$1.50.

Lychnis Chalcedonica - Maltese Cross

A very fine, old-fashioned perennial, very hardy and easy to establish, with dense heads of brick-red blooms throughout the summer. You will want the brilliant flash of Lychnis in your perennial garden and rockery. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.00.

Myosotis - Forget-Me-Not

Always a charming flower, whether edging the perennial garden, along the margin of the pool, or gracing the rock garden. Delicate, tufted foliage; plants laden with exquisite little flowerets. Blooming in June, they make attractive combinations with roses and other June flowers. This season we can furnish two strains, as follows:

MIXED. A desirable assortment of white, blue and pink flowers. 15c each; 5 for 50c; 10 for 70c; 25 for \$1.25.

BLUE. Large, rich blue flowers. 20c each; 5 for 65c; 10 for \$1.00; 25 for \$1.75.

Phlox Subulata - Moss or Mountain Pink

This is a grand, dwarf perennial, its mistlike evergreen foliage entirely hidden under the great masses of bloom in early spring. It is splendid for edging the perennial borders, shrubby groups, along paths or drives; it makes a fine ground cover, and is one of the best for rockeries. Choice of pink or lavender. 20c each; 5 for 60c; 10 for \$1.00; 25 for \$2.00.

Pyrethrum.

Physalis - Chinese Lantern

A hardy perennial, very much in demand because of its wealth of bright orange-scarlet, lantern-like fruits in autumn, which are so fine for winter bouquets. When cut and dried they last all winter. Will grow in any good soil, and in sun or partial shade. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.25.

Platycodon - Balloon Flower

Large, handsome, bell-shaped flowers that bloom from July to September. Erect in growth and very hardy. Splendid for both rock garden and the border. Likes well drained soil, either sun or shade. Choice of purplish blue and white. 15c each; 5 for 50c; 10 for 70c; 25 for \$1.40.

Pyrethrum - Painted Daisy

Grand old-fashioned Daisies that are indispensable in the border. Their fernlike foliage is attractive at all times, while the artistic blooms of white and shades of pink and deep rose, covering the plant in June, are a source of great satisfaction. Very hardy and easy to grow, with a liking for sunshine. 15c each; 5 for 50c; 10 for 70c; 25 for \$1.40.

Platycodon.

Saponaria - Soapwort

A grand trailing plant for the rockery or wall, with a dense covering of small, round leaves, and an abundance of rosy pink or white blooms in May and June. It makes a lovely edge for the border, too. 20c each; 5 for 70c; 10 for \$1.10.

Scabiosa Caucasica - Pincushion Flower

A truly handsome border plant, easily grown in ordinary soil that is well drained, where sunshine is prevalent. Blooms from June to September—charming flowers of soft lavender that are beautiful in bouquets. One of the very best cut flower plants for your garden. 20c each; 5 for 70c; 10 for \$1.10; 25 for \$2.25.

Sedum, Dwarf

The very finest sort of plants for the rock garden, covering graves, etc. Hardy, very easy to establish, doing well in sunlight or partial shade. Dwarf and spreading, with thick, waxy foliage that is always attractive. Make up your assortment from the list given below

Our Special Prices: 15c each; 5 for 40c; 10 for 70c.

STOLONIFERUM. Attractive purplish pink blooms, evergreen leaves.

KAMTSCHATICUM. Orange-yellow flowers; excellent foliage.

SARMENTOSUM. Rapid grower; splendid for rockeries, edging the flower border, or for filling seams in rock walls.

Sedum, Erect

SPECTABILIS. The prettiest of the erect-growing Sedums, with broad, light green foliage and immense heads of handsome, showy, rose colored flowers in late fall. A splendid sort either for the rockery or perennial garden. 25c each; 5 for 90c; 10 for \$1.60.

If Perennials are desired by parcel post, add 3c each, 5c for 5, 8c for 10, or 15c for 25 plants, for packing and postage.

Sedum Spurium Coccineum.

Scabiosa Caucasica.

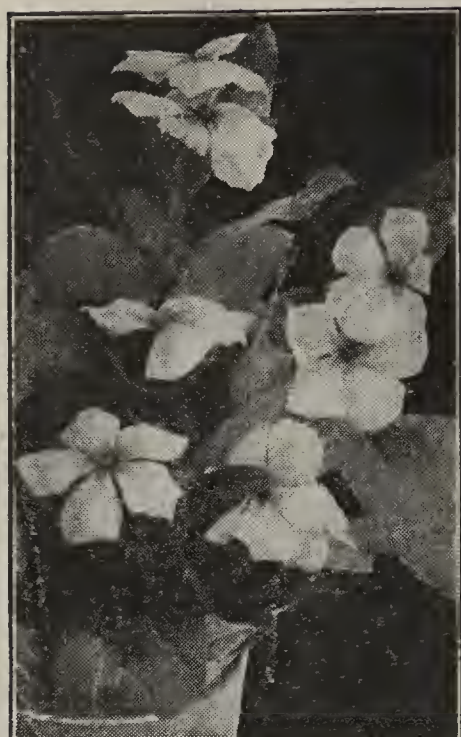

Shasta Daisy.

ALBUM. Thick, waxy, round foliage and white flowers.

SEXANGULARE. Very dark green foliage and yellow flowers.

SPURIUM COCCINEUM. A beautiful rosy crimson-flowered form.

Vinca Minor.

Stokesia - Stokes' Aster

A hardy native plant, and one of the most beautiful of them all. The plants grow about 2 feet high, producing in abundance from June until October, handsome aster-like blooms often 4 or 5 inches across, of a charming lavender-blue or clear white. Extremely hardy, easy to establish, liking a sunny, open place. Whether a single plant is used or a mass of them, the Stokes' Aster is always distinctive. Choice of blue or white. 20c each; 5 for 60c; 10 for \$1.10; 25 for \$2.00.

Veronica Longifolia

Handsome, blue-flowering plants, and one of the very finest perennials in all America. Entirely hardy, each season's growth adding materially to its beauty. The long spikes of blue come in great abundance from July to September. In the rockery or in the border planting, the Veronica is a great favorite. 20c each; 5 for 60c; 10 for \$1.10; 25 for \$2.00.

Viola Cornuta

This is the very finest edging plant, and a favorite, too, in the rockery. Hardy, thrifty plants, bearing great quantities of beautiful pansy-like blossoms throughout the summer and fall. Shear the plants several times during the season so that the flowers do not go to seed—it is the secret of their continuous blooming. We have a choice lot of Viola plants in the following two strains:

MIXED. A delightful assortment of colors and unusual markings. 15c each; 5 for 45c; 10 for 70c; 25 for \$1.35.
BLUE PERFECTION. Very lovely light blue flowers. 20c each; 5 for 60c; 10 for \$1.00; 25 for \$1.75.

Sempervivum - House Leek

The old-time favorite commonly known as "Hen and Chickens." The thick, waxy leaves form very charming rosettes among the rocks or along the border, the tiny "chicks" snuggling closely to the "mother hen." Pale red flowers. You will get a lot of fun from this unusual plant. 20c each; 5 for 85c; 10 for \$1.50.

Shasta Daisy, Early

Glistening white flowers in great abundance in June. One of the hardiest of all perennials, and easy to start, liking a deep, rich soil where their flowers grow to perfect form. In bouquets they are charming, either by themselves or combined with other sorts. In the garden they are glorious, bringing out the rich colors of other flowers. 12c each; 5 for 35c; 10 for 50c; 25 for \$1.00; 50 for \$1.50; 100 for \$2.50.

Shasta Daisy, "Alaska"

This is the improved strain of Alaska, with extra large flowers, often 4 or 5 inches across, of pure gleaming white. Very free-flowering, their blooms often lasting through the summer and early fall. 12c each; 5 for 35c; 10 for 50c; 25 for \$1.00; 50 for \$1.50; 100 for \$2.50.

Silene Schafta - Catchfly

A lovely border or rock plant, growing from 4 to 6 inches high, with masses of bright pink flowers from July to October. 25c each; 5 for 80c; 10 for \$1.40.

Statice - Great Sea Lavender

A particularly ornamental plant, splendid for the rockery and isolated places in the garden. Tiny leaves, leathery in substance, with great heads of purplish blue, minute flowers that are fine for cutting. In bouquets these graceful blooms mix delightfully with other sorts, and when dried last for months. Hardy. 20c each; 5 for 60c; 10 for \$1.10.

Vinca Minor - Periwinkle

Just the ground cover you need along the edge of your evergreen groups. This is the Trailing Myrtle—the hardy evergreen plant that grows low and spreading, with glossy foliage of a beautiful blue-green. Attractive dark blue flowers in April and May. A splendid edging for shrubbery groups, also a desirable covering for graves, or around trees, where shade often prevents other plants from growing. 20c each; 5 for 65c; 10 for \$1.10; 25 for \$2.25.

Yucca

A perennial distinctive and beautiful. Its broad, swordlike foliage and tall, branched spikes of large, fragrant, drooping, creamy white flowers makes it an effective plant for all positions. Blooms eventually reach a height of 5 or 6 feet. The foliage stays green the year around, bringing it in the class of "evergreen plants." A most desirable plant for the perennial border. 15c each; 5 for 45c; 10 for 70c; 25 for \$1.35.

If Perennials are desired by parcel post, add 3c each, 5c for 5, 8c for 10, or 15c for 25 plants, for packing and postage.

There is no border quite so lovely as one like this, where the stately Delphiniums and the graceful Shasta Daisies predominate. Persistent bloomers throughout the summer. This collection will nicely fill a space about 4 or 5 feet wide and 20 or 25 feet long.

Our "Glory" Perennial Border

 (If desired by parcel post, add 40c extra).

Rock Gardens

Everybody wants a Rock Garden these days, and if they are made right and logically placed, they are, indeed, the most fascinating part of the landscape setting.

A NATURAL SETTING IS BEST FOR A ROCK GARDEN

First of all you want to get the proper location for your rockery. The main essential is to have it natural—not a pile of rocks in the center of the lawn or some other conspicuous place where it will look awkward. At the back or end of the informal pool is a favorite spot for a rock garden, and it works out admirably well. If you have a terrace or slope where you have difficulty in raising good sod, why not develop a rockery? It's a natural setting and that is what you want for an attractive rock garden.

The next requirement is drainage; the plants must get moisture but at the same time must not stand in a pocket that holds water like a cup. Remember that you are working for a reproduction of a mountainside, that you should try to get similar conditions in the matter of soil, etc. A little sand mixed in with your garden soil will answer nicely. Do not use commercial fertilizer, fresh manure or peat moss.

Plant the rocks before setting out the plants, and set the rocks firmly so that they do not pull out when stepped on. They should be so tipped when planted that the rains will not run off the face but will go back into the ground.

For the rock garden, we especially recommend the following perennials, which are all described and priced on the previous pages:

Achillea	Geum	Saponaria
Aquilegia	Heuchera	Sedum
Arenaria	Iberis sempervirens	Sempervivum
Aster Alpinus, Goliath	Linum perenne	Silene Schafta
Aster, Mauve Cushion	Lychnis	Statice
Campanula carpatica	Myosotis	Veronica
Dianthus	Phlox subulata	Viola
Funkia	Platycodon	Yucca

By all means, you will want a few evergreens in the rock garden—here and there, to make it more alluring, and an attractive spot the year around. Almost any of the light transplanted evergreens can be used to good advantage here, while we especially recommend the following:

Pfitzer's Juniper Transplants	8x10 in.	Each \$1.00
American Yew Transplants	12-18 in.	1.00
Column Chinese Juniper Transplants	1 ft.	1.50
Trailing Juniper Transplants	12x18 in.	1.00
Meyer Juniper Transplants	8-12 in.	1.50
Glaucia Juniper Transplants	1 ft.	2.00
Globosa Arbor-Vitae Transplants	1 ft.50
Retinospora Plumosa Transplants	18-24 in.	1.50

The World's Finest Roses

The Best Rose
Bargains You Can Buy

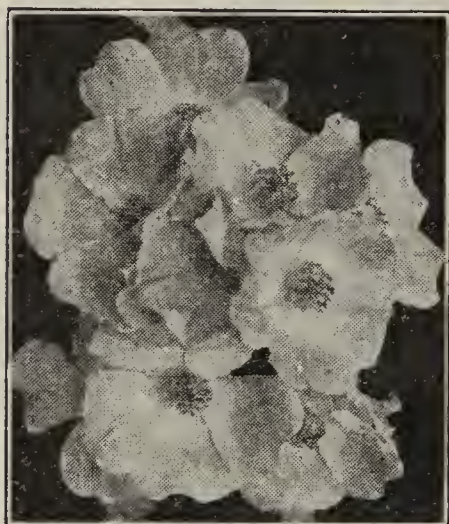

Roses are beyond description. Their utter loveliness of form, texture, fragrance and color cannot help but make them the most popular and best loved of all flowers.

Ferris Roses are strong plants, grown out-of-doors, well rooted, and in every way desirable for home culture. Because we grow them in such immense quantities, under an expert system of economy, we are able to offer them to you today, at these marvelously low prices. Order now—have for yourself what you have wanted in years—a garden full of gorgeous blooms this very summer, and from June until November.

(If Roses are desired by Parcel Post, add 5c each for packing and postage).

Crimson Rambler.

American Pillar Rose.

Dr. W. Van Fleet.

Rambler and Climbing Roses

Your trellis and arbor needs the flashy brilliance of our choice Ramblers; with them, the fences can be transformed into backgrounds of rare beauty.

CRIMSON RAMBLER. The old-time favorite, and still as popular as ever. In June it is covered with large clusters of bright crimson, perfectly shaped, miniature Roses—a wonderful, vigorous Climber—hardy everywhere. Select, 2-yr. field-grown plants, 25c each; 6 for \$1.00; 10 for \$1.50.

WHITE RAMBLER. Delightful companion of the Crimson Rambler; large clusters of white, miniature Roses. Select, 2-yr., field-grown plants, 25c each; 6 for \$1.00; 10 for \$1.50.

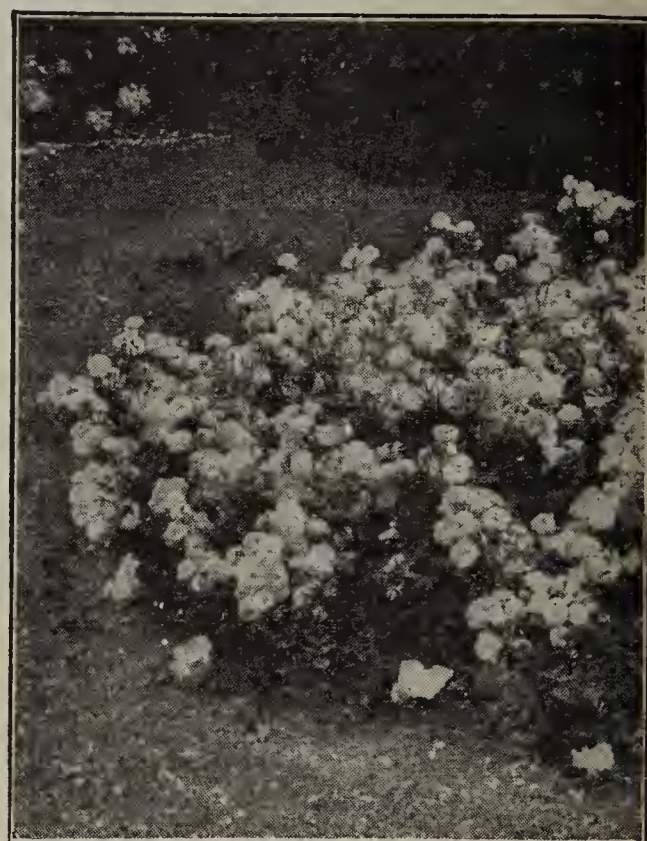

TAUSENDSCHOEN (Thousand Beauties). A glory of color, the delicate soft pink buds deepening to carmine as they open. A wonderfully profuse bloomer, from June until late July. Select, 2-yr., field-grown plants, 25c each; 6 for \$1.00; 10 for \$1.50.

DOROTHY PERKINS. An exquisite shell-pink Climbing Rose, the miniature Roses coming in great clusters of 30 and 40—very double and sweetly scented. The ideal trellis Rose. Select, 2-yr., field-grown plants, 25c each; 6 for \$1.00; 10 for \$1.50.

AMERICAN PILLAR. A brilliant Climber—large, handsome, single flowers of carmine with white center and rich yellow stamens. Select, 2-yr., field-grown plants, 25c each; 6 for \$1.00; 10 for \$1.50.

EXCELSA (Red Dorothy Perkins). Large clusters of beautiful crimson blooms, and many of them. Strong, vigorous grower; one of the best climbers. Select, 2-yr., field-grown plants, 25c each; 6 for \$1.00; 10 for \$1.50.

WICHURAIANA. The lovely "Memorial Rose." This handsome trailing Rose has glossy leaves and clusters of starry white flowers in midsummer, followed by an abundance of red fruits late in the season. Particularly desirable for covering banks, rockeries, and graves in the cemetery. Select, 2-yr., field-grown plants, 25c each; 6 for \$1.00; 10 for \$1.50.

Baby Rambler.

Baby Ramblers

(Polyantha Roses)

These are used especially for Rose borders or low hedges, and give a lot of color and cheer throughout the season. They grow about 15 to 18 inches high, form low and very bushy little plants, and all summer long are covered with charming clusters of miniature Roses. Great favorites in cemetery planting, but should have winter protection. Choice of Pink or Red. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

Our Extra-Choice Climbing Roses

THE FINEST EVER PRODUCED

Dr. W. Van Fleet

An exquisite Rose; vigorous, hardy and a profuse bloomer. Long pointed buds of perfect form are borne on individual stems, making them ideal for cut flowers—color a clear flesh pink. When fully open, the flowers are enormous. Large and glossy foliage. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

Silver Moon

An extremely beautiful, white Climbing Rose. Flowers are semi-double, very large, pure glistening white, with a heavy fringe of brilliant yellow stems. Foliage is exceedingly healthy, of a bright glossy green; plant very vigorous and hardy. Charming by itself or in combination with other more colorful sorts. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

Silver Moon.

Rose of Fairfield

Perfectly shaped, double miniature blooms of a deep rich red are borne in large clusters. Called the "Everblooming Crimson Rambler," as the new growth through the summer brings out new clusters of buds, with a delightful continuation of bloom from June until fall. **Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.**

Climbing American Beauty

If you know the greenhouse American Beauty, you will have a good idea of the loveliness of the Climbing American Beauty Rose. Its large blossoms of deep carmine-pink and its delightful fragrance, together with its very great abundance of bloom make it a favorite everywhere. Hardy, strong grower with very attractive foliage. **Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.**

Climbing American Beauty.

Rose of Fairfield.

Gardenia

Here it is at last—a Climbing Yellow Rose! The yellow buds are delightfully charming, and merge into creamy white as they open. Strong grower, with artistic glossy foliage. **Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.**

Gardenia.

Paul's Scarlet Climber

Known as the "Reddest Rose that Grows," and probably the most brilliant and most popular Climbing Rose of the present time. Blossoms are nearly once again as large as the Crimson Rambler, semi-double, and hold their vivid scarlet coloring until the petals fall. Hardy, vigorous grower. **Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.**

Paul's Scarlet Climber.

Hiawatha

A flashing beauty—large clusters of artistic single florets cover the strong, vigorous plant in June and last for an unusually long time. Color a vivid crimson with a clear white eye, set off by a mass of golden stamens. For trellises and arches, it is superb. **Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.**

Hiawatha.

Mary Wallace

A handsome pillar Rose with huge, semi-double blooms of a bright, clear rose-pink deepening to salmon at base. Strong, hardy and beautiful. **Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.**

Mary Wallace.

These 7 Beautiful Climbing Roses—Select, 2-year-old plants (regular catalog price, \$2.25).

OUR NEW BARGAIN PRICE, POSTPAID \$1.55

Our Beautiful Rosa Rugosa

The Hardest of All Roses.

The Roses that grow and bloom where no others will; absolutely hardy even in the bleak cold climate of the Dakotas, Northern Minnesota and Wisconsin, where many Roses are more or less of a disappointment. Yet they will grow with equally as much vigor in the central and southern states. They require no winter protection.

Being shrubby growing plants, they are excellent for hedges, borders, or combine so well with flowering shrubs. Once planted they are permanent—no pruning, no spraying. Just a little manure spaded in around them and the ground kept loose, and they will last for years, yielding a great abundance of large, double, fragrant, colorful blooms. The foliage is somewhat wrinkled and waxy, making a splendid background for the artistic blossoms. At maturity they reach a height of from 4 to 8 feet, and following the flowers are brilliant seed pods or "hips" which hang on nearly all winter. It is an ideal Rose, too, for cemetery planting.

Most Roses like lots of sunshine, but the Rugosas will also do well in partial shade. We have a splendid lot of Rugosa plants this season, in the following selected varieties:

Our 1933 Rugosa Hedge Collection

- 3 Hansa
- 3 Sir Thomas Lipton
- 3 Belle Poitevine
- 1 F. J. Grootendorst

These 10 Popular Rugosa Roses—thrifty, 1-year, well rooted plants—(worth all of \$3.50).

OUR NEW LOW
BARGAIN PRICE

\$1.66

POSTPAID

New Century.

HANSA. A handsome Rugosa, with large, double, full blossoms of deep rich red. A vigorous grower and profuse bloomer. Select, 2-year plants, 25c each; 3 for 60c; 10 for \$1.75.

Sir Thomas Lipton.

BELLE POITEVINE. An extremely vigorous grower. Large, double flowers of clear rose-pink; very attractive. Select, 2-yr. plants, 25c each; 3 for 60c; 10 for \$1.75.

SIR THOMAS LIPTON. Beautiful snowy white blossoms, no tinge of pink or yellow. Flowers are very double, and borne in graceful clusters. Select, 2-yr. plants, 25c each; 3 for 60c; 10 for \$1.75.

NEW CENTURY. Unusually lovely, with large, full, double blooms of clear flesh-pink with light red center. Select, 2-yr. plants, 25c each; 3 for 60c; 10 for \$1.75.

Hansa.

F. J. GROOTENDORST. Charming clusters of double blooms of carnation-red come in great abundance, not only in June but throughout the summer, no Rose excelling it in continuous bloom. Bushy, vigorous, hardy plants that are superb for hedge planting, though just as fine for specimens. Has the same healthy, attractive foliage of all Rugosas. Select, 2-yr. plants, 35c each; 3 for 90c; 10 for \$2.50.

F. J. Grootendorst.

Belle Poitevine.

(If Roses are desired by Parcel Post, add 5c each for packing and postage).

Our Rose Specialties for 1933

The Very Choicest of the Everblooming Roses

Talisman The most sensational Hybrid Tea Rose of all times. Brilliant orange-red buds, long and beautifully formed, open to a large, fragrant, double bloom of glowing golden yellow, stained with copper and rose. Magnificent in color, it arouses the greatest admiration everywhere. As long as they last, we offer the superb Talisman, in select, 2-yr. plants, at 50c each; 3 for \$1.35.

President Herbert Hoover A wonderful new Hybrid Tea Rose that has become popular over night. Picture the amazingly rich contrast of its maroon, orange and gold colorings—large buds and blooms perfectly formed on tall, strong stems that are ideal for the florist's trade, and a heavy bloomer besides. Order early as the supply is limited. Our new low price, on select, 2-yr. plants, 75c each; 3 for \$1.80.

Souv. de Georges Pernet

A Gold Medal Hybrid Tea Rose, with large buds of oriental red opening to gigantic blooms of orange-pink. Here is a splendid bedding Rose—dependable, a hardy and vigorous grower, and a sure bloomer. Strong, 2-yr., field-grown plants, 50c each; 3 for \$1.20.

Betty Uprichard A superb Everblooming Rose, with brilliant copper-red buds of splendid form that merge into lovely salmon-pink flowers, touched with copper. Hardy and a wonderfully profuse bloomer. Select, 2-yr., field-grown plants, 50c each; 3 for \$1.35.

Briarcliff

Exquisite, long, pointed buds of large size are a brilliant deep pink and very fragrant. A heavy bloomer, and one of the very finest new Everblooming Roses. Select, 2-yr., field-grown plants, 50c each; 3 for \$1.20.

Dame
Edith Helen.

Souv. de
Georges
Pernet.

Etoile de Hollande

Magnificent bright crimson blooms, perfectly formed and of immense size; they do not fade out in the sunlight. Sweet fragrance. Plant hardy, and a

strong, steady bloomer. This beautiful red Rose should be in every collection. Select, 2-yr., field-grown plants, 50c each; 3 for \$1.35.

E. G. Hill.

Dame Edith Helen The superbest pink Everblooming Rose of the age. Large, full double blooms of glowing pink, delightfully fragrant that are superb in the garden or in bouquets. A very heavy bloomer. Select, 2-yr., field-grown plants, 55c each; 3 for \$1.44.

E. G. Hill Dazzling scarlet shading to deeper red with a rich glossy finish. Blooms very large and fragrant. It is the finest red Everblooming Rose yet introduced. As long as they last, our select, 2-yr. plants, 60c each; 3 for \$1.50.

Margaret McGredy A handsome new Everblooming Rose, shading from glorious orange-scarlet to brick red. Large, magnificent blooms borne on strong, heavily foliated stems—one of the most brilliant of them all. Select, 2-yr., plants, 50c each; 3 for \$1.35.

(If Roses are desired by Parcel Post, add 5c each for packing and postage).

Ferris' Extra-Choice Everblooming Hybrid Tea Roses

The Very Finest and Hardest Sorts for the Garden.

Our hardy Hybrid Teas are growing and abundantly blooming in all parts of America, and from everywhere comes the same story—"I want more of your wonderful Everblooming Roses." Glorious and exquisite colors, rich fragrance—blooms that are long pointed and charmingly formed like the true "hot-house" Rose—these beautiful blooms from June until frost.

RED RADIANCE. There is no finer Rose for the garden. Color a lovely rich red, blooms large and globular, with strong stems that make them ideal for cutting. A strong, steady bloomer throughout the summer. **Strong, field-grown plants, 2-yr., 40c each; 3 for \$1.00; 10 for \$2.50.**

PINK RADIANCE. The most popular Rose in all America. Very large, beautiful blooms of silvery pink, shading to salmon, are borne on tall, strong stems, and in great abundance. Very fragrant. **Strong, field-grown plants, 2-yr., 40c each; 3 for \$1.00; 10 for \$2.50.**

MRS. CHAS. BELL. The shell-pink Radiance, and is indeed radiantly beautiful. The exquisite shell-pink blooms have a salmon background and are sweetly fragrant. A constant and steady bloomer, hardy, and should be in every garden. **Strong, field-grown plants, 2-yr., 40c each; 3 for \$1.00; 10 for \$2.50.**

K. A. VICTORIA. Immense creamy white blooms of perfect form, full and double, are abundantly borne on long, strong stems. Steady, profuse bloomer; an exquisite Rose in every detail. **Strong, field-grown plants, 2-yr., 40c each; 3 for \$1.00; 10 for \$2.50.**

COLUMBIA. One of the greatest bedding and cutting Roses of them all. Beautifully formed buds of a lively pink deepening in color as they open. Large, very free-flowering, and so fragrant. **Strong, field-grown plants, 2-yr., 40c each; 3 for \$1.00; 10 for \$2.50.**

GRUSS AN TEPLITZ. From early June until frost, this charming Rose is covered with large, full blooms of a brilliant fiery red; deliciously fragrant. Very hardy, vigorous grower, and will develop a superb hedge in rich ground. For the garden it has hardly an equal; the blooms in bouquets are rich and showy. **Strong, field-grown plants, 2-yr., 40c each; 3 for \$1.00; 10 for \$2.50.**

CAROLINE TESTOUT. Large, rounded flowers of a rich, satiny rose color, edges paling to silvery rose. The famous Portland Rose. A profuse bloomer, and one of the loveliest. **Strong, field-grown plants, 2-yr., 40c each; 3 for \$1.00; 10 for \$2.50.**

LADY HILLINGDON. Exquisite, long, pointed buds of deep apricot-yellow come on long, strong stems, opening up very full and double. One of the finest of all yellow Roses. **Strong, field-grown, 2-yr. plants, 40c each; 3 for \$1.00; 10 for \$2.50.**

How to Care For Roses

All Roses flourish best when planted in good rich, well drained soil in a sunny location. Set them deeply and firmly, giving the tops a severe pruning. Then, each succeeding spring, the Hybrid Perpetuals and Hybrid Teas should be trimmed back quite heavily to encourage more blooms. Rugosa Roses will require little future trimming except to keep them to the size desired. Climbing Roses, when once established, should have no trimming whatever in early spring except to prune out any dead wood. Any extensive trimming to Climbers should be done immediately following the blooming period.

The Climbing and Rambler Roses are all very hardy and require little winter protection, though if they are grown and trained so that they can be laid on the ground in late fall and covered with leaves or earth, it is a little safer. The Hybrid Perpetuals and Hybrid Teas should have winter protection, especially in the North. Before the ground freezes in the fall, mound the earth 8 to 12 inches up around the plant, over the mound placing a loose covering of straw or light manure, which should be removed after ground opens up in the spring. You will have no trouble in wintering even the more tender varieties if treated in this manner.

Rose Manual, 15c

This little booklet is of especial value to Rose lovers who are planning Rose beds and gardens. It gives complete instructions as to trimming, spraying, cultivation, fertilizing, etc., from year to year. In other words, it contains complete details on Rose culture which we do not have space for in our catalog. If you desire this helpful guide, send 15c to cover cost of printing and postage.

FERRIS' SUPREME Rose Garden Collection 16 Handsome Roses

One each of those shown in colors on the opposite page—an unsurpassed collection for the garden, and superb varieties for cutting. Hardy, field-grown, 2-year plants, the 16 to Ferris customers for only

\$4.78

Postpaid.

PREMIER. Rich dark pink flowers of full size, fine form, and rich fragrance; bush strong and robust, and a heavy bloomer. A handsome Rose in the garden or in bouquets. **Strong, field-grown, 2-yr. plants, 40c each; 3 for \$1.00; 10 for \$2.50.**

LUXEMBOURG. Visitors at the nursery always show especial admiration for the Luxembourg. A profuse bloomer, the plant covered with long, pointed buds of exquisite bronze-yellow, and so fragrant. Hardy, and a great favorite for Rose gardens. **Strong, field-grown, 2-yr. plants, 40c each; 3 for \$1.00; 10 for \$2.50.**

If Roses are desired by parcel post, add 5c each for packing and postage.

Our Superb Hybrid Perpetual Roses

Immense June Roses of Gorgeous Colors—They Should be in Every Garden.

We have an extra fine stock of these lovely Hybrid Perpetual Roses this season. There is not another class of Roses that can produce such an immense lot of bloom at one time; they are hardy, strong growers, with flowers of a larger size and more fragrant than any other type. Not only are they loaded with the huge, showy blooms in June, but if given good care throughout the summer, they will often produce fine blooms in late summer and autumn.

FRAU KARL DRUSCHKI. The most popular of all white Roses. Extra large blooms of perfect form; pure white. Free and perpetual bloomer. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

PAUL NEYRON. By far the largest variety in cultivation, and one of the best. Enormous blooms are clear pink, shaded soft rose; very fragrant. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

ULRICH BRUNNER. A brilliant, beautiful Rose of large size, light, clear red in color, borne on long, strong stems, and in great abundance. Delicious fragrance. So fine for the Rose garden. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

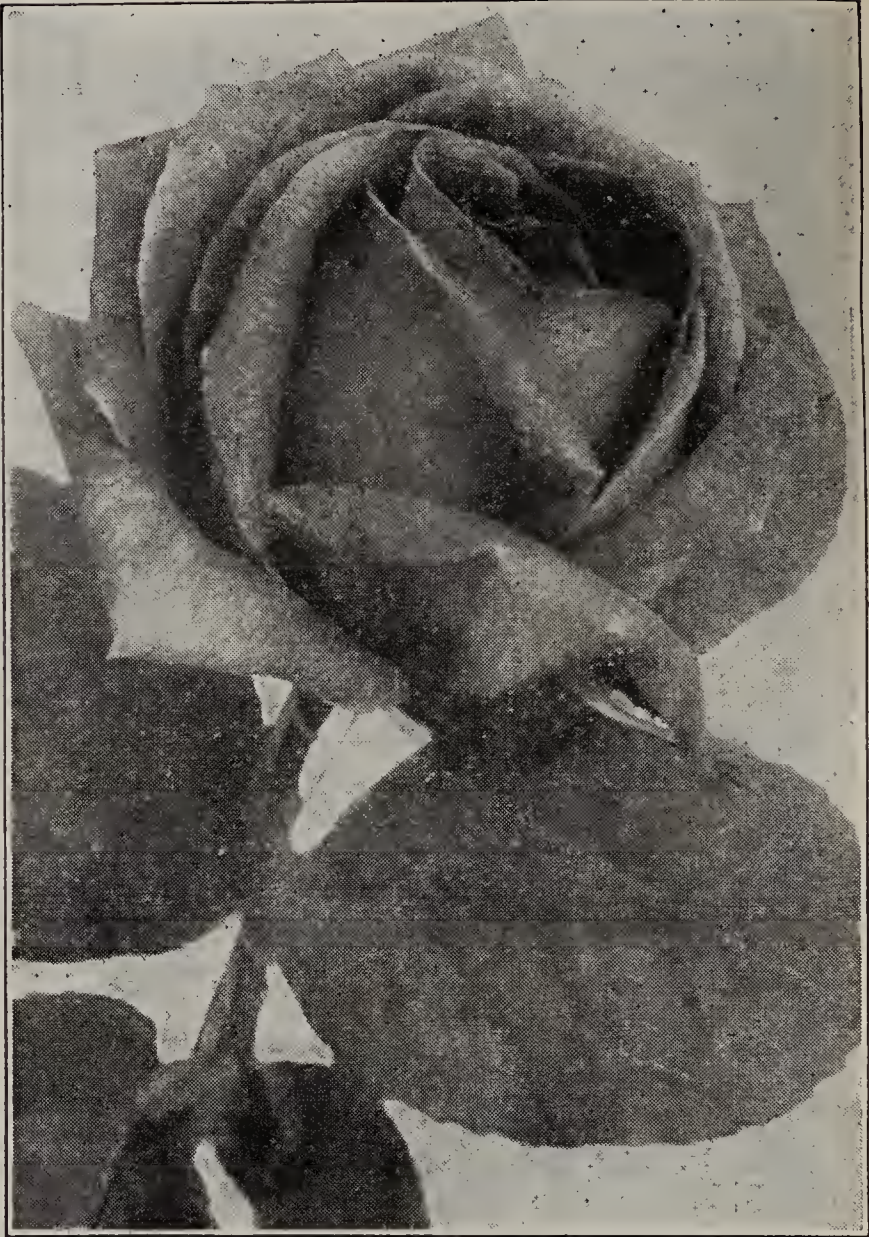

MARSHALL P. WILDER. Large, full blooms of rich, glowing red; very free blooming. A great favorite. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

MAGNA CHARTA. Extremely large, beautiful blooms of deep rose-pink shading to carmine and unusually fragrant. An abundant bloomer. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

J. B. CLARK. A large, vigorous plant, completely covered with showy, deep scarlet blooms of immense size, shading to a blackish-maroon. Often blooms again in the fall. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

PRINCE CAMILLE DE ROHAN. Deep, blood-red blooms of handsome character, perfectly formed. One of the finest deep red Roses. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00.

GENERAL JACQUEMINOT. The Rose for the millions. Fragrant, perfectly formed blossoms come early, are brilliant scarlet-crimson, and borne on long stems. Vigorous and hardy; a favorite everywhere. Select, 2-yr., field-grown plants, 30c each; 4 for \$1.00; 10 for \$2.00. If Roses are desired by parcel post, add 5c each for packing and postage.

J. B. Clark.

Hardy Bush Roses for the Garden

HUGONIS. The Golden Rose of China. A hardy, dependable Yellow Shrub Rose. In May and June the graceful, shrubby plant is like a true shower of gold—the arching branches completely covered with beautiful, 2-inch single flowers of canary-yellow, with tufted stamens. Fine for the foreground of shrubbery groups or in the corners of the rose garden. 2-yr., select, 45c each; 3 for \$1.05; 10 for \$3.00.

MADAME PLANTIER. There is no hardier, more dependable white Rose for the garden than the old-fashioned Madame Plantier, and it is a splendid profuse bloomer. Large clusters of good sized creamy white flowers cover the strong, vigorous plant in June, and it is hardy everywhere. Fine for cemetery planting. 2-yr., field-grown plants, 25c each; 5 for \$1.00; 10 for \$1.60.

Ferris' Hardy Ornamental Vines

Vines give delightful finishing touches to the home that shrubs and trees cannot supply—softening sharp angles, covering bleak stretches of wall, supplying grateful shade around a sunny porch, or covering arches, trellises and pergolas in their alluring way. Many of them have fine blooms in season, adding still more to their desirability.

Ferris' vines are strong, well rooted plants, grown with utmost care, so that homes of Ferris customers may have the finest sort of finish.

BOSTON IVY (*Ampelopsis Veitchi*). This dainty, lovely vine will climb almost any surface, rough or smooth, brick, cement or wood. The tiny leaves are ivy-like in form, forming a dense sheet of bright green as they overlap each other. It seems to have preference for cool places, so gives best results on the north and east sides of a building. In autumn, the foliage takes on brilliant orange and red colorings. You can count on a beautiful covering when you plant the Boston Ivy. 35c each; 10 for \$3.00. (If desired by parcel post, add 5c each, or 15c for 10 plants).

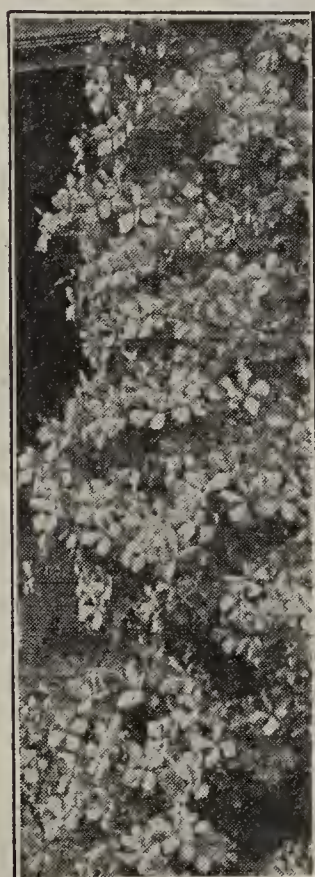

ENGELMANN'S IVY (*Ampelopsis Engelmanni*). A handsome, five-leaved Ivy that grows with unusual speed, forms a dense covering, and is hardy anywhere. It grows in sunshine or shade, withstands heat and drought, and readily climbs rough walls, fences, pergolas, etc. The deep green foliage turns to a beautiful scarlet in the fall. This is the Ivy we planted around our stucco office building, and the first season they climbed nearly to the roof. 25c each; 10 for \$2.00. (If desired by parcel post, add 5c each, or 15c for 10 plants).

CHINESE WISTERIA. We are offering you grafted plants that you can be sure of blooming in a year or two. The long, pendulous clusters of lavender-blue flowers are generously produced in May and June; the plant is graceful and lovely at all times. One of the most rapid growing of all vines, sometimes making 15 to 20 feet in a season. 60c each; 10 for \$4.00. (If desired by parcel post, add 5c each, or 15c for 10 plants).

SILVER LACE VINE (*Polygonum Auberti*). A brand new vine and a fine one. It grows quickly, sometimes 25 feet in a season. In late summer and fall it is a mass of feathery white bloom. Small leaves are a rich glossy green throughout the season. Ideal for covering a porch or trellis. 55c each; 10 for \$4.50. (If desired by parcel post, add 5c each, or 15c for 10 plants).

HONEYSUCKLE, HALLIANA (Hall's Japan). One of the most lovable of the old-fashioned vines, and is splendid for trellises, fences, for covering old stumps, bare terraces and banks, and as a ground cover. Delightful flowers of pure white change to yellowish cream and are wonderfully fragrant. Will do well in shade as well as sunshine. 25c each; 10 for \$2.00. (If desired by parcel post, add 5c each, or 15c for 10 plants).

HONEYSUCKLE, SCARLET TRUMPET. Considered by most as the finest of the Honeysuckle vines—a splendid climber, vigorous, hardy, with clusters of large, trumpet-shaped, scarlet flowers in July and August. Excellent for porches and trellises. 25c each; 10 for \$2.00. (If desired by parcel post, add 5c each, or 15c for 10 plants).

Clematis Jackmani.

Clematis

Of all the vines for either shade or decoration, none can compare with the Clematis.

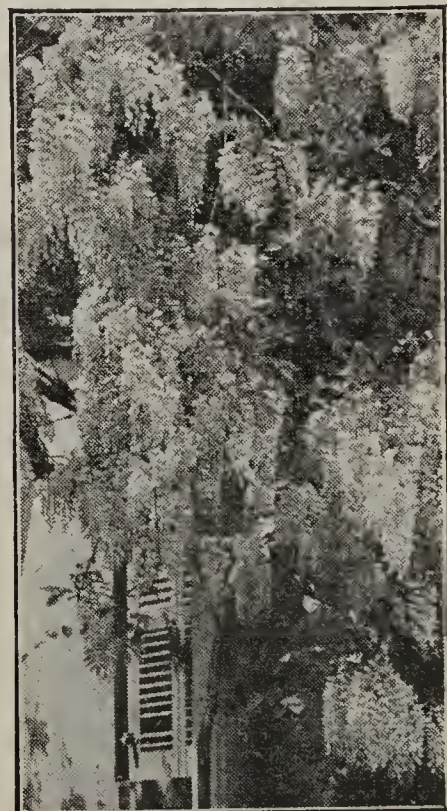

PLANTING DIRECTIONS. For successful growth, the Clematis requires more care than the ordinary vines. Plant in rich clay soil, mounded so that the water will not stand about the plant. It is important to see that the crown is three inches below the surface of the soil, cutting the top back to the crown. Water heavily before and during bloom. Cut worms may be avoided by wood ashes or a tin can with bottom cut out forced down over the root.

MME. EDOUARD ANDRE. Large flowers of a beautiful velvety red; very free-flowering and continuous bloomer. 80c each; 10 for \$7.00. (If desired by parcel post, add 5c each).

HENRYI. Fine bloomer, flowers large, of a beautiful creamy white, with from 6 to 8 petals in each bloom. June to October. 80c each; 10 for \$7.00. (If desired by parcel post, add 5c each).

JACKMANI. The beautiful and popular purple Clematis. Extremely large flowers of a rich violet-purple in great abundance from early until late. Best sort for general planting. 80c each; 10 for \$7.00. (If desired by parcel post, add 5c each).

PANICULATA. In late summer and fall, this charming vine is completely covered with a mass of white blooms that are very fragrant. It is entirely hardy, grows luxuriantly, and has fine foliage. One of the most beautiful and useful of the climbing vines. It makes an elegant combination with the Wisteria for pergolas and arches. 25c each; 10 for \$2.00. (If desired by parcel post, add 5c each).

Wisteria.

Silver Lace Vine.

**Priced
for the
Times**

Our Shade Trees are all select, heavy, transplanted trees, that are bound to give the planter fine results if properly cared for.

Catalpa Bungei.

5 to 6 ft. transplants, 80c each; 10 for \$7.50.

Cut-Leaved Weeping Birch.

IMPORTANT: WE DO NOT ENCOURAGE THE USE OF MANURE. IF WELL DECAYED AND MIXED WITH SOIL IT SHOULD BE USED ONLY ON THE TOP.

Sept. 18, 1952.
Dear Sir: I did not lose a single plant
or shrub from my last spring's order.
They came in good shape and all are
growing fine.
Yours truly, M. F. FARNSWORTH.

Catalpa Bungei

(Umbrella Tree)

A very striking tree for formal planting. The low, spreading head is four to six feet from the ground, flat and rather roof-shaped, giving it the appearance of a green umbrella. Leaves are large and dense, deep green in color. One or two of these Catalpa Bungei, planted as specimens in front of the home or in the garden or border, give a delightful formal touch that can be attained in no other way. Requires no trimming unless it is desired to keep the head to a certain size. Hardy. Our Catalpa Bungei trees are extra select.

	Each	2	10
6 ft., average height of stems,			
extra good trees	\$1.50	\$2.50	\$11.00

Catalpa Speciosa

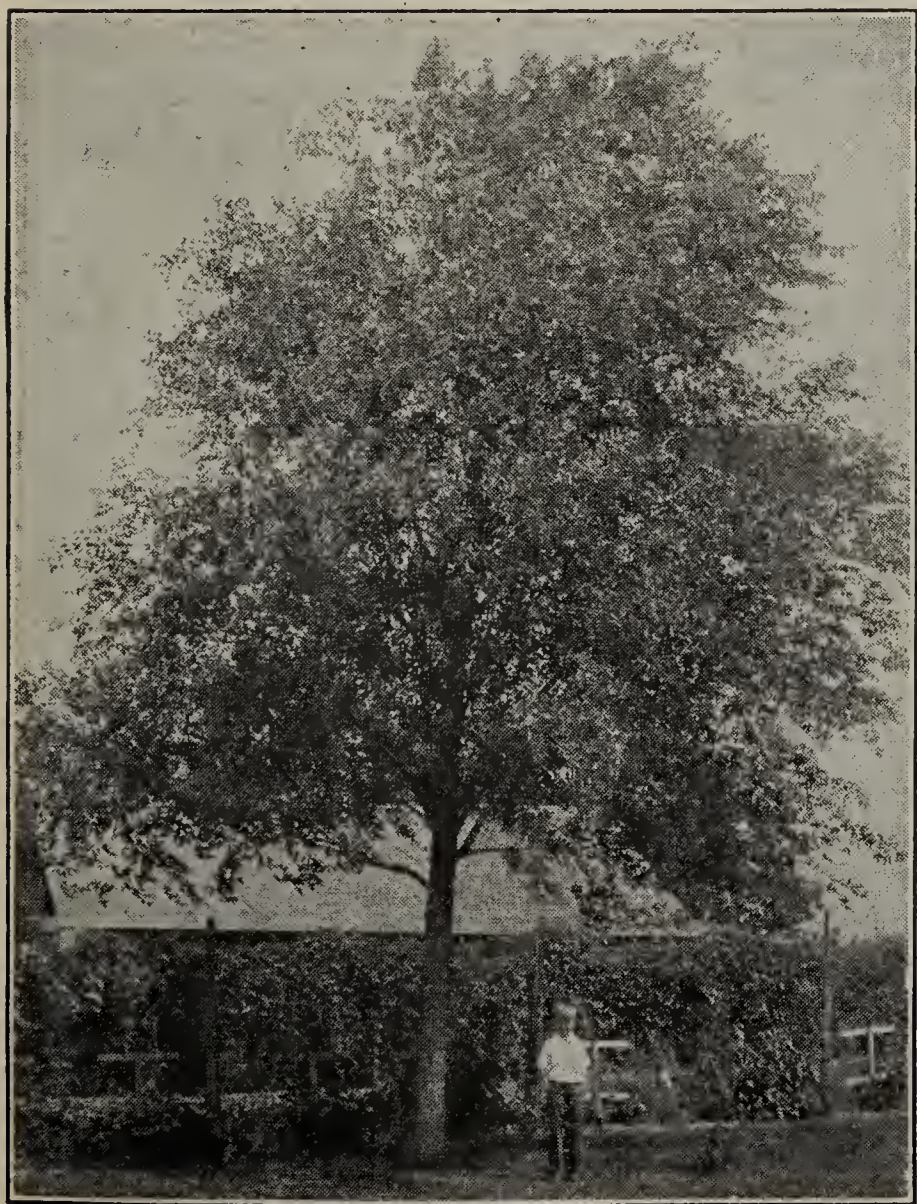

The tree that makes such a showy picture in the spring when covered with the handsome white flowers. It grows rapidly, making a tall, upright tree, with extremely large, dark green leaves. The Catalpa is one of the most valuable commercial trees, the wood being extensively used for fence posts, railroad ties, and telegraph poles. We have a fine lot of these trees suitable for shade trees, parks, wooded lots, etc.

American Elm

The noble, spreading, drooping tree of our woods, and one of the grandest park or shade trees. Magnificent and stately, it is easily distinguished by its wide, weeping top and pendulous branchlets. It is unusually long-lived, hardy, and at maturity develops an immense size. Its beauty and adaptability cannot help but make it a great favorite the country over. Our Elms are unusually fine this season.

Chinese Elm.

American Elm.

Chinese Elm

(SIBERIAN STRAIN)

The Wonder Tree That Grows as Fast as a Willow—Is Hardy Everywhere—and Has the Grace of a Birch.

It has taken the country by storm—this beautiful, extremely hardy, rapid growing shade tree. And it has been planted everywhere with the same marvelous results. In a single year it will grow from 4 to 8 feet; it is bushy and compact by habit, making it an ideal windbreak tree.

Out on the arid western plains where no other trees exist, the Chinese Elm is thriving remarkably well, while in the fertile sections it grows as no other tree has ever grown. From Texas and other parts of the South have come glowing reports of our Chinese Elms, and in Minnesota and all through the North it withstands the most trying winters.

As a lawn and shade tree it is perfect. It grows tall and majestic like the American Elm, with slender, innumerable branches, and a heavy covering of artistic elliptical leaves, somewhat smaller than those of the American Elm. For grace and beauty it compares favorably with the Birches. It is one of the earliest to leaf out in the spring and the last to shed its foliage in the fall. It is remarkably free of all insects and diseases; the large, shapely, handsome tree that it develops in such a short time is ideal for the lawn, for parks, cemeteries, and for street planting. The Chinese Elm is heartily endorsed by the U. S. Department of Agriculture as well as Experimental Stations. We cannot recommend it too highly, and we want to say that we have a splendid stock of them this season. Order early, so that we can reserve our choicest trees for you.

Norway Maple

There is no tree equal to the Norway Maple for street or lawn planting. It is the finest of the Hard Maples, being a more rapid grower and smoother barked than the ordinary Sugar Maple. It has a spreading, rounded top of unusual symmetry; foliage is large, dark green and very dense. For grace of form, beauty of foliage and grateful shade, no tree can excel it. So often you will find it along city streets, as it withstands smoke and drought better than other varieties. Leaves stay green three weeks longer in the fall than other Maples, then turn to brilliant shades of scarlet and yellow. Hardy, and we recommend it highly. Our trees are extra fine.

5-6 ft., transplanted, trimmed to straight whip75	6.50
6-8 ft., transplanted, well branched, heavy	1.75	15.00

Hard Maple

The well known Sugar or Rock Hard Maple. The rounded head is more upright than that of the Norway Maple, and it grows more slowly. Foliage is very dense, turning to showy orange and red shades in autumn. Like the Norway Maple, it is noted for its fine form, beautiful foliage, and its wealth of shade. It is perfectly hardy, and while it tends to be a little rough when small, it develops into a magnificent shade tree—one of the best for parks and lawns. We have some choice Hard Maples for our customers this season.

Schwedler's Maple, the Red-Leaved Maple

Here it is—that showy, wonderful Maple that opens up in the spring with beautiful purplish red leaves instead of the usual green. Planted at no great distance from an Elm or Hard Maple, or some other verdant tree, the contrast is irresistible in the springtime. These highly colored, glowing leaves later change to bronze, and then a little later to a dull green, while in the late fall

Schwedler's Maple.

before they drop they again assume bronze tints. It holds its leaves later than a great many other trees.

Norway Maple.
(See description and prices on page 47).

The Schwedler's Maple is very hardy, and in habits of growth and form is like its parent, the Norway Maple, developing the rounded, dense head that makes the Norway Maple so generally a favorite. Every home planting needs one or more Schwedler's Maple—the pleasing contrast that it furnishes the landscape can be supplied by no other tree.

6-8 ft., heavy, twice transplanted	2.00	18.00

Russian Mulberry

A quick growing, bushy tree, very easily transplanted, and thrives almost anywhere. It is used to great extent for quick windbreaks around fruit orchards, where it forms a dense screen, gives valuable protection, and keeps birds away from more valuable fruit. Much used for background screens, and is becoming more popular each year for low trimmed hedges. The fruit is often used in canning and pies. Also valuable for fence posts.

	Each	10	100

5-6 ft., transplanted50	4.00	25.00

Pin Oak

The noblest tree of our country, yet how shamefully it has been overlooked in shade tree plantings the past half century. Oaks grow tall and majestic; their foliage is the most beautiful Mother Nature has produced; they are extremely long lived and hardy. The Pin Oak is the best of them all for general planting. It adapts itself to different soils and local conditions better than any other Oak, and is also the most rapid growing Oak. The deep green, waxed leaf has the same artistic carving of all Oaks, turning in the fall to a gorgeous scarlet.

8-10 ft., transplanted60	5.00

Lombardy Poplar.

Bolleana Poplar

Very much like the Lombardy Poplar in appearance, having the same narrow, symmetrical top, but it is a hardier, longer lived tree than the Lombardy. Leaves gracefully cut, light green above and clear white beneath. A very beautiful tree, and splendid for special landscape effects.

	Each	10
6-8 ft., transplanted	\$1.00	\$ 9.00
8-10 ft., transplanted	1.50	12.00

Sycamore - Plane Tree

An excellent tree for street and park planting because of its very rapid growth, lofty, spreading branches, and large, deeply lobed leaves. The bark is grayish green which sheds a trifle during the winter, revealing the smooth, creamy trunk beneath, and giving it an interesting mottled appearance. Plant in deep, rich soil and prune closely.

	Each	
5-6 ft., transplanted	\$1.00	

Wisconsin Weeping Willow

The most widely planted Weeping Willow. Its charming, drooping habit of growth is especially attractive in the back-ground or close to pools. Hardy.

	Each	10
4-5 ft.	\$0.40	\$3.50

Niobe Weeping Willow

Often called "Golden Weeping Willow," having beautiful golden yellow bark, and is extremely hardy. Its drooping, graceful top gives a lovely effect on the landscape. Beautiful narrow green leaves have a silvery facing. You will certainly like this new Weeping Willow.

	Each	10
4-5 ft.	\$0.50	\$4.50

Russian Golden Willow

A rapid growing Willow, with interesting, bright yellow bark. In mass planting they are wonderfully decorative in the wintertime. Make fine, quick windbreaks, and are very hardy. We have a fine lot of them in one-year grade, averaging 3-5 ft. high, 100 for \$2.50; 500 for \$8.00; 1000 for \$13.50.

	Each	10	100
4-6 ft., transplanted	\$0.35	\$2.00	\$15.00

Pin Oak. (See page 48).

Brook, Indiana,
Sept. 18, 1932.

Sirs: Last April I ordered some shrubs, trees, and plants of your nursery. I am very much pleased to report that every plant I received grew and bloomed. The Chinese Elm tree has grown wonderfully well. I am pleased in every way with your stock. I know I can depend on Ferris from now on for all nursery stock which I buy. There is no "gamble" there.

Yours truly,
NINA SARGISON.

Amarillo, Texas,
Oct. 7, 1932.

Gentlemen: I want you to know what good luck I had with my Bargain Landscape Collection that I ordered from you last season. I ordered and have living—2 Red Barberry, 3 Pink Tartarian Honeysuckle, 8 Spirea Van Houttei, 5 Anthony Waterer, 3 Hydrangea P. G., and 4 Spirea Thunbergi. They have all grown so well, and add so much to the appearance of the house.

Yours truly, MRS. R. J. NOBLETT.

Wisconsin Weeping Willow.

Sycamore.

Our Beautiful Gladioli

The Most Inspiring
of All Flowers

Just whisper the word "Gladiolus" and every lover of flowers can talk. Borne on tall, stately spikes, with long, pointed leaves, and the greatest variety and most glorious colorings in any flowers. Hardy everywhere.

Plant Gladiolus bulbs 4 or 6 inches deep in good growing soil, keep free from weeds, and they will ask no other attention than to enjoy their gorgeous blooms. You will have blooms all summer long if you plant a few bulbs every ten days. Remove the bulbs from the ground in the fall before freezing weather, clean and dry them, and store in a cool, dry cellar.

All of our Gladiolus bulbs are strong, blooming size; we guarantee them to bloom the first year.

If Gladioli are desired by parcel post, add 5c for 3; 8c for 10; or 12c for 25 bulbs, to cover packing and postage.

Choice Lilies for the Garden

For Spring
Planting

Regal Lily - Lilium Regale

Regal, superb, hardy, and a wonderful coloring—is it any wonder that the Regal is so popular everywhere. Once you see a Regal Lily in bloom and glimpse its extraordinary beauty, then realize how very hardy it is and how easy it is to grow, you will readily understand its great desirability. Large, stately blooms are borne on strong, sturdy stems, often 4 and 5 feet high, and what magnificent blooms they are—white lightly suffused pink, with beautiful canary-yellow at the center and extending part way up the trumpet. Delicately perfumed. Blooms in June and July. Plant in fall or early spring, in any good, rich, well drained soil, setting it about 5 inches deep, and placing a little sand beneath the bulb. A garden without the Regal Lily is hardly a garden at all. **Fine blooming size bulbs, 15c each; 5 for 65c; 10 for \$1.10; 25 for \$2.50.** (If desired by parcel post, add 3c each, 10c for 5, 15c for 10, or 20c for 25 bulbs).

Tiger Lily - Lilium Tigrinum

'Tis the fine old-fashioned sort that needs no description. Handsome, bright orange-red flowers, thickly covered with large, purplish spots, that make a grand show in the garden during August and September. Very hardy, thrifty grower and fine for massing. **Select, blooming size bulbs, 15c each; 5 for 60c; 10 for \$1.00.** (If desired by parcel post, add 3c each, 10c for 5, or 15c for 10 bulbs).

Double Tiger Lily

(Lilium tigrinum flore pleno)

Wonderful showy flowers. These choice blooms have the same colors as the single Tiger Lily, but are double clear to the center. Hardy and desirable. **Select, blooming size bulbs, 20c each; 5 for 80c; 10 for \$1.35.** (If desired by parcel post, add 3c each, 10c for 5, or 15c for 10 bulbs).

Elegans Lily - Lilium Thunbergianum

Very hardy, somewhat dwarf Lilies with erect dark orange blossoms borne in great profusion. Showy, and a general favorite everywhere. Most Lilies should be planted deeply in rich, well drained soil but do not allow fertilizer to touch the bulb. **Select, blooming size bulbs, 20c each; 5 for 80c; 10 for \$1.35.** (If desired by parcel post, add 3c each, 10c for 5, or 15c for 10 bulbs).

Lemon Lily - Hemerocallis Flava

Not a bulb, but generally classed as a perennial. It is one of the old-time favorites and will always be popular. Very hardy, thriving almost anywhere, but does exceedingly well in a moist place or in shade. Abundant, grasslike foliage makes a very beautiful background for the wealth of clear yellow blooms in June. Unusually effective in clumps or masses in the garden. **Fine, blooming size plants, 20c each; 5 for 75c; 10 for \$1.25.** (If desired by parcel post, add 3c each, 10c for 5, or 15c for 10 plants).

OUR SPECIAL BARGAIN PRICE **\$21.50**

Here in this delightfully secluded spot, surrounded by lovely shrubs and gay perennials, the happiest hours are spent—chats with neighbors and friends, the family conclave, the children's games. Ferris' plants are ideal for creating these Outdoor Living Rooms.

Wonderful Bargains in Ferris' Shrubs

Hardy, Thrifty Plants - The Lowest Prices Ever Offered

NO NEED, now, to deny yourself the beauty and serene joy of Flowering Shrubs, when you can get them at such very low prices. And what a miraculous change even a group of them will make around the porch or along the foundation. You will be delighted with their charming blooms, both for indoor bouquets and for the outdoor color they bring.

A few simple rules will help you to create the most beautiful setting for your home, such as keeping an open lawn for the most part, planting shrubs in groups at the entrance, around the foundation of the house, at the corners and along the boundary lines—keeping the taller growing sorts in the background and the dwarf plants in front—avoiding too stiff lines by rounding out the corners and forming curves along the straight stretches.

We offer you here a wonderful assortment of shrubs to choose from—fine, hardy plants that will make ideal foundation groups, or taller growing varieties for screens and backgrounds, as well as good, substantial sorts to give body and tone to the garden and outdoor living room.

The Charming Barberries

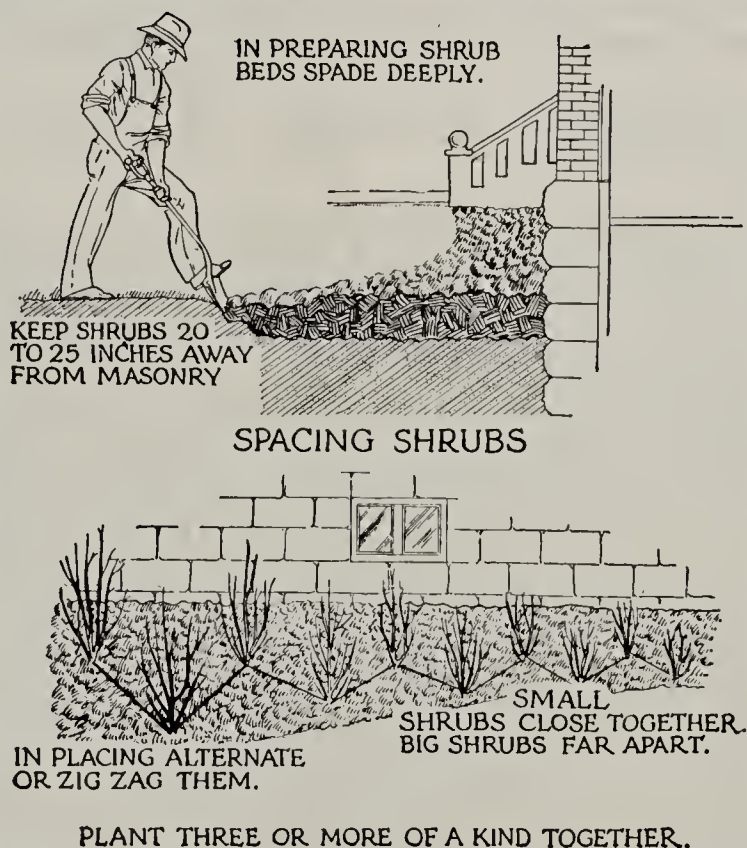

You Will Scarcely Find More Useful Plants for the Landscape Than These.

JAPANESE BARBERRY (*Berberis Thunbergi*). Graceful, artistic beauty that makes it suitable for any group planting, and as a hedge it is unsurpassed. Very hardy, and remember that this plant is absolutely free of rust; that it can be planted without restriction anywhere. For complete description see page 66.

Berberis Thunbergi—Japanese Barberry.

How to Plant Shrubs

PLANTING DIRECTIONS FOR SHRUBS

Shrubs are easily planted and require little care. Any good growing soil is excellent. Set the plants deeply and firmly, and trimming the tops back will insure a quicker and better growth. Keep them cultivated and free from weeds the first year or two, watering them in the evening during dry spells. After the first year they will require little care other than any annual pruning you may wish to give them. Each year's growth will add to the charm of your planting.

	Each	10	25	100
12-15 in. transplants, heavy ..	\$0.10	\$0.75	\$1.25	\$ 3.00

2-3 ft., extra heavy, twice transplanted35	3.00	6.00	20.00

RED-LEAF BARBERRY. (See color picture, page 53). Plant the beautiful Red-Leaf Barberry out in an open sunny place, and it will pay you well by producing a leafy coat of glowing crimson, giving a sparkling contrast to the foundation planting or garden group. Very hardy, and has the same artistic leaves and spines of the Japanese Barberry, while in the fall it, too, is loaded with bright red berries, which hang on late into the winter. Absolutely rust-proof. For best color effects, the Red-Leaf Barberry must have lots of sunshine.

	Each	10
2-yr., field-grown, 9-12 in.	\$0.25	\$2.00
15-20 in. transplants, bushy40	3.00
20-26 in. transplants, bushy50	4.50

Butterfly Bush

(*Buddleia magnifica*)

Long spikes of bluish violet flowers, delightfully fragrant, are attractive to folks and butterflies alike. You will want a clump of them in your perennial garden or edging the shrubbery group where they will best display their unique charms. Sometimes called the Summer Lilac, their prolific blooms often lasting from July to frost. It is a perennial naturally, the branches freezing back in the winter, but the new growth readily starts from the roots in the spring.

	Each	10
2-yr., No. 1 plants	\$0.25	\$2.00

PARCEL POST SHIPMENT OF SHRUBS

The smaller sized shrubs we list can in most cases be shipped by parcel post, and where desired that way and it is requested on the order, we will ship parcel post with the postage C. O. D. This automatically insures your shipment and protects you. The larger, heavier shrubs are in many cases too large and bulky for parcel post shipment.

Beauty Bush.

Beauty Bush

(Kolkwitzia amabilis)

(See color picture, page 52).

How appropriately it is named, for it is graceful and charming at all seasons, but especially so when entirely covered with beautiful clear pink blooms in May. Florets are rather small, lipped somewhat like a Foxglove, and a most enchanting shade of pink, with brownish spots and veins. The tiny rose colored buds are fascinatingly hooded with fuzzy jackets which remain to decorate the seed pods. A shrub of medium height, splendid in the background of the foundation planting or border. Extremely hardy. Plant a Beauty Bush, and enjoy the living meaning of its name.

	Each	10
12-18 in. transplants	\$0.25	\$2.00
3-yr., heavy transplants50	4.00

The Deutzias

Delightful Plants for the Home Border. They Create a Lovely Picture Wherever Used.

DWARF DEUTZIA (Gracilis). A charming little shrub, low growing, bushy, and one of the very finest for edging shrubbery groups or along the foundation, while small clumps of them at the entrance walk are especially enticing. Dainty white flowers envelope the plants in May and early June.

	Each	10
2-yr., thrifty transplants	\$0.25	\$2.00

DEUTZIA, PRIDE OF ROCHESTER. A vigorous, upright grower, with large double white flowers and many of them. Handsome, often reaching a height of 4 to 6 feet. Plant where it will be somewhat protected. You will surely be delighted with this beautiful shrub in your foundation planting.

	Each	10
1-yr., field-grown	\$0.15	\$1.00
2-yr. transplants25	2.00

DEUTZIA CRENATA. Another favorite in landscape groups. Beautiful, double pink flowers fairly cover the graceful branches; an erect grower and splendid for foundation plantings, making an attractive companion for the Pride of Rochester. Likes a sheltered position.

	Each	10
1-yr., field-grown	\$0.15	\$1.00
2-yr. transplants25	2.00

Deutzia, Pride of Rochester.

The Hardy Dogwoods

Splendid Material for Winter Effects—and So Desirable in Mass Plantings.

RED-BRANCHED DOGWOOD. Showy, blood-red branches make this one of the most interesting and delightful plants for the wintertime landscape, while its tangled branches, its yellowish white flowers and creamy fruit are just as desirable for the rest of the year. A good plant for partial shade as well as a sunny spot, and one of the very best screen or background shrubs. Extremely hardy, and worthy of more generous use. Each 10

2-yr. transplants	\$0.20	\$1.50
3-yr., heavy40	3.00

YELLOW-BRANCHED DOGWOOD. Very much like the Red-Branched Dogwood except that the branches are an attractive golden yellow; flowers white. Planted in combination with the red-twigged variety, it makes a most pleasing, harmonious contrast. Each 10

3-yr., heavy	\$0.40	\$3.00
--------------	-------	--------	--------

VARIEGATED DOGWOOD. A very lovely, new Dogwood with striking foliage of bright green edged with creamy white. Use it in combination with the other Dogwoods or with other varieties of shrubs and you will be delighted with the contrast effect. Hardy, and a rapid grower. Each 10

2-yr., No. 1	\$0.35	\$3.00
3-yr., heavy50	4.00

Forsythia.

Forsythia - Golden Bell

In All Its Golden Splendor Gives Early Spring
A Royal Welcome.

(See color picture, page 52).

The first shrub to bloom in the spring—and what a bright spot it makes on the landscape! Beautiful, bell-shaped flowers of rich golden yellow open up in great profusion; foliage bright green. Everybody should have this gay, early blooming shrub; it makes a fine specimen by itself, or in groups makes splendid combinations with other shrubs.

	Each	10
1-yr., field-grown	\$0.15 \$1.00
2-yr., heavy transplants	..	.30 2.50

Bush Honeysuckles - Lonicera

VIGOROUS — HARDY — BEAUTIFUL

For Screen Hedges and Background Planting, You Cannot Find Better Plants Than These.

PINK TARTARIAN HONEYSUCKLE. This is one of the most useful of all shrubs, being indispensable for background work, while a hedge of Tartarian Honeysuckle makes as fine and pretty a screen as you could wish. It grows very rapidly, easily gaining a height of 8 or 10 feet at maturity when untrimmed, but can be kept trimmed to any height desired. About the time of Decoration Day it is covered with beautiful delicate pink buds, which, as they open, merge into blush white; foliage luxuriant and bright green. Its chief claim, though, is its wealth of orange and red berries, which so beautifully cover the plant in the summer. It is entirely hardy, growing well in almost any kind of soil, and in partial shade as well as sunshine. Here at the nursery we have a hedge of this artistic Honeysuckle along a driveway, of which we are very proud. Each 10

12-18 in.	\$0.20 \$1.20
2-2½ ft. transplants30 2.50

WHITE TARTARIAN HONEYSUCKLE. Description the same as above except that the buds and blooms are pure white. Like the pink, it is loaded with brilliant red berries in the summer time. Each 10

12-18 in.	\$0.20 \$1.20
2-2½ ft. transplants30 2.50

JAPAN HONEYSUCKLE.

Has the same artistic foliage, blooms, and bright berries of the Tartarian species, but does not grow so tall—branches are more spreading. The creamy white flowers come early in the season, and then a beautiful covering of crimson berries in July and August. You will be delighted with a screen hedge planting of Japan Honeysuckle; in combination with other shrubs in landscape groups, it is always effective. Each 10

2-yr., field-grown	\$0.20 \$1.50
3-yr. transplants30 2.50

White Tartarian Honeysuckle.

Hydrangea Paniculata Grandiflora.

Variegated Dogwood.

Golden Elder

Their Bright Yellow Leaves are Rich
Material for the Landscape.

This glorious, golden leaved bush is deserving of far more attention. Very hardy, and will flourish under almost any condition. It grows rapidly, easily gaining a height of from 6 to 10 feet when untrimmed, though it can be kept trimmed back to any height desired. Its chief wealth of beauty lies in the startling yellow tinged foliage, which makes a rich contrast with the green of other shrubs and trees. (Illustrated in planting shown at bottom of page 54, lower left corner). The large, flat blossoms of white soften the luster, and they are followed by red purplish berries in late summer. Plant it where it will get lots of sunshine. Each 10

18-24 in., field-grown	\$0.20 \$1.00

Hydrangeas

Gorgeous Summer and Fall Blooming Hydrangeas are Showy
Favorites for the Landscape.

HYDRANGEA ARBORESCENS (Hills of Snow). (See color picture, page 52).

One of the most charming and desirable of flowering shrubs. This is the summer blooming Hydrangea, its immense pure white panicles of bloom, rather flat in shape, opening up in greatest profusion in June and lasting until the Hydrangea Paniculata Grandiflora blooms start; often called the Snowball Hydrangea. Foliage bright green and very finely finished. A beauty in the foundation group or in mass plantings, and very hardy. We have an extra fine stock of them this year. Each 10

2-yr., field-grown	\$0.20 \$1.50
3-yr. transplants30 2.50

(For other varieties of Hydrangea, see page 61).

You, too, can be proud of your home if you frame it with this fine combination of Ferris ornament-als, and the price is down to almost noth-ing!

White Kerria Blossoms and Foliage.

Flowering Almond and Flowering Quince

Shrubs of Outstanding Beauty. Their Early, Exquisite Blooms Make Them Very Desirable.

FLOWERING ALMOND. Pink and white varieties. A very beautiful and graceful shrub of medium height, covered with very double pink or white flowers in early spring before other shrubs have budded and is exceedingly attractive. Hardy, but does best when planted in a protected place close to the house or in the garden, yet should have a rather predominate place where the early flowers can reflect their full beauty. Very popular and desirable. Our plants are extra strong and hardy, being budded on hardy, northern native plum root. Choice, Pink and White.

	Each	10
18-24 in., field-grown	..\$0.30	\$2.75

JAPANESE FLOWERING QUINCE (*Cydonia japonica*). (See color picture, page 52). A long-time favorite in gardens. In May, often before the attractive glossy leaves appear, it is completely enveloped in clustered flowers of bright rose-crimson, looking almost as if it were ablaze. This sometimes gives it the name of "Firebush." It likes a sheltered, rather sunny place. In combination with the Forsythia or early bloomers of that sort, it is indeed beautiful, while a background of evergreens will bring out its charm more than ever. Our stock is limited, so order early.

	Each	10
12-18 in., field-grown	...\$0.20	\$1.75
3-yr. transplants40 3.75

Rosa Rugosa

Really a Rose, but often included in the shrubs, as it is excellent in combinations with shrubs—invaluable in the border plantings. See varieties, descriptions and prices under Roses, on page 40. You will be surprised how much colorful beauty a group of three or more of them will bring to your shrubbery plantings.

Rosa Hugonis

Another fine shrub-rose with wonderful yellow blooms that add richly to foundation and garden groups. You will find complete description and prices on page 44. We cannot recommend this too highly for your Rose garden as well as your border planting.

HYDRANGEAS—Continued from page 58.

HYDRANGEA PANICULATA GRANDIFLORA. (See color picture, page 52). A magnificent landscape shrub, and exceedingly popular. Flowers are borne in large, globe-shaped panicles, white in color but becoming tinged with a delicate pink at the first frost, and last for weeks after opening up. This plant is absolutely hardy, grown in almost any soil, and blooms the same year it is set out. Very attractive in beds or masses, and should be used for the most part in the foreground. You cannot do without them, for they come at a time when blooms are scarce—during September and October. A good trimming in early spring will induce a bushier growth and more abundant blooms. We have a splendid stock of Hydrangea Paniculata Grandiflora plants this year—the finest ever produced, we think.

	Each	10
2-yr., field-grown	\$0.20 \$1.50
3-yr. transplants30 2.50

TREE HYDRANGEA PANICULATA GRANDIFLORA. The same as Hydrangea Paniculata Grandiflora, but grown on stems in dwarf tree form. At maturity they stand about five feet high. Most attractive and desirable, making a very picturesque shrub for the lawn, and especially beautiful when covered with the immense panicles of bloom.

	Each	
With well shaped heads, 3-4 ft. average	\$1.00

White Kerria

(*Rhodotypos Kerrioides*)

The very unusual foliage of this splendid shrub is in itself a wonderful attraction, the leaves being covered with deep veins and sharply notched, giving them a somewhat plaited effect.

This mass of fine, light green foliage is set off in a charming fashion by the numerous, showy white flowers in May and June, followed by jet black fruits or seed pods that last all winter. A delightful and interesting shrub wherever used, as well as hardy. Will do well in shade. Each 10

2-yr. transplants	\$0.30 \$2.50
-------------------	-------	---------------

Lilacs - Old and New

Without the Beauty and Fragrance of the Lilacs. Springtime Would be Robbed of Half Its Charm.

OLD-FASHIONED LILAC (Common Varieties).

Easily the favorite of the old-time flowers, and because of their hardy, dependable nature and their exquisite blooms, they will always be popular. Single specimens on the lawn or in the garden form immense plants, sometimes 8 or 10 feet high, while in groups or screen hedges they are delightful. A row of their colorful, fragrant blooms in May is a sight never to be forgotten. Extremely hardy.

LILAC ROTHOMAGENSIS (Improved Persian).

A beautiful hybrid. Splendid arching branches, and a great abundance of reddish purple flowers. 3 ft. transplants, 40c each; 10 for \$3.50.

Our Choice French Lilacs

(Illustrated in color on page 53)

Select Hybrids that are excellent for hedging or clumps, and are very popular in the background of foundation groups. The blooms are extremely large, most of them double, colors varied and beautiful, and with a fragrance more delightful even than you will find in the old-fashioned Lilac. Moreover, they bloom as little things less than two feet high, instead of waiting till grown to be large bushes.

MADAME LEMOINE. Beautiful, immense clusters of double, snow-white blooms.

CHAS. X. Reddish purple buds changing to mauve in full bloom. Huge, lovely single flowers.

SOUVENIR DE LUDWIG SPAETH. Long pointed clusters of rich magenta-purple, single blooms.

MICHAEL BUCHNER. Exquisite pink-lilac buds merging into blue-lilac when fully open. Extremely large trusses; double.

CHAS. JOLY. A gorgeous reddish purple; large, double blooms.

BELLE DE NANCY. Large double flowers of a charming pinkish tint.

KATHERINE HAVEMEYER. Cobalt blue. Large, double blooms, and exceedingly beautiful.

PRES. GREVY. Large, full, double blossoms of exquisite lilac color.

MADAME CASIMIR-PERIER. Very large clusters of double blooms, snowy white. Plant dwarf.

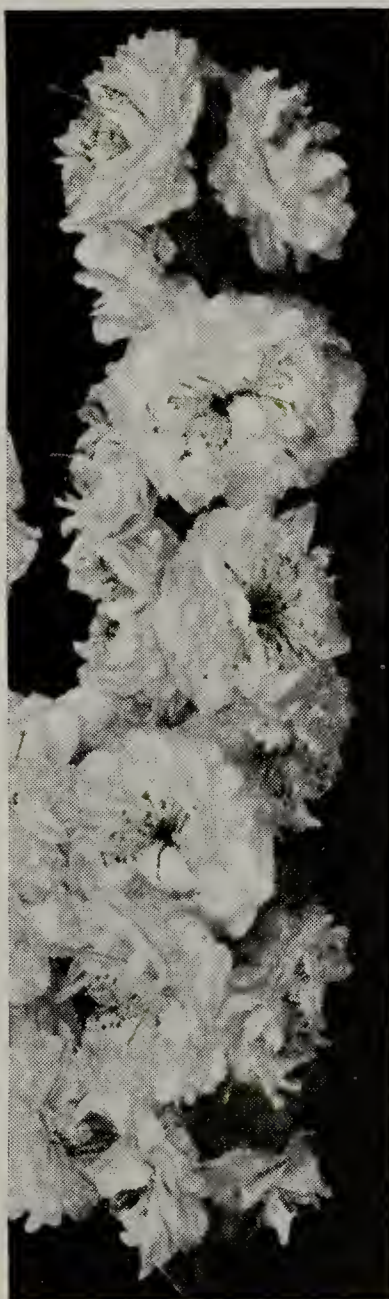

MARC MICHELI. One of the finest, with its huge clusters of double blooms beautifully colored light purple.

MARIE LEGRAYE. Single white flowers in large, full clusters. A favorite.

LA TOUR D'AUVERGNE. Gorgeous deep purple bloom; very double and fragrant.

FERRIS' SPECIAL BARGAIN PRICE ON ABOVE FRENCH LILACS

Flowering Almond.

Snowberries

Their Clustered Berries are a Delightful Part of the Fall Landscape.

WHITE SNOWBERRY (*Racemosus*). (See color picture, page 52). Tiny, rose colored flowers in June and July, followed by large, clustered, milk-white fruits which remain far into winter, making a combination that is very charming. The bush itself is compact in form, semi-dwarf in habit, and grows well in shade or sunlight.

	Each	10
3-yr. transplants	\$0.20 \$1.20

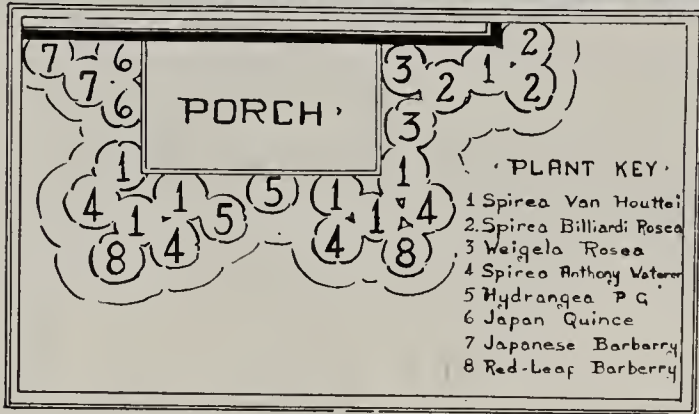

RED SNOWBERRY (*Vulgaris*). Quite like the White Snowberry except that its fruits are red, and cluster in thick ropes along the weighted-down stems. The foliage is distinct in its fineness, and with the White Snowberry, is very valuable for border planting. Rather dwarf in form, growing from 2 to 4 feet high. Often called "Indian Currant" and "Coral berry."

Spirea Billiardi Rosea.

Staghorn Sumac

Luxuriant Foliage With Almost a Tropical Effect.

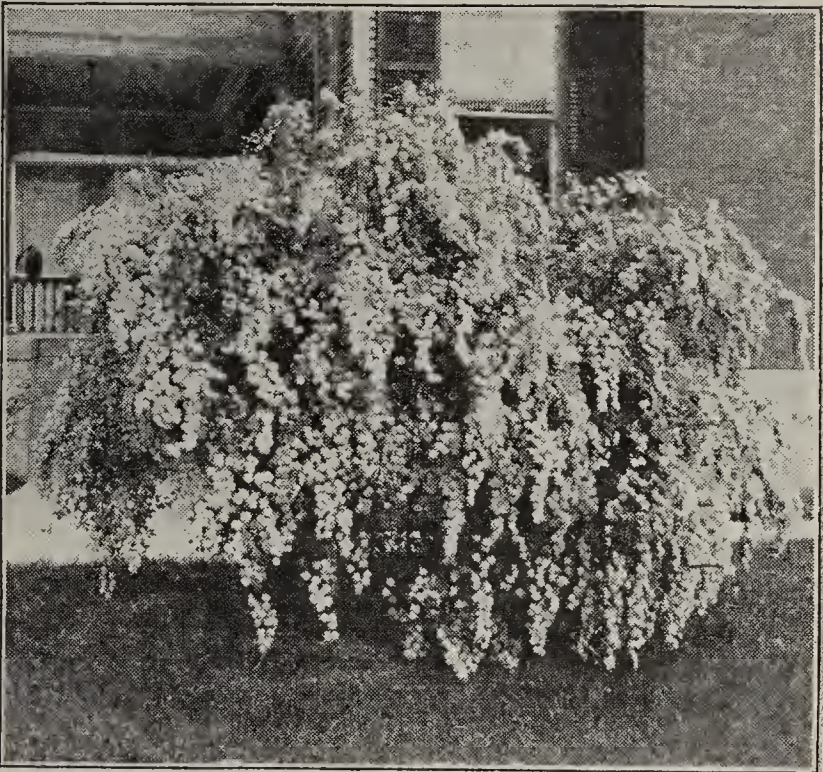

A tall, broad growing shrub, with beautiful, lustrous foliage, deep green in the summer and brilliantly colored in the fall. The Sumac is one of our finest native shrubs, just the thing to fill up a corner or to dress-up the background. Scarlet fruits in the fall.

	Each	10
2-3 ft. transplants	\$0.35	\$3.00

Graceful Spireas

Probably the Most Widely Planted Shrubs in the Universe. Their Refined Ways and Hardy Adaptability Make Them Indispensable.

SPIREA VAN HOUTTEI (Bridal Wreath). Graceful, with long, drooping sprays, thickly studded with handsome, pure white flowers, hence its popular name of "Bridal Wreath." This is the finest and probably the most beautiful of the Spireas, and one of the most popular of all shrubs. In May and June the arching branches are covered with little white flowers. The foliage is very beautiful, dark green in color, and finely cut, making the bush attractive even after the flowers are gone. It grows six feet in height, is extremely hardy,

Spirea Van Houttei.

SPIREA SORBIFOLIA. Sometimes called Ash leaved Spirea for its handsome, fernlike foliage is quite similar to that of the Mountain Ash. In June and July the vigorous, branching bush is covered with lovely feathery panicles of creamy white blooms. In bloom or out, this Spirea is always attractive. It is hardy, and ideal for foundation groups or garden planting.

	Each	10
2-yr., select	\$0.30	\$2.50

SPIREA BILLIARDI ROSEA. (Pictured in color on page 53 and in the planting at top of page 54). A handsome shrub for foundation groups and ornamental hedges, being covered with long plumes of soft pink bloom from July to September. The bush itself grows compact and shapely, 4 or 5 feet tall, and is especially fine in the border. Will grow anywhere.

	Each	10
18-24 in.	\$0.15	\$1.00
3-yr., select transplants	.25	2.00

Spirea Anthony Waterer.

Syringa - Philadelphus

Use These Splendid, Tall Growing Shrubs Either as Specimens or in Informal Clumps and Backgrounds. Their Waxy White Blooms of Delicious Fragrance are a Joy to Every Planting.

SYRINGA OR MOCK ORANGE (Coronarius). (See color picture, page 52). A tall, vigorous and hardy bush, that in May and June is generously covered with exquisite white flowers resembling orange blossoms, which are very fragrant. The blooms are beautiful for cutting, while the plant itself is very valuable for backgrounds and screens, groups or specimen planting.

	Each	10
1-yr., field-grown	\$0.15	\$1.00
3-yr., transplants30	2.00

SYRINGA LEMOINE. Medium low plant, producing a lavish covering of large, very fragrant, white blooms that are often semi-double; very attractive, healthy foliage. You will find this a delightful plant for garden planting or lawn groups.

	Each	10
3-yr. transplants	\$0.35	\$3.00

SYRINGA—Continued.

SYRINGA, VIRGINAL. (See color picture, page 53). A truly magnificent shrub and the finest of all Syringas. Plant is very hardy and vigorous, with unusually lovely blooms. Petals are pure white and large, forming double crested flowers, five to seven in a cluster. After the heavy blooming period in June, a cluster will often appear now and then through the summer, and how fragrant are these blooms, a bouquet of them completely filling a house with their sweetness. Very popular in foundation groups and the border planting.

	Each	10
3-yr., No. 1 plants	\$0.30	\$2.75

The Viburnums

Sturdy, Dependable and Beautiful. They Give You the Feeling of "Just-Right-ness" and Capability. They are all Ideal for Mass Planting, and Thrive Well in Shade.

SNOWBALL (*Viburnum opulus sterile*). (See color picture, page 53). A showy plant for the May garden, and the old standby for Decoration Day, so well known that it scarcely needs a description. Very hardy, with handsome flowers that appear in numerous compact balls in the spring. Long used for cemetery planting, and as specimen plants in the home garden the Snowball has few rivals. An excellent plant, too, for the background or screen planting either by itself or in combination with other shrubs.

	Each	10
2-yr. transplants..	\$0.35	\$3.00

HIGH BUSH CRANBERRY (*Viburnum opulus*). (See colored illustration on page 53). A sturdy, vigorous bush of the Snowball family, with soft white flowers closely resembling the Snowball, though more flattened. In the fall of the year it is especially beautiful when loaded with clusters of ornamental berries that are retained until late in the winter. This is another shrub that will do well on the north side of buildings where little sunlight reaches. Very hardy and popular in all sections.

	Each	10
1-yr., field-grown	\$0.25	\$2.00
3-yr. transplants..	.40	3.50

High Bush Cranberry.

Syringa—Mock Orange.

DOUBLE-FILE VIBURNUM (*Viburnum tomentosum*). One of the most beautiful all-season shrubs. The handsome white flowers in May and June are followed by a heavy crop of attractive berries, which at first are red, changing to blue-black. The foliage, too, is attractive, being very heavy and bright green, changing to a rich purplish crimson in early fall. Grows about 8 feet tall, and does well even in the shade.

	Each	10
2-yr. transplants	\$0.35	\$3.00

The Weigelas

Their Lavish, Trumpet-like Blooms are Superb. Here are Plants That Aid Immensely in Making the Landscape Setting a Beautiful One.

(Both varieties pictured in color on page 52).

WEIGELA ROSEA. How can it help but be popular, with its showy display of fine, bell-shaped, rose-pink flowers in May and June. Makes a broad, bushy and vigorous plant, with large, deep green foliage, the elegant blooms lasting an unusually long time. Whether used as a choice specimen on the lawn or in a mass planting, it is always charming.

	Each	10
2-yr., field-grown	\$0.25	\$2.00
3-yr. transplants..	.35	3.00

Double-file Viburnum.

WEIGELA, EVA RATHKE. An extra choice sort, with beautiful blooms very similar to those of the Rosea, except that they are a very rich, deep crimson in color, and such an abundance of them. More dwarf in habit; a splendid shrub for the foundation planting or the informal border.

	Each	10
2-yr. transplants	\$0.30	\$2.75

French Pussy Willow

(*Salix Caprea*)

A perfectly hardy shrub or dwarf tree that is very desirable for the home planting. You all know its artistic habit of producing many furlike catkins, one to two inches long, up and down upright stems. Quite often these pearl-gray catkins have a pinkish cast, and make a very delightful picture in winter bouquets. The branches can be cut any time in December, January or February; then, if placed indoors in a vase of water, they will quickly burst forth into bloom. As soon as they are in full bloom, remove from the water, and they will retain their loveliness for months.

	Each	10
2-3 ft., No. 1 plants	\$0.50	\$4.00

Tamarisk

(*Tamarix gallica*)

A refined, graceful shrub, often growing to a height of from 10 to 12 feet. Foliage is very delicate and feathery, of a light green color, while the bush is topped with light pink flowers borne in loose sprays. At a distance it makes a most compelling picture—a veritable green and pink mist. One of the most attractive plantings we have ever seen contained a group of six or more Tamarix surrounded by the Golden Elder—the contrast in growing habit, foliage and colorings was very artistic.

	Each	10
1-yr., field-grown	\$0.20	\$1.50
2-yr. transplants35	3.00

Weigela Rosea.

Unicoi, Tenn.,
Oct. 5, 1932.
Dear Sirs: The Evergreens I got from your nursery in the spring all lived and are growing fine. I hope to make another order right away.
R. H. BOOTH.

Bechtel's
Flowering
Crab.

Ferris Dwarf Flowering Trees

At Special Low Prices

In Groups or as Specimens on the Lawn, They are Always Handsome.

Japanese Flowering Crab

(*Malus floribunda*)

A very charming Flowering Crab, a profuse bloomer, and hardy. Lovely rose colored buds merge into white as they open, followed by yellowish fruits in the fall. Popular in landscape planting.

4 ft., select Each \$0.60

Scheidecker's Flowering Crab

(*Malus Scheideckeri*)

A rather tall growing species, sometimes reaching 12 or 15 feet in height at maturity. The beautiful double blossoms entirely cover the tree in May—often red in the bud, changing to pink as they open. A splendid specimen type.

4 ft., select Each \$0.60

Crimson Crab

(*Malus atrosanguinea*)

Everyone is delighted with this showy flowering tree—a veritable shower of dark red, single flowers in the month of May, with small, bright red fruit in the fall. Fine for individual planting.

4 ft., select Each \$0.60

Bechtel's Double-Flowering Crab

(*Malus Ioensis Bechteli*)

(See picture in color on page 53).

One of the very best dwarf ornamental trees, and is exceptionally fine for specimen planting. The delicate pink blossoms, double and large, which from a distance

look like small roses, are borne in great profusion from the middle to the last of May, and their exquisite fragrance emphasizes their charm. Very hardy. The Bechtel's Flowering Crab is sometimes incorrectly called the "Rose Tree," on account of the similarity of the blossoms to small roses.

Each 5
2-3 ft., No. 1 \$0.45 \$2.00

Red-Flowering Crab

(*Malus Neidzwetzkyana*)

It is difficult to find a Flowering Tree as handsome as this. In early spring it is a mass of beautiful red flowers, followed by a crop of attractive small fruit which is a favorite food of birds. It is a strong, rugged grower, hardy even in the coldest climates. We recommend it highly.

Each
4 ft., select \$0.60

Russian Olive

A very artistic tall growing shrub, or small tree, splendid for specimen planting, or to accent shrubbery groups. Its beautiful, silvery gray foliage makes a most delightful contrast with the green of surrounding shrubs and trees. In June the bushy, spreading top is fairly covered with small yellow flowers of fine fragrance, followed by ornamental yellowish brown fruits with silver scales. Hardy. Fine for screen hedges.

Each.. 10
3 ft. transplants \$0.25 \$2.00

Paul's Double Scarlet Thorn.

Double Flowering Plum.

Purple-Leaved Plum

(*Prunus Newport*)

If you are looking for something to liven up your planting—to give it sparkling contrast as well as distinction—by all means use this beautiful shrub or small tree. Its showy foliage opens up a bright pinkish crimson, turning to dark purple, and retains these striking colors throughout the summer. Delicate white flowers almost cover the shrub in the spring. Ours is the hardy variety that will flourish almost anywhere, and it will always give delight wherever planted.

Each 10
2-3 ft. specimens \$0.40 \$3.50

Double-Flowering Plum

(*Prunus triloba*)

ROSE TREE OF CHINA (See picture in color on page 53).

A description scarcely does justice to this lovely shrub or small tree. Early in the spring before the leaves appear it is entirely enveloped in a fleecy cloud of double pinkish flowers—an irresistible sight. The foliage coming a little later is delicate, making the shrub attractive even after the flowers have disappeared. Hardy, vigorous grower. A specimen in your outdoor living room or a clump of them near a shrubbery group will give you the keenest sort of satisfaction.

Each 10
2-3 ft. specimens \$0.40 \$3.50

Paul's Scarlet Thorn - Crataegus

In the Haw family, and like its kinsfolk is absolutely hardy, rugged, and of unusual beauty. The double, bright scarlet flowers of May and June are very showy, foliage is handsome, yet not only is it a beautiful tree in the growing season—during the winter its whorled branches and wild aspect make it wonderfully picturesque. Likes rich, heavy soil. Give it a prominent place, near a shrubbery group, where it can show off so well its many charms.

Thunberg's Barberry Hedge.

Ferris' Hedges • Beautiful Living Fences

Our Stocky, Well Rooted Plants are Ideal for Quick and Permanent Hedges. Our Price is the Lowest It Has Ever Been so that Everybody Can Have Their Own Hedge This Year.

With the hedge comes the delicate touch of privacy that stamps a home as really your very own; it borders the picture and frames it artistically, without shutting off the lovely views. Bounding the lot lines and along the driveway or walk you will want a low hedge of Barberry or Privet, or if you live in the far north it would be safest to plant Buckthorn and Caragana.

Amoor River North Privet.

To make your outdoor living room a delightfully secluded spot, enclose it with our fine Tartarian Honeysuckle, screening any unsightly views with these Honeysuckles or other tall, broad growing plants such as the Lilacs, Golden Elder and Spirea Van Houttei. Then, if you are drawn to an evergreen hedge, you should use the American Arbor-Vitae or one of the other easily trimmed, easily shaped varieties we are offering.

How to Plant a Neat Hedge

TO GET A DENSE HEDGE AT BOTTOM SET HEDGE SLIGHTLY LOWER THAN PLANTS GREW IN NURSERY.

TO GET A STRAIGHT HEDGE DIG ONE SIDE OF TRENCH STRAIGHT AND PLACE PLANTS AGAINST THIS SIDE

Thunberg's Japanese Barberry

The Japanese or Barberry Thunbergi is a beautiful plant with drooping branches, spoon-shaped leaves, with foliage a brilliant shade of green in the summer. From autumn until early winter the leaves are of a rich crimson and the branches are loaded with scarlet berries. Even in winter it is very attractive as the berries stay on and the closely interwoven branches are thickly set with spines and never grow bare. We cannot recommend this hardy Barberry too highly for hedge planting. They should be planted 18 inches apart and may or may not be trimmed, as desired. Our Japanese Barberry are exceptionally fine plants this season.

We will guarantee that the Barberry Thunbergi is not subject to rust any place and that it will pass inspection in any state. Ask your state or federal authorities about it.

Amoor River North Privet

(Ligustrum amurense)

The hardiest Russian Privet of them all. It has light green leaves, is of upright, graceful growth, and is the only Privet to use for hedge plantings in the North. In our section we find it superior to any other variety; is not subject to blight. This Privet is also used many times in foundation groups, for its foliage is very attractive and remains on the plant until late in the season. When properly sheared will give a very formal effect. To get a bushy, compact hedge, the plants should be set several inches deeper than they were in the nursery, and should be given a severe trimming immediately, cutting them back one-third to one-half. Trim your hedge at least once a year in May or early June. These hedge plants should be set about 12 inches apart.

Buckthorn Hedge.

Caragana - Siberian Pea Tree

The hedge plant for the North, as it is extremely hardy, doing well up in North Dakota and the northern section of Minnesota. It is a strong, thrifty grower, and can be trimmed back as much or as little as desired. The numerous, twiggy branches are set off by showy lenticels. Late in the spring, the plant is covered with small, bright yellow blossoms. For severe climates, it is a supreme hedge plant.

Buckthorn - Rhamnus

Another very hardy hedge plant that we especially recommend for the North. When untrimmed, it will make an attractive thicket-like background, and it is also easily trimmed and kept low for more formal planting. Strong, thrifty grower, with dull, gray-green foliage, and small white flowers in the spring followed by picturesque black fruits in the fall. Scattered thorns make it still more protective. Plant deeply, cutting the tops back to within 3 or 4 inches of the ground to induce a bushy, symmetrical growth. A splendid hedge plant for poor, thin soil, and very popular in northern regions.

	Each	10	25	100

12-18 in., XX	\$7.00	\$13.50	\$25.00

NORWAY SPRUCE. The campus of the University of Ohio boasts one of the most beautiful evergreen hedges in the world, and it is of Norway Spruce—a close, compact hedge, trimmed 6 feet high. See page 12 for description of this splendid hedge evergreen. Set 18 or 24 inches apart in a hedge row.

	25	50	100
12-18 in., XX	\$2.25	\$ 3.75	\$ 7.50
2-3 ft., extra heavy, XXXX	7.50	14.25	28.50

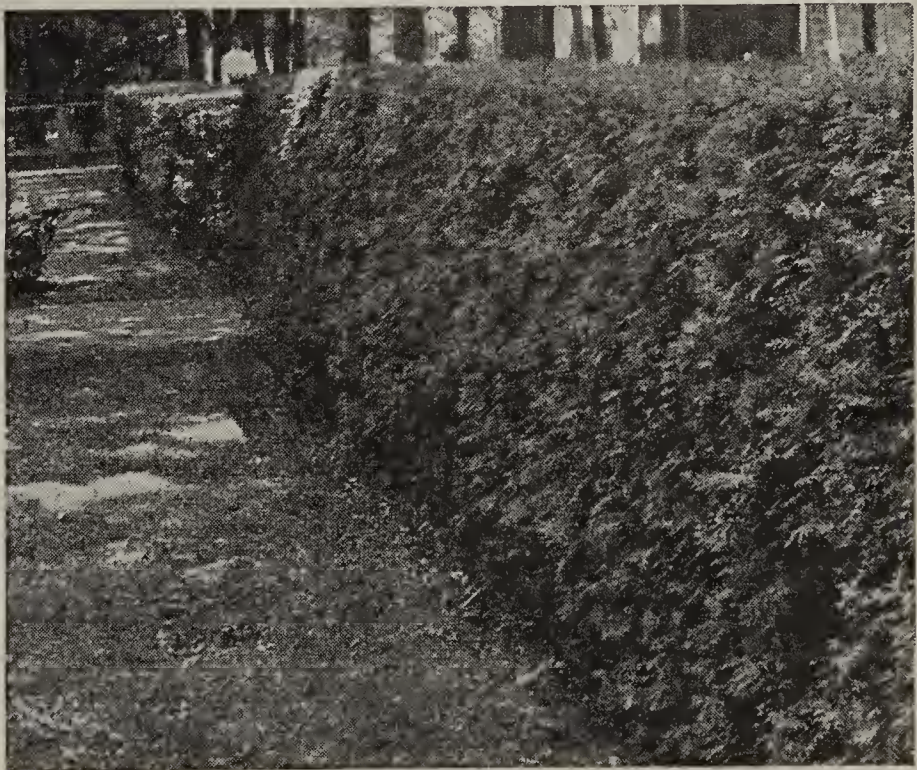

WHITE SPRUCE AND DOUGLAS FIR. These, too, make splendid hedges. See complete description and prices on pages 13 and 18. Set 18 or 24 inches apart in a hedge row.

GOLDEN ELDER. The gorgeous golden beauty of this splendid shrub makes a wonderful background, and its bushy, vigorous growth makes the most effective sort of a screen. Remember one thing—that the Golden Elder must have lots of sunshine to get the best yellow effects in the foliage. Plant 2 or 3 feet apart in the hedge. Complete description is given on page 58.

	25	50	100
2-3 ft. transplants	\$2.50	\$4.50	\$8.00

TARTARIAN HONEYSUCKLE. For the tall background hedge or screen, we personally think there is nothing finer than this very dependable, likeable shrub. It grows very rapidly, and its thick foliage, tiny artistic flowers and bright berries are a charming addition to any home planting. See complete description on page 58. Plant 2 or 2½ feet apart in a hedge row.

	25	50	100
12-18 in. average	\$2.50	\$4.50	\$8.00

Arbor-Vitae Hedge.

Murphysboro, Ill.,
Sept. 2, 1932.

Dear Sir: I am pleased to report the Black Hills Spruce evergreens purchased a year ago and shipped last spring are all growing in spite of the dry and hot summer we have experienced. The 150-ft. Spirea hedge purchased three years ago was a thing of beauty last spring—we did not lose a plant.

Yours truly,
MRS. ESTELLE GERENSLAGER.

Ferris' Selected Hardy Grapes

**Strong, Well-Rooted Plants—the Finest Fruiting Varieties—
at New Bargain Prices.**

Grapes are a favorite fruit the world over, and have been since the beginning of time. There is in the Grape the good savory qualities and rich flavor that make it so popular for eating as fresh fruit, and the uses to which it can be put in canning and jelly making are almost without number.

Care and Pruning. Grapes should be planted deeply, from 6 to 8 feet apart, south slope where possible. Annual and careful pruning is essential to the production of good Grapes. This yearly pruning should be done from November to March while the vines are entirely dormant.

In trimming Grapes, perhaps the best method to follow is to keep them trained to two wires run between posts, the first wires about 2½ to 3 feet from the ground, the second 5 to 6 feet from the ground. The main shoot or stock should run up to the top wire, with two branches growing out from the central stock on both wires, one in each direction.

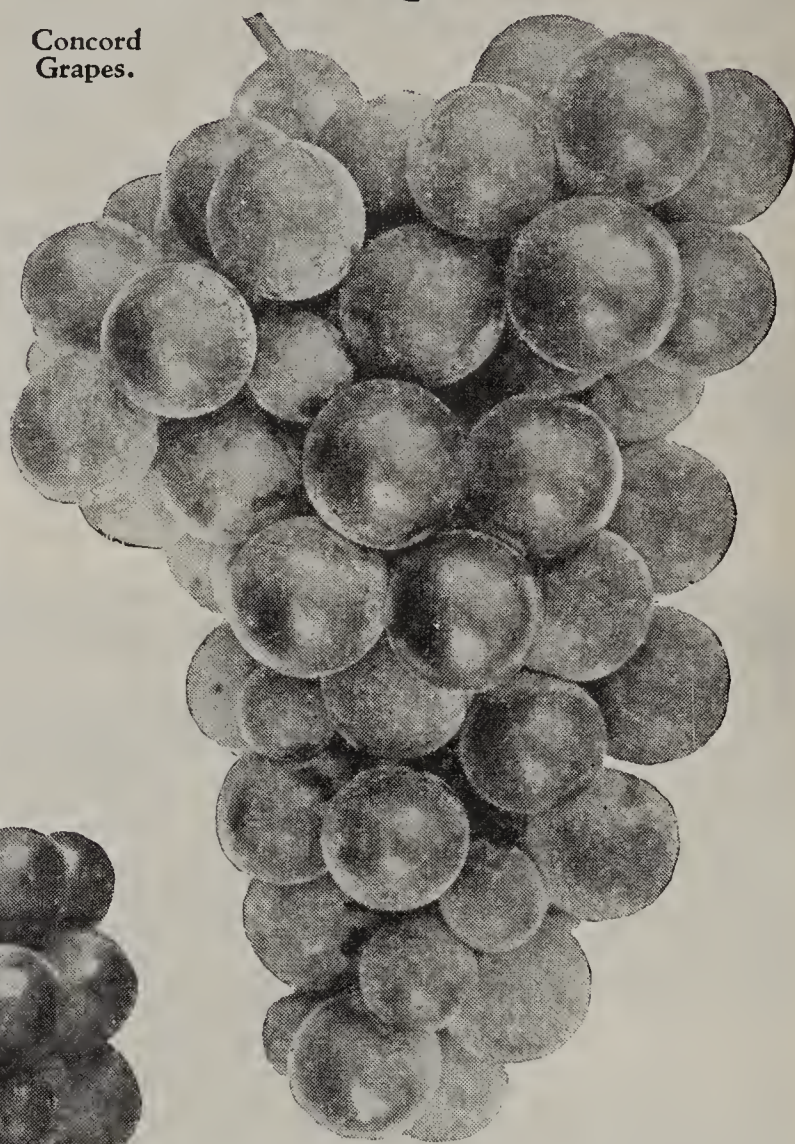

Black Grapes

CONCORD. The most popular Grape of them all. Bunch large and compact; berry large, round, almost black with blue bloom; juicy, sweet, fine flavor. Extremely hardy; very productive. Bargain prices: **Select, No. 1, 2-year plants, 10c each; 6 for 50c; 15 for \$1.00; 100 for \$4.50; 200 or more at \$4.00 per 100.**

MOORE'S EARLY. The best early Grape, and a grand commercial variety. Berry is large, blue-black, splendid quality, ripening about two weeks earlier than the Concord. Hardy, good grower, and a heavy producer. **Select, No. 1, 2-year plants, 15c each; 10 for \$1.00; 100 for \$7.50; 200 or more at \$6.00 per 100.**

WORDEN. For home use, there is no finer Grape than the Worden. A seedling of the Concord, but is larger in size, sweeter and of a finer flavor, but does not keep nor ship as well. Hardy and productive, the fruit ripening a week before the Concord. **Select, No. 1, 2-year plants, 15c each; 10 for \$1.00; 100 for \$7.50.**

Concord Grapes.

Moore's Early Grapes.

BETA. The hardiest of all Grapes, doing well even in North Dakota. Rather large sized bunches, berries medium size, blue-black in color, very juicy, having the sprightly flavor of the wild Grape. The Beta cannot be beaten for jellies and wine. An unusually strong, vigorous grower, making a most attractive covering for arbors. **Select, No. 1, 2-year plants, 15c each; 10 for \$1.00; 100 for \$7.50.**

Brant, Mich., Oct. 6, 1932.

Gentlemen: We sent for 45 Grape Vines this spring, and every one is certainly doing fine. I am also glad to state we have been pleased with all our trees that we have purchased from your company.

MRS. WILLIAM RAUSCH.

Red Grapes

AGAWAM. A delicious Grape, large, round, light red in color; flesh tender and juicy, exceedingly rich and sweet. An excellent table Grape and commands high market prices. Ripens after Concord. **Select, No. 1, 2-year plants, 15c each; 10 for \$1.00; 100 for \$7.50.**

White Grapes

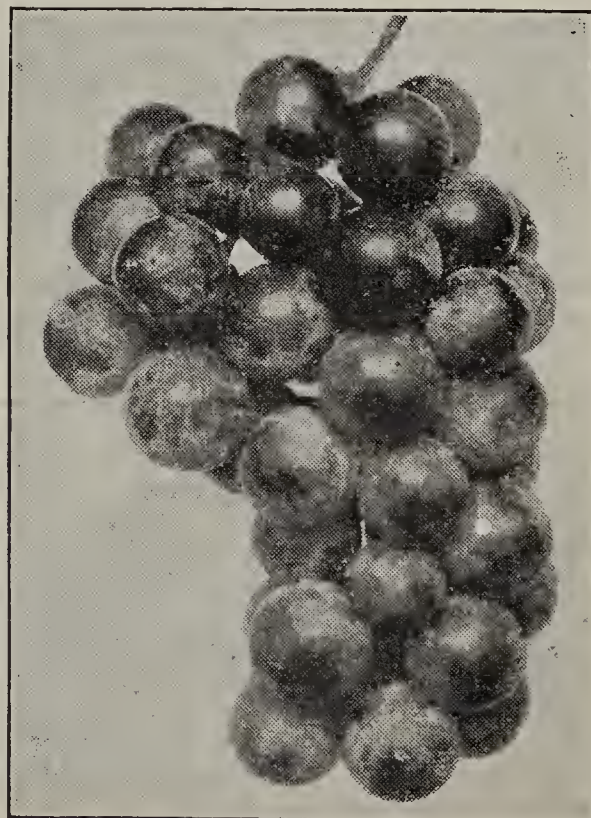

NIAGARA. The hardiest and best white Grape grown. Bunches large, with large berries of sweet, delicious flavor. Very popular for table use and wines. **Select, No. 1, 2-year plants, 15c each; 10 for \$1.00; 100 for \$7.50.**

PARCEL POST RATES ON ALL GRAPES

Add 5c each, 10c for 6, 15c for 10, 20c for 15, or 40c for 50 plants. More than 50 plants should go by express.

Niagara Grapes.

Agawam Grapes.

Blakemore.

Our Giant Mastodon Everbearing Strawberry

Our select strain of the Giant Mastodon is the king of all Everbearers—immense in size, full of sweet, rich flavor, a beautiful bright red color, and the heaviest producer of them all.

And imagine having these large, luscious berries in **three months' time!** Set out our fine, thrifty plants, give them the care they need, and in 90 days' time you will be well repaid by a magnificent crop of huge, delicious berries—not just for a few days, but all during the late summer and fall months, often into November, until the frosts stop them. It's the size and vigor of Ferris' Mastodon plants that enable them to produce these large, juicy berries during hot weather when Everbearers are, as a rule, producing few or very small berries.

We only wish we had the time and space to print all of the actual experiences our customers had with the Mastodon last season—glowing reports that would prove to you that without exception no home or commercial planting is complete without it. And, North, South, East and West it is the same—everywhere in America, the Giant Mastodon is the leading Everbearer.

Ferris' New Bargain Prices on No. 1, Genuine Mastodon plants: 25 for 50c; 50 for 90c; 100 for \$1.40; 500 for \$6.50; 1000 for \$12.00. After May 5th, add 25% to these prices. (If desired by parcel post, add 10c per 100 or 8c for smaller quantities).

Ferris' Extra Quality Strawberries

Take Advantage of These New Bargain Prices—Have Strawberries the Season Through—and Shortcakes, as Many as You Want!

How easy it is to grow Strawberries, especially when you use our hardy, northern grown, extra well rooted plants. No matter how small the property, there is always room for a bed of Ferris' Strawberries; there are large commercial plantings of our plants giving remarkable results in every section of the country. By planting some of each variety, you will have Strawberries—loads of them—from early summer until late in the fall—fine, large, luscious berries for shortcakes, pies, canning, and every concoction you can think of. There is nothing like fresh Strawberries to please the whole family.

How to Plant

Plant Strawberries in good, rich, well drained soil; the crown of the plant when set should be at the surface of the ground or a trifle below it. Tamp the earth firmly around the roots, leaving a thin layer of loose soil at the top of the ground to prevent baking. For distance apart to set the plants, see page 10. It will take about 8000 spring-bearing plants to the acre, or 10,000 everbearing plants. Keep ground clean and well cultivated. **It is best to keep blossoms and runners on the everbearing pinched off until the middle of July.** In late fall, when the ground is frozen down an inch or two, cover with clean straw, leaves, or corn stalks, and do not uncover too early in the spring.

Selected Spring-Bearing Strawberries

DUNLAP. There is no known variety that is so universally popular nor one that is so extensively grown as the Senator Dunlap. Very large, rich red berries and of remarkably fine flavor. It is a heavy producer, a splendid keeper and shipper, and does well everywhere. 25 for 25c; 50 for 40c; 100 for 70c; 500 for \$2.75; 1000 for \$4.50. After May 5th, add 25% to these prices. (If desired by parcel post, add 10c per 100 or 8c for smaller quantities).

BLAKEMORE. The splendid, new early Strawberry, surpassing all others for market and canning, and bringing the highest prices. Originated by the U. S. Department of Agriculture, it has been thoroughly tested and tried out in all sections, doing well everywhere, even withstanding drought better than other sorts. A heavy bearer, producing beautiful large berries of a bright red clear to the center, and because of its rich color and good keeping qualities, it is the favorite on the market today of all the early varieties. It has a wonderful flavor, hard to beat for fresh fruit, while for canning and preserving it cannot be excelled. 25 for 40c; 50 for 60c; 100 for 90c; 500 for \$3.50. After May 5th, add 25% to these prices. (If desired by parcel post, add 10c per 100 or 8c for smaller quantities).

HARVEST KING. And a real king it is, the strong, thrifty plants producing an immense crop of large, delicious berries, deep rich red in color, and of the most superb flavor. The Harvest King is extremely hardy, the fruit ripening about the same time as Dunlap. Whether fresh or canned, the Harvest King has a wonderful quality all its own. 25 for 65c; 50 for \$1.00; 100 for \$1.50; 500 for \$6.00. After May 5th, add 25% to these prices. (If desired by parcel post, add 10c per 100 or 8c for smaller quantities).

Mastodon.

ORDER YOUR STRAWBERRY PLANTS before May 1st, for early spring planting is the safest and best. After May 5th the cost of handling strawberry plants is almost doubled, and we must get 25% more on all strawberries sold after that date. We advise express shipment of 500 or more plants.

New Chief Raspberries.

Our Popular Raspberries

Summertime's Finest Fruits—at Prices Never Before Equaled.

If you are looking for quick profits and enjoyable work for your spare time, by all means put out a patch of Red and Black Raspberries—fruit that everyone agrees to be delicious. The growing cost is slight, they are hardy, very easily produced, will grow almost anywhere, and there are never more than half enough Raspberries to supply the demand so market prices run exceedingly high. Two or three rows across the end of your garden, or between the rows in your orchard, will give you more than your family can consume—the surplus will net you a nice profit.

Plant Raspberries shallow, in any good growing soil, and for distance apart to plant, see page 10. Use shallow cultivation, then early in June mulch heavily with straw. The wood which fruited this year should be cut out after the last picking and burned. Trim back the ends of the canes about one-third early in the spring of each year.

Red Raspberries

NEW CHIEF. An offspring of the famous Latham, having many of the fine qualities of its parent, and some even to a greater degree. The Chief is extremely hardy, a heavy cropper, and of unusual health and vigor; the fruit is a trifle smaller than that of the Latham, of a bright red color, and of superior flavor. It ripens ten days earlier than Latham, bridging the gap between Strawberries and Raspberries, thus bringing an extra good market price. **Select, No. 1 plants, 12 for 90c; 25 for \$1.50; 100 for \$3.50; 1000 for \$26.00.** (If desired by parcel post, add 10c for 12, 15c for 25, or 20c per 100 for packing and postage).

LATHAM. The greatest Red Raspberry in all the world! Big, handsome berries of clear red color, and full of rich quality and flavor that simply cannot be equalled—hardy anywhere, even in the far north—and the heaviest producer of all Raspberries. Is it any wonder there is such a demand for Latham, not only for the home but for the commercial planting. As a profit-getter, it is head and shoulders above all others. The fruit is firm, keeps well and ships well. Ferris' Latham Raspberries are a beautiful, thrifty lot, guaranteed to be entirely free of mosaic; they have been rigidly inspected three or four times by experts who pronounced them supremely healthy and mosaic free. **Our new, extra-low prices: Select, No. 1 plants, 12 for 65c; 25 for 95c; 100 for \$2.80; 500 for \$12.00; 1000 for \$22.00.** (If desired by parcel post, add 10c for 12, 15c for 25, or 20c per 100 for packing and postage).

Black Raspberries

There is Nothing in the World So Delicious and Wholesome as a Juicy Black Raspberry Pie.

CUMBERLAND. The largest Black Raspberry known, and our improved strain is the very best you can get in Black Caps. The immense berries are firm, and of the finest quality; they bring the highest prices of all Black Raspberries on the market. Plants are hardy and produce enormous crops. For home or market use, the Cumberland cannot be equaled.

KANSAS. A seedling originated at Lawrence, Kansas. Berries very large, jet black, and of high quality. It stands the trying climate of Iowa. Early.

OUR NEW LOWER PRICES ON OUR EXTRA CHOICE BLACK CAPS

Black Raspberry Tips (1 yr.): 12 for 50c; 25 for 70c; 100 for \$2.50; 500 for \$10.00. (If the tips are desired by parcel post, add 10c for 12, 20c for 25 or 40c for 100 to cover cost of packing and postage).

Black Raspberry Transplants (2 yr.): 12 for \$1.00; 25 for \$1.50; 100 for \$5.00. (If the transplants are desired by parcel post, add 15c to the 12 rate, 30c to the 25 rate, or 90c to the 100 rate, to cover packing and postage).

Latham Raspberries.

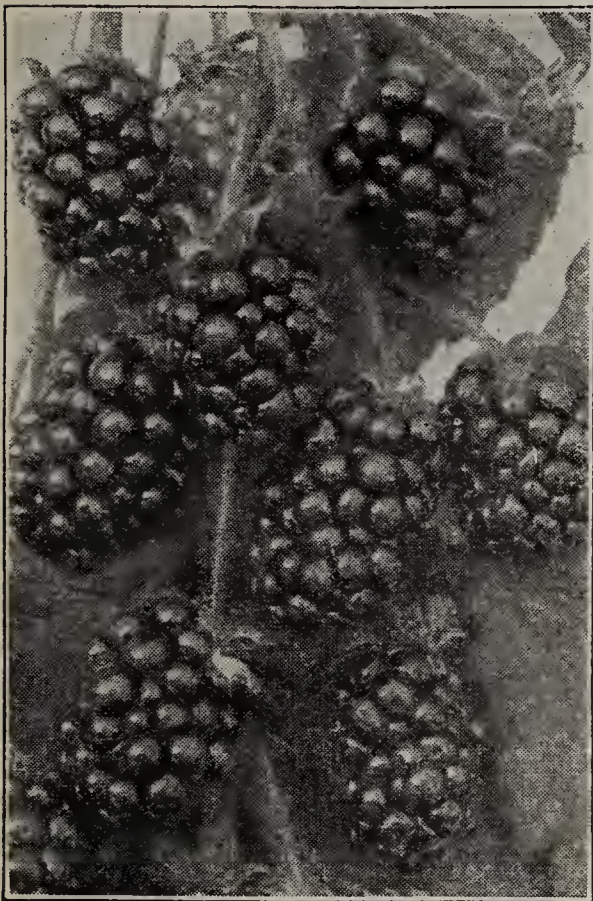

Blackberries

Ferris' Selected Eldorado for the Finest Pies, Jams and Desserts.

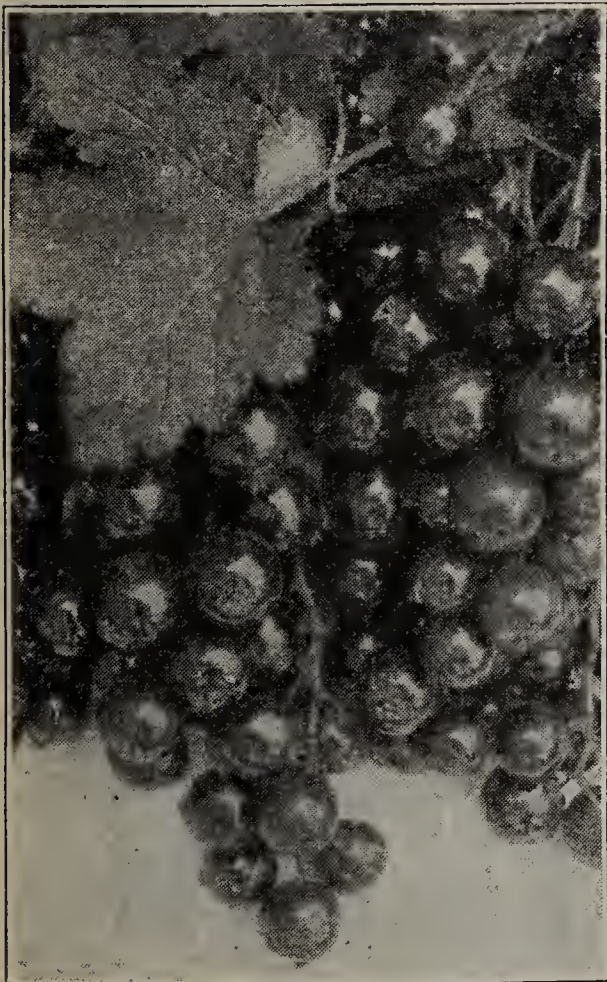

The growing of this very delicious and healthful fruit is attended with so little trouble and expense that every garden, however small, should have at least 50 plants. For rich jams and jellies—pies—wine—the Blackberry is hard to beat. Plant in good, well drained soil, caring for them much as you would Raspberries. A good mulching under the bushes will help to conserve the moisture, and we advise pinching back the canes occasionally through the season.

ELDORADO. We consider this the finest of the Blackberries. Very hardy, berries jet black, sweet, and of very inviting flavor—few seeds. Heavy annual producer; good keepers, good shippers. For home use or marketing, it is the ideal Blackberry. 12 for 50c; 25 for 90c; 100 for \$3.00.

(If desired by parcel post, add 10c to the 12 rate, 20c to the 25 rate, and 50c to the 100 rate, to cover cost of packing and postage.)

Eldorado Blackberry.

London Market Currant.

Cumberland Black Raspberry.

Dewberries

LUCRETIA. The Dewberry has low-growing trailing canes, and produces great quantities of long, black berries; very sweet, and of delicious flavor. Ripens about 10 days earlier than Blackberries. Very hardy, though it requires a little winter protection here in the Middle West. 12 for 75c; 25 for \$1.25. (If desired by parcel post, add 10c for 12 plants, or 15c for 25 plants).

Currants

Every Home Planting Should Contain a Few Currant Plants.

They are so easy to grow, and rich, spicy currant jelly is hard to beat.

RED CURRANTS

Strong, No. 1 plants, 15c each; 12 for \$1.50; 25 for \$2.25. (If desired by parcel post, add 5c each, 10c for 12, or 15c for 25 plants, to cover packing and postage).

CHERRY. Largest of all Currants; bunches short. Fine flavor.

FAY'S PROLIFIC.

Large cluster, berry large, beautiful, and a wonderful cropper. Superior flavor.

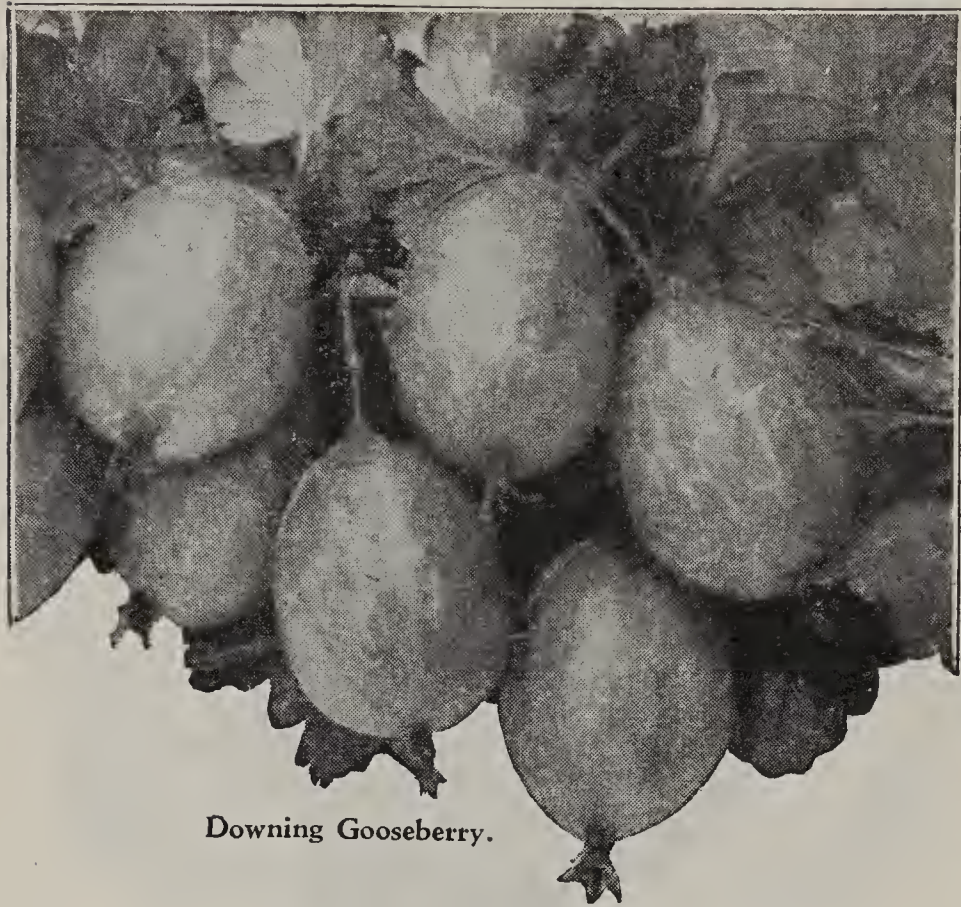

LONDON MARKET. Good for either home or market use. Fruit large, bright red, and of excellent flavor.

WHITE CURRANTS

Strong, No. 1 plants, 25c each; 12 for \$2.00; 25 for \$3.00. (If desired by parcel post, add 5c each, 10c for 12, or 15c for 25 plants, for packing and postage).

Lucretia Dewberry.

Downing Gooseberry.

Gooseberries

There's Nothing Quite Like the Pies and Preserves from Ferris' Gooseberries.

HOUGHTON. The old standby. Pale red; sweet and good; medium size, but very productive. 15c each; 10 for \$1.00; 25 for \$2.00.

DOWNING. Fruit very large, flesh whitish green, and excellent flavor. A favorite. 25c each; 10 for \$1.75; 25 for \$3.00.

(If Gooseberries are desired by parcel post, add 5c each, 10c for 10 plants, or 15c for 25, to cover packing and postage).

Asparagus

Delicious, Fresh Asparagus from Your Own Garden — Just Try It.

A little space in the garden will grow all of the Asparagus you will need. Plant the roots in deep, rich

soil, the crowns about 4 inches below the surface. For best results, fertilize annually with well-rotted manure when through cutting in June. It is best not to cut Asparagus the first year.

PALMETTO. The earliest of all Asparagus and a good yielder. Shoots are large, green, tender, and fine flavored. 2-yr. roots, extra good, 25 for 35c; 100 for \$1.50; 1000 for \$10.00. (If desired by parcel post, add 15c for 25, 30c for 100 roots).

WASHINGTON RUSTPROOF. The very finest of all Asparagus. It is a pedigreed strain, bred to resist rust. The shoots are thick and heavy, of a beautiful dark green color, the yield extremely heavy. Flavor unsurpassed. 2-yr. roots, No. 1, 25 for 40c; 100 for \$1.65; 1000 for \$12.00. (If desired by parcel post, add 10c for 25, or 20c for 100 roots).

Washington Asparagus.

Rhubarb

(Pieplant)

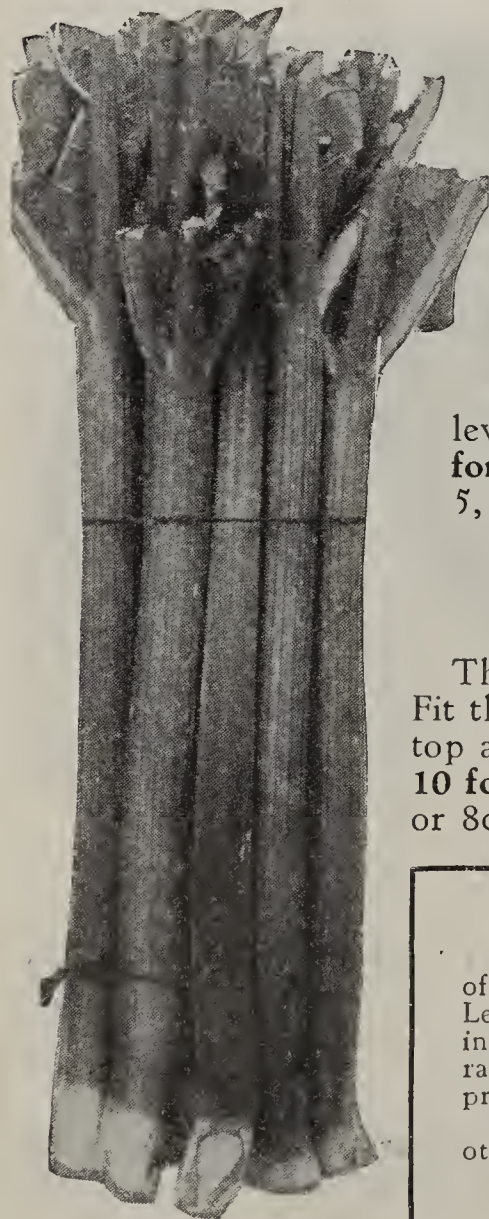

LINNAEUS. Early, very tender, and has a mild sub-acid flavor, not stringy or tough. The plant grows large; for pies and sauce, it is the housewife's favorite. Plant about 3 feet apart in good, rich soil, with the crowns 1 inch below level of the ground. 10c each; 5 for 40c; 10 for 75c; 100 for \$5.50. (If desired by parcel post, add 5c each, 10c for 5, 15c for 10, or 50c for 100).

Horseradish

The nippy relish, that tastes so good in the springtime. Fit the soil as you would for strawberries, and plant with the top about 1 inch below the surface of the ground. 10c each; 10 for 90c. (If desired by parcel post, add 10c to the 10 rate, or 8c for smaller quantities).

Horseradish.

Linnaeus Rhubarb.

Potomac, Ill., Sept. 19, 1932.

Dear Sirs: My shrubs, trees and plants certainly did fine in spite of the dry weather. We have some ripe strawberries now; our Cut-Leaf Weeping Birch is a beauty; the Butterfly bushes are still blooming, and they are beautiful, about 5 feet tall. The grapes and currants are doing fine, while the Spruce and Evergreens are very pretty. The Anthony Waterer is blooming again.

I am surely well satisfied with my order, and expect to send another soon.

MRS. CURTIS ALEXANDER.

There is Pleasure and Profit In Growing Your Own Apples

Especially when you use Ferris' hardy, northern-grown trees, with splendid roots and tops. They bear early and true-to-name. And our prices are the lowest in history.

Now is the finest time in the world to plant Ferris' Apple Trees. We have never had as fine a lot of them as we have now—they are wonderful trees for the orchard or for the back lot planting—extra hardy, grown under expert conditions here in the North, grafted on whole root, with scions taken from bearing trees to eliminate any possible mistakes in varieties.

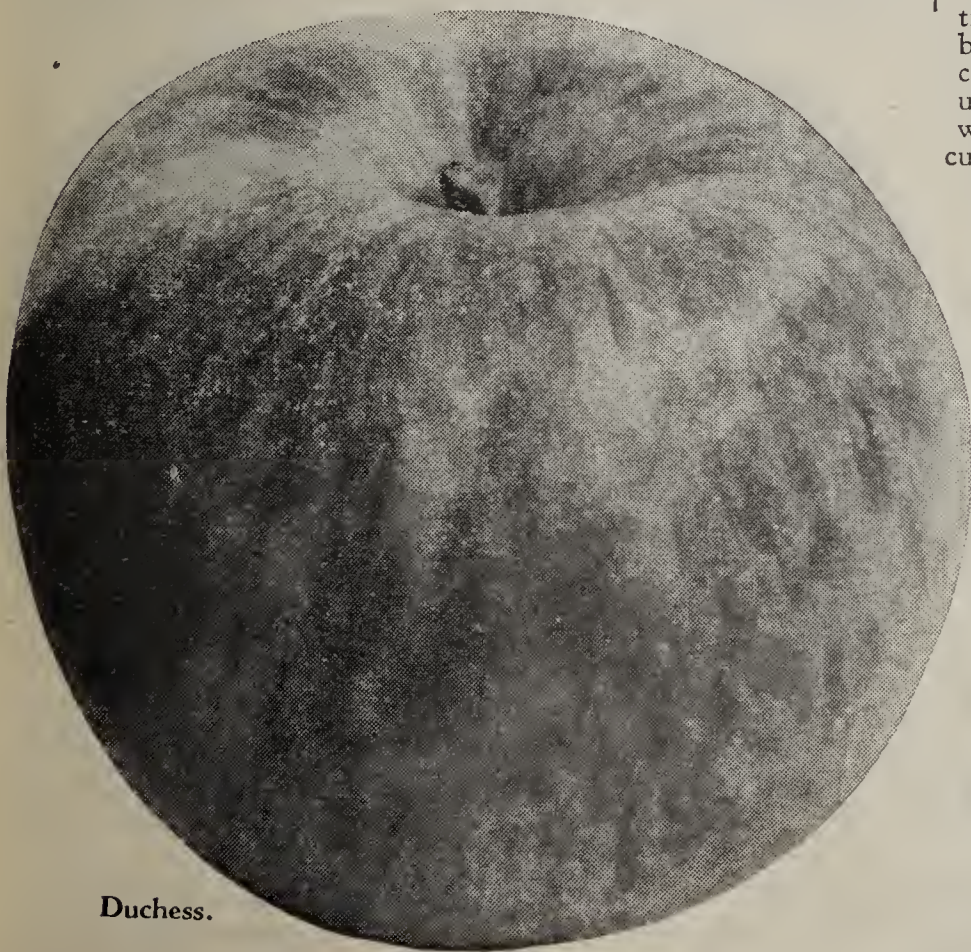

Not only that, we have brought the price way down to the extreme low limit, as we have a large stock of them, and want everybody to have the chance to plant some of these strong, fine trees. If you wisely choose a few of the early, a few of the fall varieties, and a gen-

erous number of the late apples, you will get an abundance of luscious fruits, some of them starting to bear in a year or two.

PLANTING DIRECTIONS

You will find the distance apart to plant Apple trees on page 10, and how to figure the number of trees to the acre. In setting your trees, follow the same transplanting directions that are given for evergreens (see pages 9 and 10), with the exception that fruit trees of any kind should never be mulched. Mice will make nests in the mulching and ruin your trees. The ideal place for small fruits, such as raspberries, is between the rows of Apple trees—they will then both get the shallow cultivation that means best success.

To produce healthy, well developed fruit, you should spray your trees at least three times a year, with Bordeaux Mixture, which can be secured at any drug store. First, they should be sprayed in the cluster bud stage, when the buds show pink but have not opened up; second, when 95 per cent of the petals have fallen; third, three weeks after the second spray. You will find the Apple tree easy of culture; it will do well on almost any well drained soil.

Duchess.

Ferris' New Low Prices On All Apple and Crab Trees

Except Golden Winesap, Ferris' Bright Red Delicious and Ferris' Yellow Delicious. (See page 75 for prices on these three Apples).

4 to 6 ft. average height, good, select trees, with 3-year root and 2-year top. A beautiful lot. Each, 30c; 10, \$2.50; 25, \$5.75; 100, \$22.00.

(The 4 to 6 ft. Apple trees should always be shipped by express. They cannot be shipped by parcel post unless given a severe pruning. Send 10c per tree extra for trimming, packing and postage, if you must have these No. 1 Apple trees by parcel post).

(For prices on these Apples, see page 73).

Summer Apples

DUCHESS OF OLDENBURG. The head of the list for summer cooking apples. Fruit is nearly round, large, and beautifully streaked red and yellow. Flesh tender, juicy and pleasant. Bears young and abundantly.

YELLOW TRANSPARENT. There is no summer yellow apple to equal it. Color a rich, transparent yellow, with a warm faint blush on the sunny side; flesh is melting, juicy, sub-acid; excellent quality. Tree very hardy, bearing heavy crops even when young.

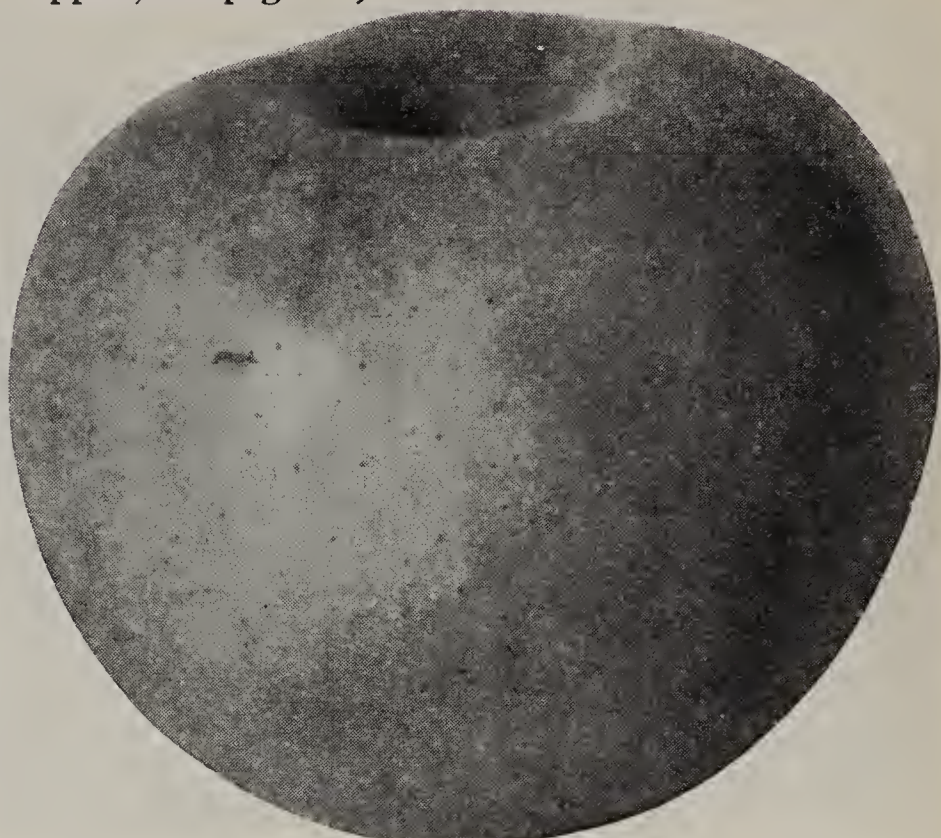

EARLY HARVEST. Medium size early apple of clear, waxy yellow; juicy and fine flavor.

RED ASTRACHAN. The best early red apple for the northern climate. Good size fruit, dark red, fine quality. A young and heavy bearer.

RED JUNE. Medium size, skin red, flesh white, tender, juicy, sub-acid. An old-time sort always in demand.

LIVELAND. A handsome red apple of medium size; flesh white stained with red, tender, crisp, juicy, and of fine flavor. Bears very young; fruit keeps well for an early variety.

ANOKA. This is the "Wonder Apple," that bears fruit on 1-yr. wood. That is, the second year after you plant it you will get fruit, and fine large apples of good flavor. In appearance and size it is much like the Duchess. Just imagine—the second year after you plant the tree you will be having fresh apple pie from your Anokas in July.

Yellow Transparent.

Wealthy.

Fall and Early Winter Apples

WEALTHY. Very hardy, grows and bears well in the north as well as the south. Comes into bearing earlier than most other apples, often fruiting the second year after planting. Large size fruit, with vivid stripes of red; flesh white, fine, juicy, and of wonderful quality. Good for cooking and eating.

WOLF RIVER. Extremely large fruit, splashed and streaked with red; flesh white and coarse, juicy, mild, sub-acid.

FAMEUSE (Snow). Medium size apples with deep crimson stripes. The pure white flesh contrasts beautifully with its deep, rich color; juicy and of highest quality. November.

MAIDEN BLUSH. Large apple, beautifully blushed; flesh white, tender, and of excellent quality. Fine for eating, and a splendid cooker. August to October.

CHENANGO. Long pointed fruit with handsome red stripes, and as fine a flavor as you could want. One of the finest for the home orchard. August to October.

Late Winter Apples

DELICIOUS. "Delicious" in every sense of the word, it has held the world record as a Perfect Apple. Fruit is large, rather elongated, and easily distinguished by the five little knobs on the blossom end; color a rich crimson, and the quality is superb. Good keeper and shipper—it commands the highest prices on the market of any apple. Our trees are genuine Delicious, descended from the original tree stock.

GRIMES GOLDEN. It's hard to beat this beautiful, golden yellow apple, with its rich, spicy flavor. Fruit is quite large; flesh yellow, firm, very fine grained, juicy, sub-acid. It bears young and heavily; it is one of the most popular market sorts.

JONATHAN. One of the best sellers ever produced. Fruit has an extremely attractive, bright red skin—quality of the finest—flavor of the best. Flesh is tender and very crisp, very juicy. Hardy tree, bearing young and abundantly. It's a great apple and a favorite everywhere.

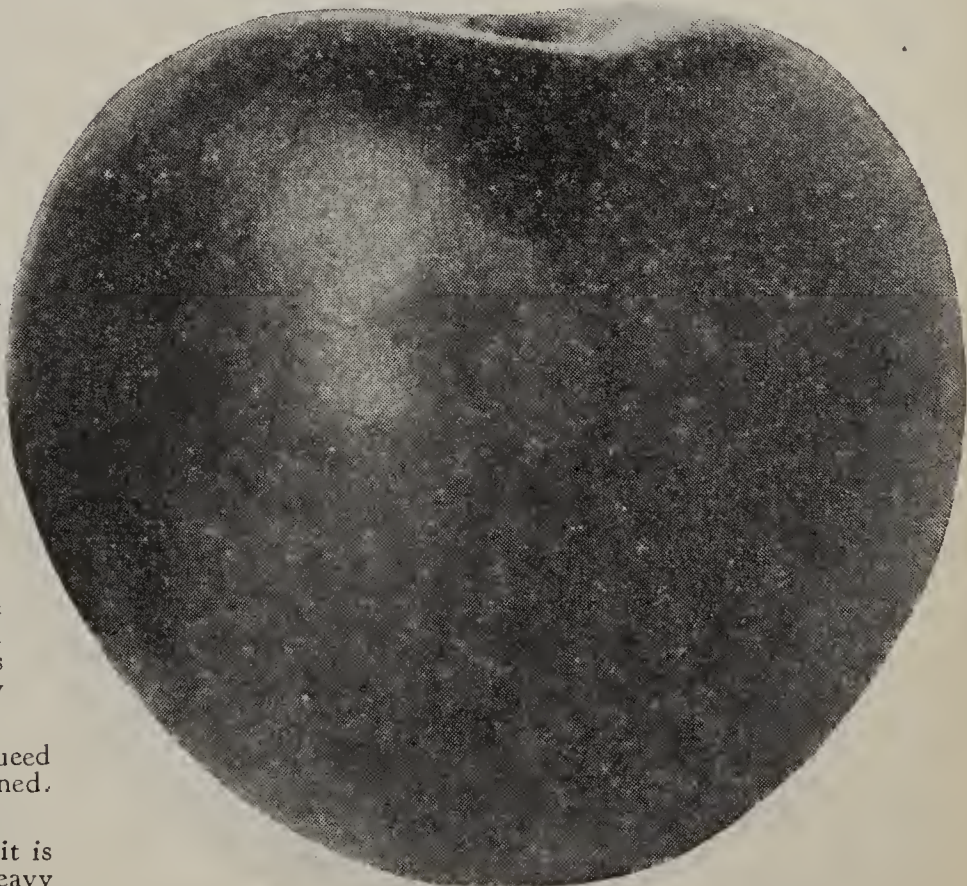

McINTOSH. Large, deep crimson and beautiful; flavor of the finest. Hardy, vigorous tree, and a regular bearer. Flesh pure white, crisp and very tender. Should be in every home orchard, and is a fine market sort.

STAYMAN'S WINESAP. Large, dark red apple with rather indistinct striping; flesh tender, juicy, and rich sub-acid flavor. A great favorite for eating and cooking, and a wonderful market fruit.

SALOME. One of the finest winter apples for the North. Good size fruit of dark, rich red color, and of extra good quality. When stored, it will keep until May—in fact, its crisp, juicy flesh is much improved after it has been stored for a while. Very hardy and fine.

NORTHWESTERN GREENING. The best Greening ever produced and the hardiest. Fruit large, greenish yellow, firm and fine grained. Early and productive bearer. Good keeper.

TOLMAN SWEET. The universal favorite of the sweet apples. Fruit is large, creamy yellow, and somewhat blushed; flavor very fine. Heavy producer, fruit a good keeper.

Winesap.

Jonathan.

(For prices on these Apples and Crabs, see page 73).

HARALSON. A new apple that many consider to be the finest of all winter varieties for the North. Very hardy, fruit of good size, attractive red color, while flesh is fine grained, tender and juicy, quality of the best. Starts bearing when very young; it is a fine keeper in storage.

BALDWIN. A large, dark red apple; sub-acid, fine flavor. Productive and profitable. Fruit will keep well until spring.

BEN DAVIS. An old-timer; one of the best for market and cooking. Fruit large, yellow striped with red, good quality, and excellent keeper.

GANO (Black Ben Davis). Large, bright red apple, with polished skin. An early and prolific bearer; fruit keeps long and is splendid for cooking.

ROMAN STEM. Medium size fruit of greenish yellow color; flesh tender and juicy, with rich, pearlike flavor. Fine for eating or cooking. An excellent keeper.

ROME BEAUTY. A large, beautiful apple of light yellow color shaded red; flesh tender, juicy, and of good quality. Very popular market apple.

WILLOW TWIG. A late keeper that lasts until the fresh apples are here again. Large greenish yellow fruit, faintly striped with red. Splendid for cooking.

Crab Apples

HYSLOP. Large, deep crimson crab of fine flavor. Very popular on the market.

DOLGO. Called the perfect crab. It is extremely hardy, growing and bearing large crops of delicious crabs in any part of the United States. As an ornamental tree on the lawn, no fruit tree can equal the Dolgo Crab, and especially is it a thing of beauty when loaded with the large white flowers in spring, then the great clusters of bright red fruit in the summer. Fruit is oval in shape, and a deep solid red; it makes the most delicious kind of jelly, and always jells perfectly even after the fruit is dead ripe.

TRANSCENDENT. Very hardy, bearing young and abundantly. Good size fruit of rich yellow shaded with red. Firm, crisp flesh, very juicy, and tart flavor. Fine for jelly and pickles.

WHITNEY. The finest and most popular of the Crabs. Large size fruit, greenish yellow splashed with carmine, and unusually fine flavor. Splendid for pickles and preserves.

If You Want the Finest in Winter Apples— Here They Are

Bright Red Delicious

One of the newer Apples that has been very popular with Ferris customers. It has all the fine qualities of the common Delicious, then in addition the fruit is completely covered with a deep rich red color, and is conceded to be the most beautiful of all Apples. The flavor is delicious, flesh crisp and juicy, the fruit keeping well until spring. Tree is a heavy bearer. You will certainly want some of our genuine Bright Red Delicious in your home planting.

	Each	10
4-6 ft., select, heavy	\$0.65	\$5.00

Yellow Delicious

If you want the finest yellow winter Apple that has yet been grown, you will have to get our new Yellow Delicious. Beautiful, golden yellow Apples of immense size that bring the fanciest prices on the market. Flesh is firm, juicy, crisp, and of a most delicious sweet-tart combination; a splendid keeper. Tree bears very young. Order at once as our stock is limited.

	Each	10
4-6 ft., select, heavy	\$0.70	\$5.50

Golden Winesap

A wonderful new Apple—great in size, great in quality and flavor, and in its long-keeping ability. Rich golden yellow fruit is blushed when ripe, and has a delicious spicy tartness that makes it splendid for cooking. Bears enormous crops.

	Each	10
4-6 ft., select, heavy	\$0.50	\$4.00

Red Delicious.

- 2 Ferris' Yellow Delicious

THESE SIX WONDERFUL APPLE TREES
4-6 ft. high, by express, for **\$2.75**

You Will Get Big Crops of Fruit From Our Hardy Cherry Trees

The Price is Amazingly Low This Year.

Let's have more of those juicy Cherry Pies—America's most popular dessert! And why not? It's an easy proposition if you plant a few of Ferris' strong, hardy, well-rooted Cherry Trees this spring, at these remarkable bargain prices. Quick to bear, and such big fine crops—all the children will want to eat, plenty to can, and pies to your heart's content. The Cherry is so easy to establish—likes good, well drained soil, and should be planted at the same depth as in the nursery row. You can plant it anywhere on the lawn, for the tree is ornamental as well as fruitful.

We are offering you here the three best, hardy Cherries. Every home planting should contain a clump of our extra select Cherry Trees.

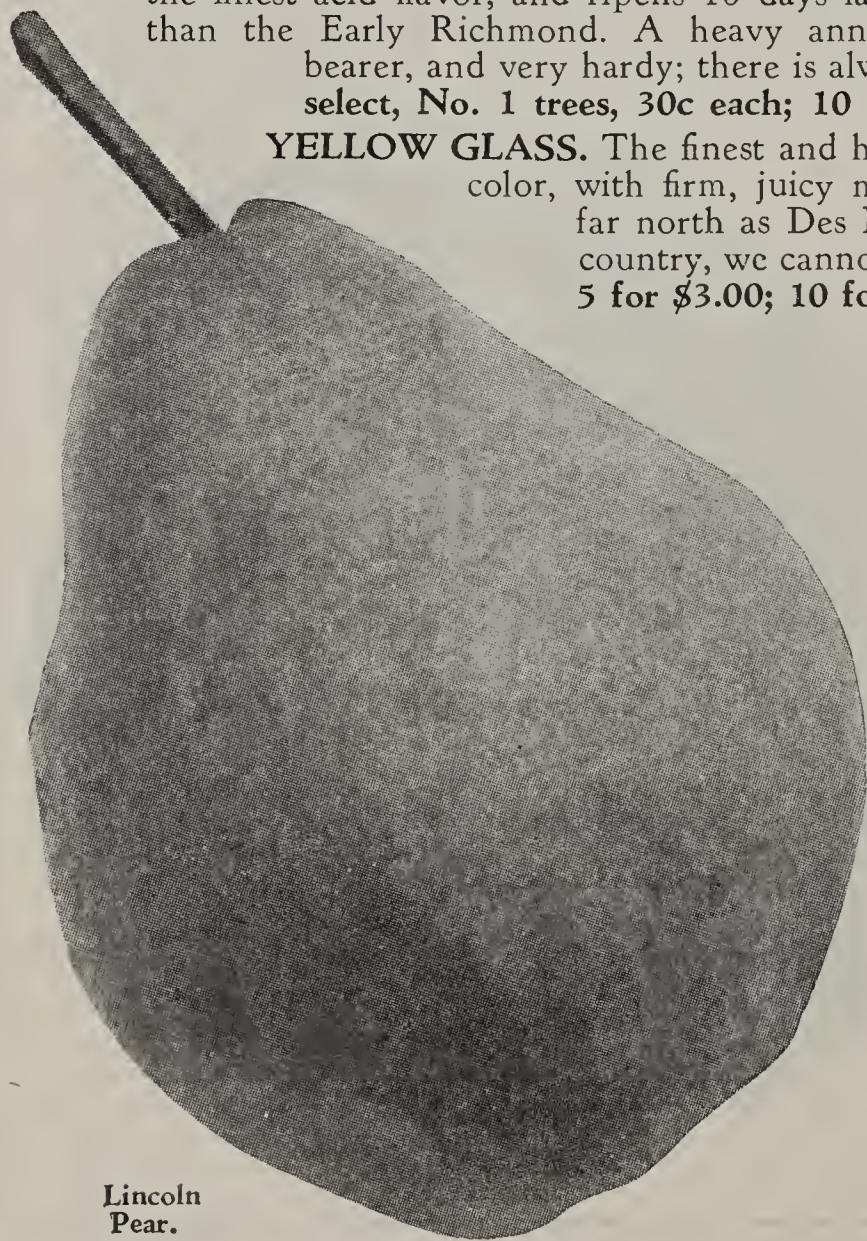

EARLY RICHMOND. The earliest of them all, and a general favorite. Fruit medium size, bright red and juicy, rich acid flavor, and especially fine for cooking. Heavy bearer, and extremely hardy. 3½ to 4 ft. average, select, No. 1 trees, 30c each; 10 for \$2.50; 100 for \$17.50.

MONTMORENCY. A beautiful, large, red Cherry of the finest acid flavor, and ripens 10 days later than the Early Richmond. A heavy annual bearer, and very hardy; there is always a strong demand for Montmorency. 3½ to 4 ft. average, select, No. 1 trees, 30c each; 10 for \$2.50; 100 for \$17.50.

YELLOW GLASS. The finest and hardiest of all Sweet Cherries. It has a beautiful golden yellow color, with firm, juicy meat, and is of superb flavor and sweetness. It fruits well as far north as Des Moines, and for our customers who live in the Sweet Cherry country, we cannot acclaim it too highly. 4-4½ ft., select, No. 1 trees, 75c each; 5 for \$3.00; 10 for \$5.00.

Montmorency Cherry.

Lincoln Pear.

Selected Pears

Our new prices on all Pear trees, excepting Lincoln: Strong, well-rooted, averaging 4 to 4½ ft. high, 35c each; 10 for \$2.50.

BARTLETT. Large, yellow Pear of fine flavor. Very popular.

DUCHESS. Very large, greenish yellow with russet spots; rich juicy flavor.

KIEFFER. Well known canning Pear. Hardy; prolific; fruit large and yellow.

SECKEL. A rather small Pear of unusual sweetness and fine flavor. Very productive.

PATTEN. A wonderful, hardy Pear, doing well even in the North. Attractive, large fruit, green in color with reddish blush. Flesh is very tender, juicy, sweet, and rich. We recommend the Patten highly.

LINCOLN. The very finest Pear ever produced. Quality is as good or even better than the luscious Bartlett, very hardy, and a heavy cropper. Beautiful large fruit of clear yellow flushed with bright red, and whether canned or eaten fresh its flavor is delicious. 4 to 4½ ft., No. 1 trees, 75c each; 10 for \$5.00.

Choice Peaches

Our new prices on all Peach trees: Strong, well rooted, averaging 4 to 4½ ft. high, 25c each; 10 for \$2.00.

CRAWFORD'S EARLY. A fine-flavored Peach of large size; yellow blushed red. Freestone.

CRAWFORD'S LATE. Excellent quality; fruit large, a beautiful yellow with red cheek. Freestone.

ELBERTA. The market favorite. Large yellow fruit, blushed, and of fine flavor. Freestone.

J. H. HALE. A beautiful large Peach, yellow blushed red; solid yellow flesh of delicious flavor. Freestone.

Plant

Ferris Hardy Plums

They Will Bear You Immense Crops of Delicious Fruit—Take Advantage of Our Extra Low Prices.

Here are the finest of all Plums—hardest and most fruitful—Plums of the highest quality and flavor. You should plant a clump of several varieties to get the biggest and best crops, and you will very quickly harvest a bountiful crop of luscious Plums—all you want to eat fresh, a large quantity for canning and pies, and some to sell besides. They are so easy to grow, and our Plum trees are all select, No. 1 grade.

OUR NEW LOW PRICES ON ALL PLUM TREES
3½-5 ft. high, No. 1 trees, 30c each; 10 for \$2.50.

The New Minnesota Hybrid Plums

Delicious Plums—and Hardy to the Canadian Line.

UNDERWOOD. Very large, red fruit, juicy and sweet, and the very best flavor. Small pit, semi-cling; produces heavy annual crops and is extremely hardy. By all means have an Underwood or two in your clump of Plums.

ELLIOTT. Later than the Underwood, with medium large fruit of fine quality. A heavy producer.

MONITOR. A handsome, dark red Plum, large and extremely hardy; flavor of the best.

LORING PRIZE. A prize winner—fruit extremely large, nearly freestone, bright red, and of a delicious flavor superior to the California Plum.

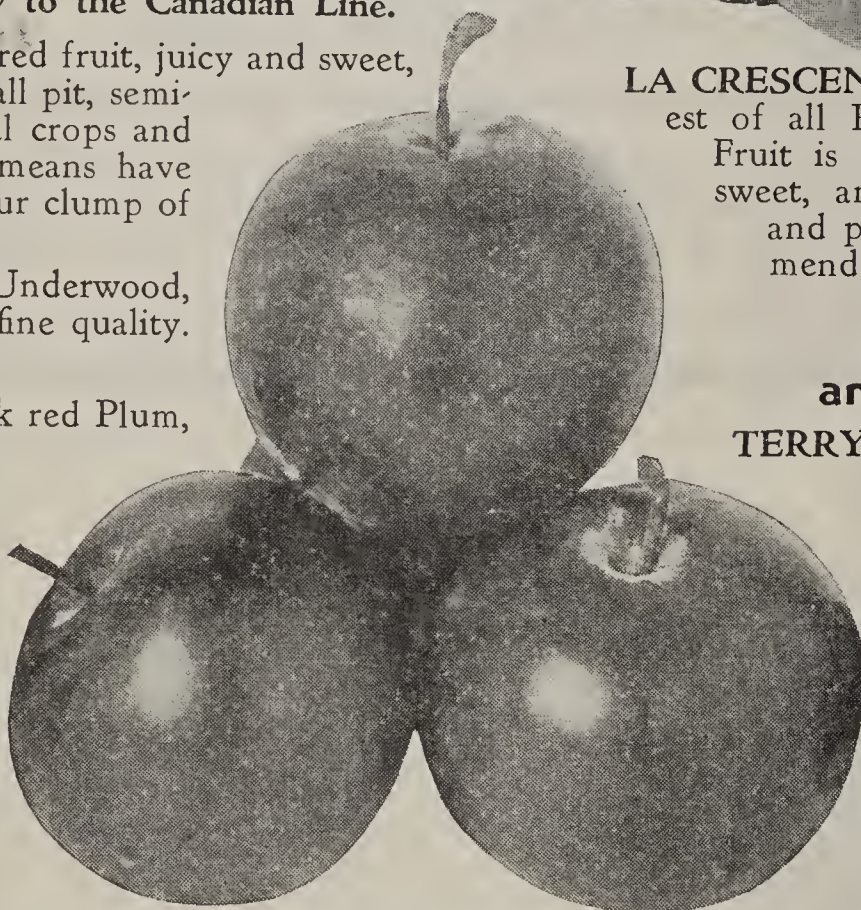

Underwood Plum.

LA CRESCENT. Some claim it to be the finest of all Plums—splendid for table use. Fruit is clear yellow, very tender and sweet, and makes wonderful preserves and pies. An early Plum; we recommend it highly.

Selected Native and European Plums

TERRY. One of the finest Plums grown. Very large red fruit, with juicy flesh of fine flavor. Hardy and a heavy bearer.

BLUE DAMSON. The old favorite for preserves. Medium size fruit, black in color, overspread with a heavy bloom. A heavy annual producer.

Monitor Plums.

Hansen's Hybrid Cherry Plums

These are the Wonderful Hardy Plums Originated by Prof. N. E. Hansen of South Dakota—Immense in Size—Superb in Quality.

(It is usually desirable to plant one or two other types of Plums in your clump of Hansen's Plum trees, for best cross-fertilization. Spray annually with Bordeaux Mixture).

WANETA. A masterpiece in Plums. It often bears the next year after planting; fruit is extremely large, sometimes 2 inches in diameter, and of finest quality. Color dark reddish purple. One of the most popular Plums ever grown.

HANSKA. You will like this large, bright red Plum, with its rich apricot flavor. Young to bear, and hardy anywhere. Fine for cooking or eating fresh.

OPATA. Not so large as some of the other Hansen's Plums, but of very fine quality, and the first Plum of them all to ripen. Fruit is freestone, dark purplish red with blue bloom, and with a very pleasing "sweet-acid" flavor. Very heavy bearer, growing and fruiting well in any section.

SAPA. One of the most wonderful of the Hansen's Plums, with dark purple skin and purple flesh of the finest flavor. Very fine for canning. Fruit is borne in clusters similar to grapes; medium large in size. Very hardy.

KAGA. A new Hansen's Plum of delicious quality. Fruit is quite similar in size and color to the Hanska, being very large and a rich red color, but is a heavier bearer. The flesh of this splendid Plum is firm, fragrant, and of delicious flavor, especially fine for preserves. Hardy everywhere.

Waneta Cherry Plum.

We Give Satisfaction to Our Customers Everywhere

Stamping Ground, Ky., Sept. 12, 1932.

Dear Sir: I am glad to be able to report that I had a perfect stand from the plants I bought from you this spring. The Roses, Mountain Ash, Snowberry, and Flowering Crab bloomed within a few weeks after planting. The Hydrangeas and Bush Honeysuckle were so large that I was able to divide them into two or three strong plants each. All the stock was strong, healthy and true-to-name, and cost less than I could have obtained it for elsewhere. Two years ago I bought from you a Paul's Scarlet Climber Rose that had forty blooms within three months after planting.

Yours truly,
J. W. SINGER.

Milwaukee, Wis.,

Oct. 3, 1932.

Gentlemen: This spring I purchased twenty (20) Rose bushes from you, one of your outstanding bargains. They have been a mass of blooms all summer and at this date, October 3rd, they are still going strong.

They are wonderful roses and attracted all my neighbors' attention for closer inspection. Their silent salesmanship is astonishing, for all my friends inquired where they were bought. You may depend on new orders as well as mine in the spring.

Yours very truly,
GILBERT FRENZ.

Irvington, N. J., Oct. 4, 1932.

Gentlemen: Just a line to let you know how proud I am that everything I ordered last spring grew very satisfactorily, and especially are the Phlox you sent me beautiful. That is the reason I am sending you the enclosed order.

Very truly yours, GUSTAVE SKODAK.

Santaquin, Utah, Sept. 26, 1932.

Dear Sirs: Am glad I can report a 100% stand from the Apple trees I procured from you last spring, and further that they all began to grow as soon as planted, making a good growth during the growing season.

Yours very truly, LA VERE VAN AUSSAL.

Flushing, N. Y.,
Sept. 25, 1932.

Dear Mr. Ferris:

I am writing to tell you how nicely all the little Norway Spruce are growing. When ordering these, I only expected some to survive after the long distance they traveled but I am very pleased to say they are all growing fine. A friend of mine has just bought a place of her own, so I would like you to send her one of your catalogs.

Very truly yours, MRS. THOS. MODER.

Charles Town,
W. V.,

Sept. 25, 1932.

Dear Sirs: I am

glad to write that the Japanese Barberry, two Pyramidal Arbor-Vitae and French Lilacs are in excellent condition, having grown well during the summer. A Snowberry and two Hydrangeas are doing fine also. And, I am delighted with the evergreen seedlings.

Very truly yours, MRS. MELVIN T. STRIDER.
